Are You Going to Build?

Buy Your Roofing on Proof—Not Claim

The one and only basis on which you can afford to choose your roofing is that of *proof*—proof of what it *has done*, not claims of what it *may do*. Do not be deceived by extravagant claims and high-sounding guarantees. They are merely made for lack of proofs of what a roofing has done. Insist upon seeing roofs that have given satisfaction for years.

We can point out roofs of proof, right near you, where Neponset PAROID Roofing has lasted as long as the highest-grade shingles. It has been on Government buildings, dairy barns, stables, poultry buildings and railroad and industrial buildings everywhere for over a decade. We have been in one line of business for over a century and the experience gained in all that time is back of

NEPONSET PAROID ROOFING

NEPONSET Roofings enable you to choose the roofing that best meets your needs. There are different roofings for different types of buildings.

NEPONSET PAROID Roofing for barns and general farm buildings. Slate in color. Does not taint rain water. Resists fire.

For such poultry buildings, brooder houses, sheds and temporary buildings as require low-cost roofing, you will find that NEPONSET RED-ROPE Roofing lasts three times longer than tarred felts.

These are facts and not claims—write us and we will prove every statement. Consult Our Building Counsel Department—tell us the nature of the buildings you propose to erect or repair, and we'll send you the Bird NEPONSET Book which treats your special case. There are dealers in Bird NEPONSET Products everywhere. If you do not know the one in your locality, write us and we'll tell you.

F. W. BIRD & SON, 510 Lottridge Street, Hamilton, Ont.
Established 1795. Originators of Complete Ready Roofing and Waterproof Building Papers.
Winnipeg, 123 Bannatyne St.; Montreal; St. John, N. B., 144 Union St.; Vancouver, B. C., East Walpole, Mass.; New York; Washington; Chicago; Portland, Oregon.

NEPONSET PROSLATE Roofing and Siding for residences and all buildings requiring an artistic roof or siding. Rich-brown in color, much more attractive and lasting than shingles.

Each roll of Bird NEPONSET Roofing contains directions for laying and complete fixtures, including square metal caps.

NEPONSET WATERPROOF Building Paper under clapboards, shingles, slate, metal, etc., insulates against exterior cold, heat and dampness. It costs little and cuts the fuel bill one-third every winter.

World's Greatest Separator

RUNS IN OIL

What is it that wears out more cream separators than anything else? **Want of oil.**

What is it that makes cream separators run harder than anything else? **Want of oil.**

What makes the bowl shudder and vibrate? **Want of oil.**

What makes a separator noisy? **Want of oil.**

What makes the "STANDARD" last longer, run easier, run smoother, run more quietly and do better work than any other? No doubt it is partly because it is made more accurately and of better material, but the chief reason is that it runs in oil all the time, every bearing being continuously oiled from the oil-chamber in the machine. **Oil once in four months, that's all.** No more attention is necessary.

Our free catalogue explains this and the other good features of the "STANDARD." Send for it today to

THE RENFREW MACHINERY CO'Y, Limited

HONOR TO WHOM HONOR IS DUE.

H. J. Elliot, of Danville, Que., writing "The Farmer's Advocate" re the breeding of the two bulls, Silver Chief and Robert the Bruce, reference to which was made in the closing chapter of the Honor Roll of Shorthorns in "The Farmer's Advocate" of Sept. 15th, says: "Arthur Johnston never had the slightest claim as being the breeder of either Silver Chief or Robert the Bruce. I purchased the dam of both these bulls from Arthur Johnston. I left her at Greenwood until after she had calved, when I had her bred to Indian Chief. She dropped Silver Chief here, when I bred her to Imp. King James, my stock bull at that time, Robert the Bruce being her second calf while in my possession. If there is any honor in it, I am the man who should have it."

GEO. G. STEWART'S NEW IMPORTATION OF CLYDESDALES.

Geo. G. Stewart, of Howick, Que., has lately returned from Scotland with his 1910 importation of Clydesdale stallions and fillies. Mr. Stewart has been importing Clydes for a great many years, invariably makes his own selections—and no man is more capable—and, unlike many of his competitors, he has risen to the occasion of the Canadian demand for the best quality the breed produces. He has on hand at his Howick stables an exceptionally good lot, up to a big size, with quality and breeding unexcelled. Four stallions and six fillies yet remain, several having been sold within a few days after landing. The numbers we shall give are all their Canadian registration numbers. Craigie Godolphin 10913 is a brown three-year-old, by Treasurer Godolphin, dam by Golden Chief. This is a big, stylish colt, of ideal character and underpinning, up to 1,800 lbs. in weight, and combines those qualities so popular in this country. Earl of Ancaster 9690 is another brown three-year-old, by the Glasgow champion, Royal Chattan, dam by the celebrated Mains of Airds, grandam by the Cawdor Cup champion, Prince of Kyle. There is no better breeding than this, and he is a big, smooth, close-coupled horse, particularly nice at the ground. Royal Rupert 11677 is a bay two-year-old, by the noted premium horse, Baron Ruby, dam by the famous prize horse, Go-ahead, grandam by Patriot. He is one of the thick, smooth kind, on a most excellent set of underpinning. Royal Derwent 11675 is a brown two-year-old that won well at Crieff, both this year and last, and was reserve champion at Perth this year. He is a colt of exceptionally nice quality, with a true, trappy action, one of the best two-year-olds imported for a long time, sired by the good breeding horse, Lord Derwent, dam by Sir Ronald, grandam by Just-in-Time.

The fillies are an extra lot in size, quality, character and breeding. Nellie Darnley 18745, a brown four-year-old, came out last year, sired by the H. & A. S. second-prize winner, Darnley Again, dam by the £3,000 Prince of Albion, grandam by Macgregor. This richly-bred mare has a filly foal, imported in dam. Faulds Maggie 23497, a brown three-year-old, by the H. & A. S. champion, Rosedale, dam by Juniper, is a big, well-balanced filly of good quality. Cathnort Rose 23496, brown, two years, is by the noted sire Baron Clyde, dam by the great Sir Everard, grandam by the H. & A. S. champion, Mac'amon. This filly has size and quality enough, and to spare. Jessie Barnett 23494 is a black two-year-old, by Baron Rollo of Dumming, dam by Prince of Seane. She is one of the nice, quality kind, that shows a finished young one that will take well in this country. Betty Barnett 23498, a brown two-year-old, is by the H. & A. S. champion, Perfect Motion, dam by The Leading Article, grandam by Knight of Lothian. This filly shows a big size, and, withal, has splendid quality; she is a right good kind. Cathcart Bess 23495 is another brown two-year-old, by the renowned Sir Hugo, dam by the good breeding horse, Up-to-Time, grandam by the Cawdor Cup champion, Royal Gartley. She is a show proposition of the thick, smooth, cart-horse type. All these are for sale, on terms to suit, and Mr. Stewart is not a high-price advocate. His farm is connected with long-distance 'phone.

BUY THIS WAGON

Dominion Wagons are strong, low, loaded easier than high wagons. Changed to platform pattern instantly, easily. Halves labor. Saves time. Easy on horses. Easy on your pocketbook. Built to last. Can't break. Can't rot. Cuts repair bills.
