

LEARN TO STUFF BIRDS
and Animals, Mount Game, Heads, Tan Skins, Make Rugs, etc.

We can teach you in your OWN HOME during YOUR SPARE TIME. You easily can learn the art of Taxidermy, and be able to mount all the fine birds and animals you secure. A taxidermist makes big money all the time, and there is more work than he can do. Besides, taxidermy is a wonderfully fascinating amusement for yourself. It enables you to mount your own trophies of the gun and rod, and decorate your office, den or home. The Northwestern School of Taxidermy is endorsed by the leading sporting magazines; awarded 12 gold medals for its great exhibit at the Portland, Ore., exhibition. The fact that Prof. J. W. Elwood, former superintendent of schools in Iowa, is now manager of this school, with the greatest taxidermy artists in the country as instructors, absolutely guarantees your success as a student. In fact, the school charges no tuition fee unless you can master taxidermy by mail. Thousands of successful graduates. Every sportsman and naturalist should know this art, easily learned by men, women and boys.

FREE—Sample copy of the beautiful taxidermy magazine, catalogue, circulars, letters from graduates, and pictures of birds, fishes and animals mounted by the most famous taxidermy artists. **ALL FREE.** Write to-day **NORTH-WESTERN SCHOOL OF TAXIDERMY** 48 O Street, Omaha.

THE REASON WHY

Amatite ROOFING Needs No Paint

The enlarged diagram above tells the story.

If you examine it you will notice that it is composed of five different layers.

In fact, Amatite is made on a different principle from any other roofing. Instead of a smooth skin coating made to receive a coat of paint, Amatite has a rough surface of small particles of hard silicious rock such as seen in quartz or other hard stone when examined under a microscope.

This mineral surface is chosen for its weather-resisting qualities, and does away absolutely with painting and coating.

Underneath the mineral surface are alternate layers of long-fibre, wool-stock felt of the best grade, and between each sheet and under the mineral surface on the top is a layer of a specially prepared Coal Tar Pitch, the greatest waterproofing material known.

This short description will give you some idea of how carefully Amatite is constructed and what effective protection it will give against weather of all kinds.

FREE SAMPLE

The best proof, however, is to see a Sample, which we will send to any one free upon receipt of name and address. Write to nearest office.

STRONG and DURABLE

Compact, all the parts accurately made, finely adjusted and working together smoothly; and at the same time, strong, well built, easy to keep in order and light running—these are the features you want to find in a cream separator before you buy one. And when you see a

U. S. CREAM SEPARATOR

you want have to look any farther. It has them all. That's why it outwears all other makes.

Durability is what the "cheap" separators lack, yet it is most important. We have received letters from many users of the U. S. Separators who have run their machines every day for 10 years and more with entire satisfaction.

Our big, handsome, new catalogue shows plainly all about the construction and wonderful skimming records of the U. S. It will interest you. For free copy write us this way. "Send catalogue number A 110", addressing

VERMONT FARM MACHINE COMPANY, Bellows Falls, Vt.

METALLIC CORNICES

MADE TO ANY DETAIL
METALLIC ROOFING CO. LIMITED
TORONTO & WINNIPEG

The philanthropic Fifth Avenue lady was visiting a lower East End school. To test the aptness of a particularly indigent cluster of pupils she took the class in hand to question them.

"Children, which is the greatest of all virtues?"

No one answered.

"Think a little. What is it I am doing when I gave up time and pleasure to come down among you for your moral good?"

A grimy fist went up.

"Well, what am I doing, little boy?"

"Buttin' in."

It was in a country tavern where a newly-arrived commercial traveller was holding forth.

"I'll bet my case of samples," he said, "that I've got the hardest name of anybody in this room."

An old farmer in the background shifted his feet to a warmer part of the stove.

"Ye will, will ye?" he drawled.

"Wa-al, I'll have to take ye up. I'll bet \$10 against your samples that my name'll beat yours."

"Done," cried the salesman. "I've got the hardest name in the country. It is Stone."

The old man was game.

"Mine," he said, "is Harder."
