 Manager and Agent—Mr. William Stewart McFarlane.

GREAT ADVANTAGES TO INSURERS FROM FIRE.

Division of Profits.

THE Directors of the Unity Fire Insurance Association invite the attention of the Public to the principles and advantages afforded to insurers in this Institution:—

- I. Complete security by the largest proprietary body in the world, consisting of thousands of Shareholders whose names and addresses are published.
- II. The prompt and liberal settlement of every claim.
- III. Division of two-thirds of the profits, thus eventually reducing most materially the Premium for Insurance.
- IV. The opportunity of becoming a Shareholder, and thus securing every advantage that mutuality can afford.
- V. The Limitation of Liability to the amount of the Shares subscribed for.

New Shares.

The original Capital of One Million Sterling having been fully subscribed in thirteen months by nearly five thousand shareholders, and the demand for shares still continuing, at an Extraordinary General Meeting of the Shareholders in England in November, 1854, One Million new shares, of £1 each, were created to be issued at 2s. 6d. premium. The Capital of the Association now consists of Two Millions Sterling, in Two Million Shares of £1 each, with a deposit of 2s. 6d. per share. The premium on the new Shares will be 2s. 6d. and will have been raised by the Directors from an increased premium will be required on all Shares allotted. Nearly 250,000 of these new shares have been already subscribed.

AGENTS.

The amount of insurance effected by this association now exceeds Nineteen Millions Sterling. The Directors will appoint Agents of influence, whose names are appended. Applications for Shares, Prospectuses, &c. are requested to be made either personally or by letter, addressed to the Manager at Toronto, or to any of the Local Agents throughout the empire.

All orders will be sent by the Executive Board without reference to the London Directors.
 HENRY SKYNNER, Secretary and Manager, Temporary Office, Toronto Street.
