HEAD

Remember (I believe), Elgin County is the only county that can boast of a complete dispersion sale where everything (the youngest calf a few days old), sold for over \$100.00. The majority of the stock went to herds that are consigning to this sale. You will see by our catalogue that we have some of the very best breeding to offer. Some

of the bulls offered are three-quarter and half brothers to a Canadian champion, a 4-year-old with 35.01 lbs. butter from over 600 lbs. of milk in seven days. Several of the females are from the same blood. Nearly all females are fresh or due to freshen at time of sale so you will not have to buy feed.

Terms cash or 6 months at 6% per annum.

Why feed, milk and shelter any more cows than you need to produce the milk you require? If interested in them contain much HOLSTEIN CATTLE send for booklets—valuable information
