

??!

WHERE

?

Doug Demi-Nez — Late of CHSR and the National Facist Radio Network, met an untimely end, by nosing around where his shouldn't have been. His shadow is on permanent display in the Demi-Nez mausoleum, formerly Production Control Room.

Mike "Killer" MacKinnon. After 10 years spent trying to revive Sharkey and working on the ultimate computer program to bring peace to the world, Mike left UNB and the Bruns to run for WORLD President. Having lost in his bid to that great peace activist "Bro" Hutchmo, Mike was last seen toiling in a rice paddy in Thailand.

James Downtree — After an illustrious career as UNB PR director and hitman, decided to put his talents where they would really help humanity — tour guide for the Contra rebels. Downtree, while trying to rescue NoRush from his confinement in the hospital, accidentally drove over a contra land mine, killing both.

THEY

Andy VanFaust - Andy never did decide what degree he wanted to pursue, so after fifteen years he left UNB.
In 2002 it was reported that he had moved to Paris. France to launch a career in designing clothes. His efforts to convince Europe that Blue, Brown and Pink were the colours that would set the fashion world on its ear, failed.
In a last ditch attempt to salvage a career, Andy introduced a hair gel that he claimed would eliminate the need to wash your hair. He cited the fact that he had used the product for the past 25 years and never felt the urge to apply water or shampoo to his scalp. This apparently never took off. VanFaust was last seen in Morocco peddling second hand radio station equipment.

Ken Quiglan - died in 1988 after endeavouring to continue the diet that made him sooooo famous.

Oily Cantz - still at UNB, but not as a student. In 2001 Oily failed his term on academic probation as his official footstool.
In 1986 Oily married Emelda Lym and they went on to have their first child in 1986.

Michael Bent - After graduating in 1995, Bent went on into government where he became the youngest and shortest Canadian Sports Minister. Bent was chiefly responsible for making sport against curbs (curbball) an Olympic sport.
Bent left the world of politics in 2005 and pursued his life long dream of being a fertilizer salesman. He recognized his gift for such an endeavour back in his UNB days where he developed the skill to sell fertilizer (of sorts) to anyone.

?

ARE

Gordo Groaner's years of being receptive to the right people resulted in his ascension to that heavenly abode on Waterloo Roo, the Presidential Palace. Groaner and Pill Murphy are presently collaborating on a plan which would result in the use of students' tuition fees to build a private escape haven for aging rockers.

Bro Hutchmo - After a stint as a capitalist in Fredericton, Bro saw the error of his ways and went on to form the world's greatest funk rap band — Bro and the Hutchmen. After topping the charts for years with his hit "Exploitation in the USA", Bro decided to turn his talents to politics, defeating "Killer" MacKinnon in the race for WORLD President. Bro is again residing in Fredericton, renamed Shangrila, the new WORLD capital.

NOW

Huggy Brownose - in 1987 had a lobotomy performed on him and strangely enough his GPA went up. He too was employed by Bozsmith, but as a muppet.

Larry Longbelly - Larry never did give up his glutton strike (started in 1986 to show his opposition to Quiglan's hunger strike) and presently weighs over 1400 lbs.
In 1995 when Larry was a svelt 930 lbs he went into the dog food business.

Pill Murphy — Pill engineered the take over of the SUB Board, which turned the SUB into a Rock 'n Roll Revival Reggae Bar. The Bruns offices have been turned into a sweatshop for the production of CHSC posters, advertising the return of Pill's favourites: The Beatles; The Rolling Stones; The Kinks and The Who; along with original casts of Broadway musicals.

"Frank" Lethbridge - Lethbridge unfortunately died in 1992 on an overdose of valium.
His last words were apparently "Kill Bozsmith! He's the Anti-Christ."

Dim MacKinnon - Dim graduated from UNB back in 1988 whereupon he embarked on a career as a chartered accountant.
Known as the "Crazy Funster" to all his friends, Dim has been on the same job and position for the past 25 years.
Dim's most notable accomplishments have included getting his name in the Guinness Book of World Records for amassing the largest collection of cotton balls known to man; actually driving kids with his longtime wife Kelly Marred; and being the same K-car for over twenty years until he slammed it into the back of a Porsche; and being recognized around the world as the world's premier accordion player.

Kim NoRush — Before his tragic death, had been confined to McDonald's Children's Hospital, receiving treatment for chronic back ailments; a direct result of continually bending over backwards to please everybody. NoRush has also been under treatment for psychological problems. These manifest themselves in his shouting "Tear the posters down! Tear the posters down!" and his constant muttering "Why doesn't John like me? Everybody else does."
