NO CONCESSIONS TO THE DOMINION.

London, April 15.—Several ministerial journals regret that Sir Michael Hicks-Beach missed the chance of responding to Canada's preferential tariff by exempting colonial wheat and flour from the new duties. The movement has already begun to induce the ministry to make concessions. It is believed Mr. Chamberlain is sympathetic, but he warns those who approach him that the Cabinet is most unlikely to yield.

Farmers are busy seeding. Mr. and Mrs. W. Wilcox paid a flying visit to London last week. Stanley Strain raised a fine barn last week. Tom McDonald and Geo. Handysides are captains, in favor of the former.

Equal to the Occasion.

A man was once given a large dog to take care of by a friend who was going abroad, but the dog always annoyed him by sitting in his best armchair.

One day a splendid idea struck him. He came into the room and found the dog in his usual seat, so he walked up to the window and called: "Cust! Cust!"

Up jumped the dog and rushed to the window, while the man went and sat in his chair.

A few days later the dog walked into the room while his master was sitting in his armchair. Going up to the window, he barked loudly.

The man got up to see what was the matter, and the dog rushed and secured the chair.

The Travelling Libraries.

Thirteen travelling libraries have now been sent out by the Education Department in response to requests received. Two just shipped are, one to Copper Cliff and the other to the Cordova Mine.

The department has received a considerable number of inquiries respecting the grants to rural school libraries, for which a vote was passed by the Legislature. It is intended to frame regulations governing the distribution of this money after the midsummer vacation.

The Poultry Yard Fence.

A poultry yard fence should be 6 feet high for the small breeds, like Leghorns, 5 feet for Plymouth Rocks and 4 feet for Brahmas. If the chicks are raised in yards they will not fly so high as if raised on free range. A small yard needs a higher fence than a large one.

## ECZEMA.

That torturing and disgusting disease has its cause in an impure condition of the blood. The impure condition of the blood often arises from a diseased condition of the stomach and allied organs of digestion and nutrition.

When digestion is imperfect, the nutrition of the body is inadequate to its needs. The blood becomes thin, poisons accumulate in it, and these poisons often manifest themselves in some eruptive disease.

Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It eliminates poisonous substances from the blood, purifying it and increasing its quantity and richness. The "Discovery" cures perfectly diseases of the stomach and other organs of digestion and nutrition.

The "Discovery" is absolutely a non-alcoholic and non-narcotic medicine. There is nothing "just as good."

"For three years I have suffered with that dreadful disease, eczema," writes Mrs. J. Koepf, of Hermiston, Oregon. "I was told to try Dr. Pierce's Golden Medical Discovery, which I did, and after I had taken fourteen bottles I was permanently cured. It has been a great relief to me, and I think your medicine is a wonderful cure and hope others suffering as I did will take it and be relieved of their suffering."

Doctor Pierce's Pleasant Pellets are powerful aids to the cleansing of the clogged system. By all dealers in medicine.

Durable Imitation.

It is a curious fact that, while many ancient manuscripts are almost illegible from the ink fading, manuscripts of the fifth and twelfth centuries have so far shown hardly any trace of fading.

The Guillotine.

On April 25, 1792, the guillotine was publicly used for the first time and beheaded a bandit named Pelissier. This was in the Place de Greve, where some twenty years previously Damiens had been tortured for days in precisely the same way as Ravalliac had been for the assassination of Henry IV.

## BACKACHE

A Most Terrible Malady to Which Many Men Are Subject.

Its Cause a Cure, how it may be Instantly Relieved—A Case in Proof of the Truth of the Theory.

Matane, Que., April 16.—(Special).—Mons. O. Dionne of this place has just recovered from a severe case of Backache.

Mons. Dionne's remarkable restoration is entirely due to the use of Dodd's Kidney Pills.

Backache is simply an appeal for help from worn out Kidneys.

No man can afford to neglect the slightest twinge of pain in the region of the Kidneys. Sometimes it comes sharply, and again in the form of a dull heavy constant pain, but in either case prompt action is necessary, for if this diseased condition is not corrected without delay Bright's Disease, Diabetes, Dropsy, Rheumatism, Sciatica, Lumbago or Heart Disease is sure to follow.

Mr. Dionne did not attend promptly to the first warnings of his Kidneys, for it was not until after the pain had become so intense as to make life almost a burden to him, that he sought and found a cure.

He used Dodd's Kidney Pills according to directions, and is now entirely recovered. He has not the slightest trace of backache or any other symptom of Kidney Disease left, he says:

"I have used Dodd's Kidney Pills for Backache and Kidney Disease and they have made me a great cure."

"I believe Dodd's Kidney Pills to be the best remedy for Backache and Kidney Disease, and I can heartily recommend them to any one who may be suffering in this way."

Do not imagine, as many foolish people have done, that this Backache of yours will wear away in time.

It is only the announcement to you that your Kidneys are not performing their functions as they should do, and if you neglect it, very serious and perhaps fatal consequences are certain to follow.

Better get Dodd's Kidney Pills today, and commence a treatment right away; you will be all right again in a few days.

A little strategy and resource will often win an apparently hopeless case," says a well-known barrister.

"Take for instance a compensation action which I was defending on behalf of a certain railway company. At first sight the evidence seemed dead against my clients. The plaintiff came into court looking weak and feeble, and holding his right arm in a stiff, cramped fashion. He declared that he had not been able to lift it for more than a year; that it was utterly impossible for him to raise his arm as high as his chin, and all on account of the injuries inflicted upon him."

The jury was against me, as far as I could see. I made up my mind that the alleged victim was shamming, and that he could lift his arm if he wished to do so. I therefore commenced saying to him very sympathetically:

"Your arm is extremely painful, is it not?"

"Yes, sir, it is."

"You have talked about it to your physicians, your family, and friends, haven't you?"

"Yes, sir."

"They all know that you cannot lift it?"

"Oh, yes."

"Were you able to lift it before the accident?"

"Yes, certainly."

"How high could you lift it?"

Without thinking of the consequences, up went the injured arm, with the answer, "As high as that," right over the man's head.

Of course, the roars of laughter that followed this performance utterly dumfounded the shammer, and he didn't get any damages.

Criticism.

Beware of the habit of criticism. If it takes possession of you it will make you disagreeable, uncomfortable and a laughing stock. Such was the lamentable case of Cyrus Small.

His time was largely spent in discovering the faults and shortcomings of things animate and things inanimate, while Mrs. Small, as it seems, was equally vigilant in attempting to bring forward something of which she could say, "There! you can't pick any flaw in that!"

Once she thought this happiness would be hers. A certain man in the town inherited large wealth under peculiar circumstances. It was his under the law, but when the court awarded it to him he stood up and said that, in view of all the facts in the case, he believed that the property belonged of right to another heir.

His action was generally looked upon as a noble one.

Mrs. Small was loud in her expressions of praise.

"I know," said her husband; "it was a fine thing. Few men would have done it; and that's why he felt embarrassed by the way he stood."

"Cyrus Small! I should hope you wouldn't find fault with his attitude when he was doing such a grand thing!"

"Oh, no, I have no wish to criticize," said Cyrus; "but if I had been on the plaintiff's side, all those people I should have tried to toe out a little more."

Pen-Pains.

A lie is a handle that fits many tools.

Pain is the shadow that follows pleasure.

Heaven never helps men who have that tired feeling.

Police-men, like the hairs of a man's head, are numbered.

Virtue is frequently its own reward because there are no questions asked.

There is always a chance for a man to go higher if he has the ability to climb.

A wise man can answer a lot of questions that a fool wouldn't think of asking.

If a man is truly charitable he does his duty without making a fuss about it.

Occasionally a sensible woman attracts attention by making no effort to attract it.

Humor is said to be one of the elements of genius, but it is impossible to make a pessimist believe it.

If a man does one bad act and it is found out it casts a shadow over a dozen former good ones.

The Dominion Steel Co.'s has taken over the property of the Dominion Coal Co., agreeing to pay a rental equal to 8 per cent. on the capital stock of \$20,000,000 of the Coal Co.

The royal road to wealth is paved with industry and frugality.

Pride goes before a fall, but it's the fall that hurts one's pride.

Only a fool would trust a man who says the world owes him a living.
