Laurier Withdraws.

It is a pitiable sight indeed to Canadians to see the premier, who is supposed to set an example to the other members of the House, make statement which he has to withdraw Yet this is what Sir Willrid Laurier had to do in the House on Friday last. Sir Wilfrid in replying to the Hon. Geo. E. Foster, said "I have never dabbled in trust funds." This statement was plainly made to apply to Mr. Foster who resented it and hurled it back in Sir Wilfrid's teeth.

Speaking editorially of the incident the Winnipeg Tribune says : Sir Wilfrid Laurier interjected into a debate on a public question yester-

If Sir Wilfrid thinks that it is part of his work to finish Foster, he evidently made a mistake for Foster made him eat crow in the house last

Heaven knows, that latitude affords scope wide enough for most

sensational debate.

Mr. Foster is one of the most daugerous opponents that the government has to face in parliament. His ability is of the highest standard. The premier cannot kill him by insinuations. Mr. Foster is the last man in Canada to lie down under false accusations. He is now pursuing in the open courts men and newspapers who have questioned certain of his private acts. That is the place for such enquiry. In that connection it may be said that the men he is pursuing are using every known and unknown subterfuge to prevent an early trial. Canada's parliament stands none too high in the estimation of Canadians. It was lowered another notch yesterday by the display of temper, conceit and patulance on the part of the premier.

Eastertide.

The season of Easter has again come round. This season is one of much meaning to every Christian. The crucifixion of Jesus Christ, the Son of God, as an atonement for the sins of the world, is a vital part of the faith of the Christian world. Without it what does the Christian faith mean ? It means very little. On Friday next Christians commem
