Dear Mr. King:
This article may touch your
interest on two sides - patriotic
and industrial. I was asked
to apply my experience as an
industrial mediator to this problem,
and I did my poor best, but
I feel it lies beyond the range of
any human experience. One may
indicate the outline that any adequate
solution must have, but to put the
living content into it - that's another
matter.

Very Cordially Yours
J. E. Williams
