

sons who may be so employed, Your Committee would recommend the application of a sum not exceeding £200.

No. 69, £200.

The regulations established by His Excellency the Administrator of the Government for the expenditure of the monies appropriated last year by the Provincial Legislature for Internal Communications, are of so judicious a character as to require nothing further from Your Committee, than this expression of their opinion and their hope that they may be continued in the ensuing year, and they doubt not that the care which has been taken by His Excellency as well in framing these instructions, as in nominating fit and proper persons as Commissioners, and the vigilant superintendance over the right and economical application of those monies, will be continued in respect to the appropriations now recommended by Your Committee, and they beg leave to add, that it is from a deep conviction of this, that they have been induced to recommend in the foregoing proposed appropriations, the expenditure of larger sums of money than they would otherwise have felt themselves justified in doing.

*Ordered,* That the Chairman do leave the Chair and report.

The whole, nevertheless, humbly submitted.

F. BLANCHET,  
Chairman.
