

**No one ever said it would be easy.**

... running a hospital with a minimum of medical supplies – building a bridge with nothing but timber and sweat – teaching a child who knows only a strange tongue. But that's what CUSO workers do ... hundreds of them in 35 countries. They meet the challenge of a world of inequalities – in education, in technical facilities, in engineering and medicine.

This year, the Canadian University Service Overseas – a non-profit non-government organization – has already sent 350 young volunteers to countries in Asia, in Africa, South America and the Caribbean ... a total of 550 CUSO people altogether in the field, or about 1 to every 50,000 people who ask for their help. More are needed.

The pay is low ... you won't make a

profit. Unless you count it profitable to see developing nations master new skills and new standards of health and science.

You can't earn a promotion ... but you can promote. You will promote new learning, and enthusiasm, and a desire to succeed in people who are eager to help themselves.

There are no Christmas bonuses ... but you earn a bonus every day in the response of the people you work and live with. And you'll be amazed at how quickly you'll find an opportunity to develop your ideas, your dreams.

Willing to work to build a better world?

Here's just the job for you.

How do you apply? Get more information and application forms from local CUSO representatives at any Canadian university, or from the Executive Secretary of CUSO, 151 Slater St., Ottawa.
