## DOES IT PAY

a farmer or gardener to buy seeds that he does not know (beyond doubt)  
to be reliable? Every intelligent man and woman will answer "No."

### THEN WHY WASTE

your money on questionable seed when you can have the best sent to  
you from our reliable stock? Read what a progressive farmer of  
Middlesex says concerning good seeds:

Hubrey, November 16th, 1903.  
Messrs. Darch & Hunter, Seedsmen, London, Ont.  
Gentlemen,—I have been planting your seeds for a number of years,  
and as a prizewinner on field roots have few equals. I began exhibiting  
at the Western Fair in the year 1898, and since that time have won 151  
prizes—113 first, 23 second and 15 third prizes; but the roots grown from  
the seed I purchased from you last spring surpassed all former years both  
in size and quality. I grew 6894 lbs. on a plot of land measuring 32x84 feet,  
single specimens weighing as high as 40 lbs. I feel highly pleased with my  
success, and take great pleasure in recommending your seeds, for I can  
safely say that the seeds purchased from your firm are the very best varie-  
ties in cultivation. Wishing you every success,  
I remain, yours respectfully,  
R. S. NICHOL.

OUR TWO SPECIALTIES THIS SEASON:

Daubeny Oats

Carter's Black  
Japan Barley

An Entirely New Grain

The chief value of Daubeny oats is  
their extreme earliness. For mixing  
with all the varieties of barley that  
ripen about together, the Daubeny  
oat is unrivalled. Sown with Mand-  
scheuri barley, the yield per acre of  
the mixed grain for feed is the  
heaviest on record. They are also  
themselves a heavy yielder. One of  
our growers has a crop of 1,800  
bushels of cleaned oats off 21 acres.

Prof. Zavitz, of the O. A. C.,  
Guelph, reports on the Daubeny  
oats as follows:

"We have grown the Daubeny oats  
for a number of years, and find this  
variety to be one of the very earli-  
est. It is one of the best yielders  
of the very early varieties of oats.  
It has a medium length of straw, a  
spreading head, and a white grain.  
The oats have an exceedingly thin  
hull, and, although they are not as  
attractive in appearance as some  
other varieties, they are of good  
quality. The Daubeny variety of  
oats is one of the best which we have  
tested for the purpose of sowing with  
Common, Mandscheuri or other  
varieties of barley which ripen about  
the same time as these varieties  
ripen. Such a mixture usually yields  
well and ripens uniformly.

"C. A. Zavitz,  
"Ontario Agricultural College."

Samples and prices on application.

This is not the ordinary Black  
Hulless barley. It is a six-rowed  
variety, bearded like the Mand-  
scheuri barley, but it is black.

Those who have examined this barley  
in the straw are loud in their  
praises, pronouncing it the finest ap-  
pearing barley they have ever seen.  
It has a very stiff straw, and stands  
up well. Head is long and heavy;  
grain large and plump, but thin in  
the hull. Is full of fresh new vigor,  
and is the hardest and healthiest  
variety known. It is well adapted  
for rich land. The stock now offered  
was grown on a clay loam in this  
locality. We are the only seed-house  
in Canada having this barley for sale,  
and every farmer should sow a plot  
to get into the seed of it.

Price to one and all as long as our  
stock holds out: 1 lb. 25c., 3 lbs.  
70c., 5 lbs. \$1.00, postpaid to any  
address in Canada. Prices by the  
bushel on application.
