Indoor Baseball

The indoor baseball league got off to a fine start Wednesday night in the Y. M. C. A. gymnasium. The first game was between Ham & Pratt & Letchworth put up a good fight, but did not have out a full team. Kaufman got round the bases three times for Ham & Pratt. Lyons, Monds and Slattery were the best for P. and L. The score: Ham & Pratt, 5; Pratt & Letchworth, 2. Umpires, McKelvey and Collins.

The second game between Massey-Harris and Watrous Engine Works was a hummer from the word go. There was considerable doubt whether McKelvey, the Watrous pitcher, was pitching underneath his arm, but he was actually throwing over his hand. No doubt the closeness of the final count was the cause of most of this discussion. There was a good crowd to see the game and the fans were amply repaid for their attendance. The score: Massey-Harris 13; Watrous 14. Umpires Legacy and Mosley.

On Friday, Cockshutt's play Gould, Shapley & Muir, and Verity's play Motor Trucks.

League Standing	Won	Lost	P.C.
Verity's	0	1	1000
Ham & Pratt	1	0	1000
Watrous	1	0	1000
G. S. & M.	0	0	000
Motor Trucks	0	0	000
Massey-Harris	0	1	000
Cockshutt's	0	1	000
P. & L.	0	1	000

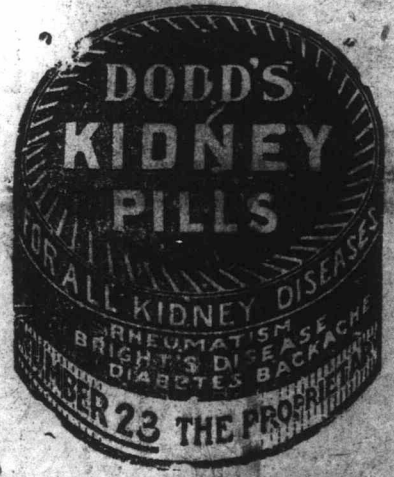

CREAM FOR CATARRH
OPENS UP NOSTRILS

Tells How To Get Quick Relief
From Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more yawning, snuffling, blowing, headache, dryness. No struggling for breath at night, your cold or catarrh will be gone.

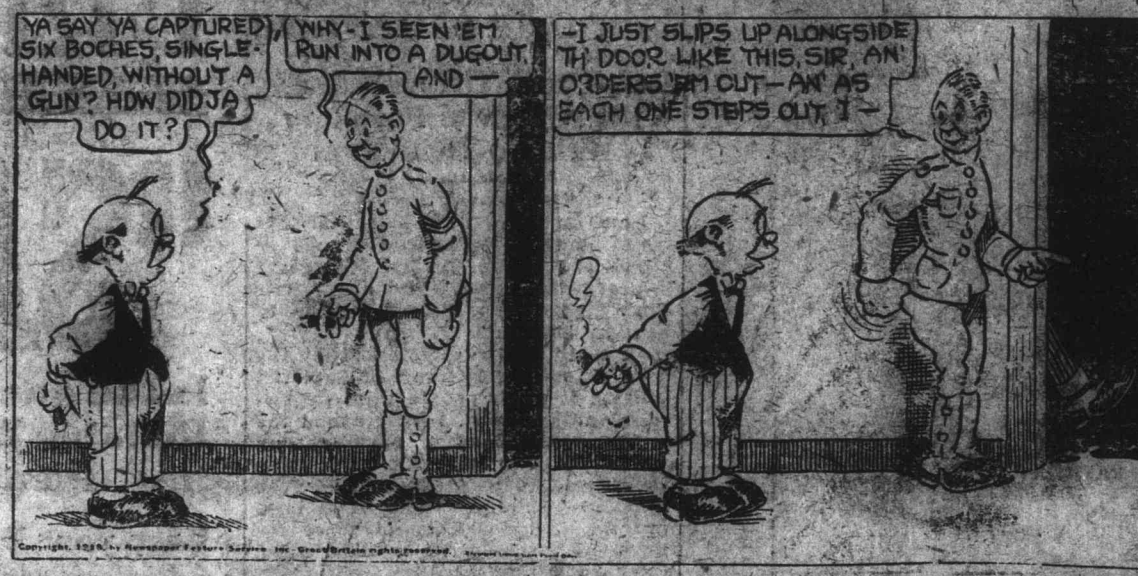

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh—Relief comes so quickly.

THAT SON-IN-LAW OF PA'S

(By Wellington)

The Sergeant's Dream Was a Bit Too Realistic for Cedric.

Local Firms Expect to
Take on More Hands

Will Hire, Instead of Fire,
Help in the Near
Future

LABOR SITUATION

Outlook in Brantford Opti-
mistic—Few Hands
Laid Off

BUSINESS AS USUAL

"Carry on" is the watchword of industrial Brantford as the long-awaited era of peace is now finally assured, and the city's leading manufacturers are unanimous in looking forward with optimism to the future. Instead of the trade depression feared by many, they anticipate a continuation of prosperity. "Business as usual" was the slogan which animated all Canada at the outbreak of war in 1914, and "business as usual" is to be equally true during the coming months and years of peace.

Fear has been expressed in many centres that a plethora of unemployment would follow in the wake of peace. On the contrary, the majority of local manufacturers expect to increase the number of their hands in the near future. Munition plants are peculiarly situated, the majority having received no instructions as yet to discontinue the production of war materials. Other factories, however, are running at full blast and will be prepared to offer employment to the men returning from overseas.

Massey-Harris—Are continuing to operate at full blast. Have laid no men off, but on the contrary, want more labor.

Cockshutt Plow Company—Practically the same state of affairs exists here. The staff has not been decreased, and some new hands have been taken on.

Ham and Pratt—Are making preparations to offer employment to a number of soldiers when they return from overseas. No reduction in the staff meanwhile.

American Radiator Co.—Business as usual; no hands laid off.

Pratt and Letchworth—Unaffected

as yet; neither increasing nor diminishing their staff.

Buck Stove Works—Also unaffected, but expect before long to be ready for more labor.

Verity Plow Company—Will increase number of hands within a short time. Have not been affected yet; no men laid off.

Munition Plants.—The munition department of this firm is still carrying on with munition work, having received no instructions to cease. Labor situation unchanged, no help being laid off.

Watrous Engine Works—The munition department of this firm is still in operation, and the contrary are received. No men laid off as yet.

John Hall and Sons—Have practically ceased munition work, and are engaged in the construction of pipe cutting machinery, for which they have a large number of orders on hand. Have laid off a few men, but expect to take them on again before long.

Good, Shapley & Muir—Have also practically ceased munition making, and accordingly have laid off the majority of the hands who were employed on that work.

Steel Co. of Canada—Is still making munitions, subject to cancellation of orders. Staff has not yet been reduced.

The Motor Trucks Limited, and Ke and Goodwin's declined to make any statement as to conditions prevailing in their plants.

CONGRATULATE BURGOMASTER.

By Courier Leased Wire
Paris, Sunday, Nov. 17. (Delayed.)—The Paris municipal council has congratulated Burgomaster, Mayor of Brussels, on his release from captivity and has invited him to come to Paris so that the Paris council may honor him. The council's message reads:

"At the moment when you are liberated from German jails and again are in possession of your maxims, we want to be the first to greet you and to pay you our homage, hoping the honor will be given to give you a reception at our Hotel De Ville (city hall) worthy of you and the sentiments that fill our hearts."

MEN FOR PAPER INDUSTRY.

By Courier Leased Wire

Montreal, Nov. 21.—The Canadian Pulp and Paper Association headquarters has received a request from the Hon. G. D. Robertson, Minister of Labor, for information as to the number of additional men the industry can find employment for this winter in view of the discontinuance of war industries and the certain relocation of labor conditions as a result thereof. Normally the industry gives regular employment to about 25,000 mill operatives, and office employees, and at certain seasons of the year to about as many more woodmen. The industry has contributed about 2,500 men to military service. It will be some time before many of these men will be available and in the meantime officers of the association have notified the Labor Department that the mills are prepared to give employment to every man they can possibly make room for, preferences being given to those who have had previous paper mill experience.

SEND FLOUR TO HOLLAND.

By Courier Leased Wire

Washington, Nov. 21.—Five Dutch ships, each with flour will leave America's ports shortly for Holland by permission of the United States Government. Their cargoes will make possible an immediate increase in Dutch bread ration.

The ships about to sail were not in American waters when the Government took over several hundred thousand tons of Dutch shipping and consequently were never requisitioned. They have been in the coastwise trade since.

Five vessels from Netherlands ports will be sent to replace them as the United States has not relaxed its control over the movement of neutral ships carrying American cargoes.

MATERIALS FOR REBUILDING.

By Courier Leased Wire

Chicago, Nov. 21.—Problems connected with rebuilding materials which to rebuild the devastated part of France and Belgium are to be taken up at a convention of lumbermen, which opened here today.

The convention was called by the National Lumber Manufacturers Association because of the signing of the armistice and the stopping of work on cantonments and other war department construction, which took the entire output of the mills.

Lumber which would have gone into war work in this country, now may be used for reconstruction purposes in Europe.

ALMOST A COMEDY.

Weird Incidents of Rule of the Bolsheviks.

Lenine, head of the Bolshevik government in Russia, has succeeded in tracing and regaining possession of nearly all the Russian church valuables, the most historic of which were housed by the secretaries of the churches in the Kremlin, Moscow. After he stole them from the church, the Bolsheviks stole them from him. Now the most valuable have been found in Saratov, including 1,000 diamonds, pearls, emeralds, gold chains, crosses and other gold objects used in the ritual, containing thirty-six pounds of pure gold and also the great emerald bearing a carving of the apostle Matthew. The collection is worth \$5,000,000.

The central soviet committee will commemorate the second revolution in October by the publication of a book in Russian, English, French and German entitled "A Year's Proletarian Dominion." Among the contributors are Trotsky, Krylenko, Lenin and Radek.

Carriatic Russia in the second year of the war imported several thousand Chinese coolies who worked in the Ural and Donets mines, harvest of crops in the Volga region and unloaded at the ports.

In October by the publication of a book in Russian, English, French and German entitled "A Year's Proletarian Dominion." Among the contributors are Trotsky, Krylenko, Lenin and Radek.

The Chinese colony in Moscow numbering 10,000 workers and peasants have decided to bring to the notice of the Chinese Government and people the knowledge that the colony energetically protests against the active intervention of China in Russia's home affairs.

The Chinese colony in Moscow numbering 10,000 workers and peasants have decided to bring to the notice of the Chinese Government and people the knowledge that the colony energetically protests against the active intervention of China in Russia's home affairs.

Music and
Drama

THE REX.

Circus life as it really is, stripped of the tinsel and glamor and camouflage which blind the eyes of the outer world, is shown in "The Big Show on Earth," Emil Bennett's latest Paramount production, which is shown at the Rex the last of this week. The story has to do with the adventures of a young circus girl, played by the star, and combines comic and dramatic moments with an intermingling of sadness. Flynn and Howard have an exceptionally clever singing and dancing act which won exceptional applause from last night's audience. The latest episode of the thrilling western adventure serial, "A Fight for Millions," with William Duncan and Edith Johnston in the leading roles, is an added attraction, as is also, a Sunshine comedy.

THE BRANT.

Canada's work in caring for her wounded soldiers and the manner in which their injuries are treated and they themselves fitted to return to civilian life and to take up any industry they choose, are clearly shown in a specially prepared picture which may be seen at the Brant the last of this week, under the auspices of the Military Hospitals Commission. The film is one which combines entertainment with instruction, and gives an insight which could be obtained in no other way, into the way Canada repays her debt to her heroes.

Elisa Ferguson and Thomas Meighan are seen in the powerful western drama, "Heart of the West," an effectively produced picture, which presents both stars in particularly congenial roles. Friends and Democrats, the international comedians, have a line of patter that never flags from the beginning to the end of their act, and they give the audience no let-up in their mercurial. The last chapter of "The House of Hate," featuring Pearl White and Antonio Moreno, brings that story to a close.

MUTT AND JEFF.

From all accounts the piece is the best of the Mutt and Jeff series, and as amusement seekers are aware there have been some mighty good productions in the past exploiting the adventures and frolics of this funny

combination. In this particular play, which is in three acts and three scenes, there is an abundance of unique features, surprises, scenery, the latest and best musical ensembles, song hits, dancing, singing and vaudevilles, with hilarity moving at a break-neck pace from the first curtain to the finish. Picture Little Joe striving to prospect a certain valuable gold mine which is to become his sole property. If he consents to marry the widow of his late brother, he will inherit the mine. Also picture A. Mutt, acting as a business manager and engineering a coup fraught with some of the most exasperating and infectious side-splitting situations and complications that at the same time make diversions in lieu of his down-trodden chum coming into possession of a million dollars. If you can you will have a fair idea of the ingredients which compose this incomparable and merry comedy of tunes, scenery, travesty and intrigue. A star cast along with beautiful and stunning young men who form a chorus of champion proportions. At the Grand Opera House, Monday, December 2.

NEW PASSPORTS
FOR BOURGEOISIE

Latter Class, in Russia, Includes All Who Make Use of Work of Others

(Associated Press)

Stockholm, Nov. 21.—New passports for the bourgeoisie in the form of testimonial books, have been introduced by decree in Russia, according to a telegram received here today from Petrograd.

Everybody who makes use of the work of others is to be provided with them, including directors of enterprises, members of administrative, council, merchants, brokers, schoolteachers and lawyers. Only assistants on these books will enable the bearers to travel about Russia.

Over the nationalization of the Russian economy, the new decree is a great step forward, and it is a step which will enable the bourgeoisie to continue to work in industry and in commerce under severe penalties to correspond with foreign countries regarding exports and imports.

Over the nationalization of the Russian economy, the new decree is a great step forward, and it is a step which will enable the bourgeoisie to continue to work in industry and in commerce under severe penalties to correspond with foreign countries regarding exports and imports.

FRENCH LEADERS HONORED

By Courier Leased Wire
Paris, Nov. 21.—Premier Clemenceau and Marshal Foch today were unanimously elected members of the French Academy. They succeed academicians who died recently.
