MOFFATS Life Pills and Phonix Bitters. These Medicines have now look before the public for a period of FIFTREN TRAES, and during that time have amintained a high character in almost every part of the giobs for their extraordinary and immediate power of restoring perfect health to princus outfloring under nearly every kind of disease to which the human frame is liable. IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nortrams of the day had uttarily falled; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but, a pactial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than mirraculous to those who were sequalitied with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tons and viger, that they were indebted for their same.

their name.

Unlike the heat of pernitrons quackaries which
boast of vegetable ingredients, the LIFE MEDIGINES are purely and solely vegetable; and contain neither Meroury, nor antimony, nor Argenic, nor any other mineral, in any form whatever.
Ther are entirely composed of extracts from sare
and powerful plants, the virtues of which, though
long known to several -indian tribes, and recently
to some eminest phermacoutical chemists, are altogether unknown to the ignorant pretenders to
medical science; and were never before administered in so happily afficucious a combination.

The first operation is to loceson from the coats of
the stomach and bossels the various impurities and
crudities constantly setting round them; and to
remove the hardesed iscose which collect in the
convolutions of the small intestines. Other medicines only partially cleanse these, and leave such
collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrheas
with its imminent dangers. This fact is well
known to all regular unatomists who examine the
human bowels after death; and hence the prejudice of these well-informed men against the quack
medicines of the sign. The second effect of the
VEGETABLE LIFE MEDICINES is to
cleanse the kidneys and the bladder; and, by this
means, the liver and lungs, the healthful action of
which entirely depends upon the regularity of the
urinary organs. The blood, which takes its red
color from the agency of the liver and lungs, before
it passes into the heart, being thas purified by thom,
and nourished by food coming from a clean stomach,

CREDIT RATES OF PREMIUM.

VIHE greet and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Lite Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada. The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies. Institution are MANY and IMPORTANT, and the flates of Premium quite as LOW as security to the Assured, and safety to the Office, will admit of. their respective Policies.
