A WIDE AREA

ROCHESTER, N. Y., April 13 .- Fire, which broke out at 11 o'clock this morning in the Palmer building, a fourstory brick structure, devoted to manfacturing interests at Main and Gibbs street, was the starting point of a \$500,000 conflagration in Rochester today. The fire spread over a wide area, at one point jumping nearly a mile and starting a second series of fires of such proportions that the local fire department was for a time unable to cope with the situation

Aid was summoned from Buffalo and Syracuse, and both of these cities rushed companies to Rochester. the time they arrived, however, the local firemen were masters in both fire areas. The outside companies were held on reserve duty in the centre of the city every Rochester company having been called out by the long series of alarms.

ORIGIN A MYSTERY.

The origin of the fire has not been ermined. It was seen first from outside the Palmer building, sweeping cros the third story, half of which was vacant. There was delay in sounding the alarm and when it came the firemen were busy with a small blaze at State street. Ten mirutes more elapsed, it is said, before the firemen arrived and in that time the lames had spread from cellar to garret of the Palmer building. A twenty-five mile gale sent the sparks in a north-

Westerly direction over the city.

On the second floor of the Palmer building many girls were employed Their escape was shut off on the stairways and the elevator shaft was a raging furnace, but the girls came down the fire escapes in good order and passed on to safety. There were many scenes of panie mong the residents. One woman, Kirschnamsky, of 119 Kelly street went violently insane and was removed to the Rochester State Hospital. Draymen reaped a harvest re-

moving goods to places of safety. It was the last day of the feast of the Passover and many of the Jewish esidents of this part of the city in terpreted the situation as the outward visible sign of the second coming of the Messiah. Men, women and children tore their hair and knelt in the Street to pray. Fires broke out so frequently in various spots in the northeastern part of the city that companies could not be fire brigades were formed and answered many of the calls, armed with

arden hose or chemical apparatus. Tonight Rochester was terro tricken. Today's fires are a culmination of an uninterrupted series of fires lasting for weeks, many of which have been charged to incendiarism. Although both of today's fires were under control by three o'clock this afernoon the flames were still smoulthroughout the evening in ozens of places. The wind continued to increase in velocity, and both firemen and police were compelled to de all night duty assisted by the three companies of local militia. All were earful that a fresh outbreak of the

flames might come at any time.
