

POSSE AFTER JOE.

Escaped Criminal Is In Woods and Well Armed.

Grandview, Man., July 6.—A posse of 30 men are pursuing Joseph Wynn, charged with shooting Joseph Story, who broke jail at Grandview last week. Wynn has been seen a couple of times, but the posse are reluctant about approaching him, as his record shows him to be a dangerous man. He is known to have a pistol and a quantity of ammunition, which he will use rather than stand for re-arrest.

The escaped man knows every foot of the country over which he is being pursued, and has the advantage. The country itself also favors him owing to its rough character, which makes pursuit slow.

HELPS MEN TO WORK HARD.

That's what Ferrozone does; it supplies the additional strength that enables a man to maintain health under difficulties. "Last spring I was so completely fagged out that I could not work," writes J. W. McNichol, of Thornhill, Man. "In the morning I was tired—limbs ached all over. Had no appetite, was sleepless, nervous and unhappy. Ferrozone put new life into me. Now I eat heartily, nerves are strong, I sleep well. I know the joy of real health." It's by supplying the men with good blood that Ferrozone builds up; try it—50c. per box at all dealers.

SET FIRE TO POWDER.

Little Boy Will Lose Sight of Eye as Result.

Kingston, July 6.—Willie Davy, 6 years old, son of Charles Davy, Petworth, got hold of a bottle containing gunpowder, and, childlike, lighted a match and applied it to the powder, with the result that the powder exploded, bursting the bottle into fragments and burning the lad's face and arms terribly.

The little fellow will lose the sight of one eye. The house was also set on fire, but the flames were extinguished.

A STOREHOUSE FOR POISONS.

You may not think so, but that's what you become when the kidneys are affected. These organs cleanse the body; they are the filters that remove from the blood the waste matter that acts like deadly poison on the vitality and health of the system. Dr. Hamilton's Pills stimulate the kidneys, expel fermenting matter from the bowels, restore the liver and stimulate all excretory and secretory organs. This enables the blood to quickly replenish itself and establishes perfect health. No medicine does such lasting good as Dr. Hamilton's Mandrake and Butter-nut Pills, at all dealers.

WILL NOT GRANT DEMANDS.

Government Refuses Increase Wanted By Freight Handlers.

Ottawa, July 6.—M. J. Butler, Deputy Minister of Railways, yesterday morning told the department would not grant the demands of the striking Intercolonial freight handlers at Halifax for an increase of wages before returning to work.

If the men would go back to work at the present rate, he said, their grievances would be investigated and a board of investigation and conciliation, but it was not fair to grant an increase first and then investigate.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Do not make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart and Kidneys as well, have their controlling inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by all dealers.

Toronto Man Suicides.

Winnipeg, July 6.—An unknown Toronto man committed suicide in the Assiniboine River near Osborne Bridge at 2:30 yesterday morning. A police constable saw him standing on the river bank and going down the man jumped into the water.

The officer followed him to the centre of the stream, where the man sank, throwing his hands in the air and crying, "It's too late."

His pockets were filled with stones. He was about 30 years of age and wore a light suit, with white hat and shoes.

SPITZBERGEN.

An Overlooked Island Which Some Nations Should Control.

Because no nation has as yet assumed control of Spitzbergen the game there is being exterminated. And incidentally some opportunities in mining are being overlooked by the world. The United States consul general at Christiania, Henry Bordewich, writes: "Game, such as reindeer, polar bears, ptarmigan, geese, ducks and other birds, is still fairly plentiful in the islands, but as no one is in control the animals are being wantonly exterminated, being killed at all seasons of the year. One of the visitors up there last summer reports that a party of tourists killed upward of a hundred reindeer, leaving the carcasses where they fell, only bringing away with them a few of the finest heads and antlers for mounting. The elder duck is so tame while hatching that it often may be lifted by hand while the nest is robbed of down and eggs. In Norway stringent laws have been enacted in protection of this valuable and graceful bird. The walrus at this time is nearly extinct; the white whale, which formerly was very abundant, is becoming scarce, and the numbers of seals are largely reduced."

"No nation has as yet taken possession. It would seem high time for the countries most directly interested to come to an understanding whereby the islands, including Bear Island, can be formally turned over for annexation to one certain power, or else a combination of the powers should make arrangements whereby law and order could be maintained, game and fishery laws made and enforced and mining claims protected. The prospect for paying coal mining is good, and the island is made that indications of valuable minerals are present. Tourist steamers of different nationalities visit the islands every season."

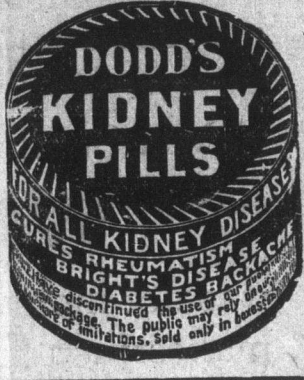

"The climate is quite fair, considering the high latitude. A clear sky is said to prevail week after week in the summer season. The warmest part of the year is the first half of August, when the thermometer sometimes reaches 16 degrees centigrade (60 degrees F.). The interior of the islands is little known, being difficult of access owing to glaciers and mountains. Violent storms, with snow, sleet and rain, are frequent except during the short summer."—Chicago News.

East Side Leisure Is New York Mystery.
East side leisure is a New York mystery. Besides the hosts of the unemployed that crowd the public squares when the weather gets warm there are hundreds and perhaps thousands that lounge at all hours of the day in the cafes, beer saloons and wine stuben, where they must pay for what they eat and drink in order to obtain the privilege of lounging. In the very poorest quarters men who by their appearance must have little to spend play backgammon, cards or chess, read the comic papers or merely doze between drinks in all drinking places. Nobody can account for all this leisure. Some of those who lounge in the places of public resort by day probably work at night. Others belong to that considerable class of persons on the east side who earn their living by devious ways of one sort or another and meet their clients or their victims in the saloons or cafes. Still others are supernumerary men who are supported after some fashion by their children. But there always is an unexplained residuum.—New York Sun.

A Queer Theory.
An old friend says: "See if any of your readers can explain why, without any exception, a person having met death through violent means is picked up with either one or both shoes removed intact. I have been employed in railroad work for twenty-seven years and have witnessed hundreds of instances which lead me to consider such facts as nothing short of mysterious phenomena. The other night I was riding from Albany to Troy on the belt line, and the engine struck and instantly killed a man walking on the track. While the excitement was going on I remarked to a fellow-passenger, 'Look and see if he has both shoes on.' We both looked and discovered that the left shoe had been removed without the string having been loosened. How can you account for it?"—New York Press.

The Dentist's Solicitor.
There are solicitors and solicitors, but an enterprising young woman in West Philadelphia has sprung a new wrinkle on that peaceful and quiet living section, says the Philadelphia Record. She has had a number of business cards printed bearing her name, and under it is the announcement, "Solicitor for Dr. —, dentist." She goes from house to house and, once admitted, soon finds out how many in the family are afflicted at times with the pangs of toothache or need some cavity filled. She presents the card and, after a little talking, soon has clinched an engagement with the dentist. Three times out of four she succeeds in making the appointment, and her commissions amount to a snug little pile.

Sheet Silver.
The cheapening of the price of sterling silver articles within a generation past, says a writer in the Journal of the Franklin Institute, has been due partly to the invention of methods of rolling silver into sheets, from which the articles are stamped out by manufacturers instead of being laboriously hammered out from rods of silver, which was the old process. Nearly all manufacturers of sterling silver articles purchase the silver sheets from mills that make a specialty of rolling them. Sterling silver contains 975 parts of pure silver to twenty-five parts of copper. The copper gives it the requisite hardness.

BANDIT DEGRADES MACLEAN.

Forced Him to Remove His Turban and Ride Mule.

Tangier, July 6.—The British legation here has no news of Kaïd Gen. Maclean, the commander of the Sultan's bodyguard, and is making representations direct to the authorities at Fez.

When Gen. Maclean was captured Raisuli ordered him to dismount from his horse and mount a mule, in order to show his inferior station, and also directed him to remove his turban, declaring that such a headress was reserved for the Mussulman.

VILLAGE FIRE SWEEP.

Twenty-Six Buildings in Lawrence, N. Y., Burned Away.

Malone, N. Y., July 6.—Twenty-six buildings, including every business place in North Lawrence, were destroyed by the fire which, fanned by a strong wind, swept through the village yesterday at a pace which defied the efforts of the fire-fighters sent from Malone. The loss is estimated at \$75,000, with small insurance.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Sanatorium, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach troubles as well as many other chronic or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver or biliousness, and kindred derangements.

Down in Escaping Flames.
Quebec, July 6.—A forest fire is raging near Road Station, 60 miles from here, and has caused the death of three men.

They were trying to escape from the fire and rushed into a lake and were drowned. Only one of the victims has been identified. He is an Englishman named W. T. Macdonald.

THE MORMON QUESTION.

Protest Against Entrance of Undesirable Element Into Canada.

The Vancouver Daily Province is not inclined to view the increase of the Mormons with equanimity. It says on this subject:

"In view of the encouragement which was given to the Mormon hierarchy by the victory of Reed Smoot, their representative in the United States Senate, and the unequalled support afforded them by Hon. Frank Oliver, the Canadian Minister of the Interior, the intelligence which comes from the East that they are conducting a most active proselytizing campaign in the large centres of population is extremely significant. A despatch from New York is to the effect that in Trenton, N. J., the open-air meetings which the Mormon elders had arranged, with the permission of Oliver, to hold, were interfered with by the Salvation Army which monopolized all the vantage points in the city and prevented these agents of a polygamous creed from obtaining a hearing. That the Mormons should thus be able, openly and fearlessly, to proclaim their doctrine, and to carry a society in the state and their desire to increase their numbers and importance, may dispose us to the opinion that they may yet constitute a question on this continent with which Governments will have to deal. It is idle to tell us, as Hon. Frank Oliver has done, that the Mormons are industrious and enterprising. We know that. We also know that many undesirable elements in our society are also industrious and enterprising, but they are not the less undesirable for that reason. The reverse. These 'Mormons' make them a greater danger. And the peril which the Mormons represent is regarded by the most intelligent and moral of our people as increasingly great. That either Mr. Oliver or the American friends of the Mormons will ever convince the public that that creed does not stand for polygamy it is impossible to believe. Plurality of wives is one of the cardinal principles of their peculiar faith; it is the principle which gives it favor with those most likely to throw in their lot with the sect, and to eliminate it from their doctrine would be to leave Mormonism without any distinctive feature, without the vital principle. Mormonism without polygamy would die in a generation; with polygamy to grow and flourish unless the Government stamps it out. When these elders are allowed openly to proselytize in the great cities of the east, it means that permission is given them to recruit for their special society which has for its object the destruction of the States of the Union. It is plain whether in the United States or Canada; and the Mormons have a solid vote which is of great use."

WEST SPENDING TOO FAST.

Tight Money Ahead Unless Expenditure Is Reduced.

Mr. Byron E. Walker, president of the Canadian Bank of Commerce, in an interview on the financial conditions in the West gave his views of the situation as follows:

"Of course no one can tell until the money results have been seen out of the crop that has been sent back to what extent that relief will meet the western people's requirements, and to what extent it will get them out of debt. It is perfectly clear in any event, and it did not need this winter to tell us, that the West is in a financial straits, a great deal more than the people are receiving from their grain and cattle. If there is not at least a marginal contraction in the scope of improvement of all kinds, from settlers' houses to railway building, we cannot but expect that the fall we shall have a recurrence of the tightness of this winter, except in so far as the trouble this winter was caused by the tie-up of the grain. If we don't slow up in our expenditures, we shall inevitably have tight money again."

"Of course to be forewarned is to be forearmed. In the spring time about the condition of money for the next winter, it is a sign that there will be an instinctive adjustment going on in different people's affairs, and it is quite possible that there will be enough contraction here, and enough capital coming from abroad, to get us out of trouble."

Mr. Walker says there is a very large amount of foreign capital coming in that the man in the street does not know anything about.

FOOT TREATMENT.

Collier's Weekly: Our fool treatment of Canada is another illustration of how legislation can accomplish. The Dominion has now made up her mind to treat us to as harsh laws as can be devised, and her decision is wise and right. For a quarter of a century she has waited patiently, while one President after another, and one Secretary of State after another, devised treaties intended for the mutual benefit of Canada and the United States. Every time the Senate, imagining itself to exist for sequestering benefits desired by the well-entrenched, has protected its rights against the administration and the people. Calmly, in length, Canadian leaders have seen that no fair measure of reciprocity could ever pass the Senate, and she has decided to do all in her power to stop trade with us, to develop it with England and her other colonies; to favor all Europe against the United States, to develop her own incalculable resources. We wish her well. Whatever harm our ass policy brings to us has been fully and painfully deserved.

TO DIVIDE U. S. AND CANADA.

The boundary line between Canada and the United States is marked with posts at mile intervals for a great part of its length. Cairns, earth mounds and timber posts are also used, and through the forests and swamps a line a rod wide, clear of trees and undergrowth, has been cut. Across the lakes artificial islands support the cairns, which rise about eight feet above the high water mark.

Fighting In Morocco.

THE TRANS-CANADA LIMITED.

The C. P. R. New Fast Trans-Continental Service.

The new fast service to be inaugurated by the Canadian Pacific Railway, Tuesday, July 2nd, will carry passengers across the continent in a little over three days and a half, the quickest time made by any railway in America. The new trains will consist of two or more sleeping cars and a diner-of latest pattern—with baggage car, and will rank amongst the most luxurious in the world. No day coaches will be attached, and the trains will be exclusively confined to holders of first-class tickets who desire sleeping car accommodations. These "Trans-Canada Limited" trains will leave Montreal every Tuesday, Thursday and Saturday at 12:30 noon during the months of July and August. Connecting trains leave Toronto for North Bay at 1:45 p. m. on the same day. Close is made at Moose Jaw with the new fast trains for Spokane, and other western American points.

WHERE WILL YOU GO THIS SUMMER?

If you desire rest and recreation why not "The River St. Lawrence Trip?" Folders descriptive of the Thousand Islands, Rapids, Montreal, Quebec, Murray Bay, Tadoussac, the Saguenay River, etc., on application to any Railway or Steamboat Ticket Agent.

For illustrated guide, "Niagara to the Sea," send 6c in postage stamps to H. Foster, Chief, A. G. P. A., Toronto, R. & O. Navigation Co.

NEW LINE TO MUSKOKA.

Canada's greatest railway, in building a line to connect Toronto with the main transcontinental track at Sudbury, has incidentally given us a new direct route to the Muskoka Lakes district, over which fast passenger trains will be running after Saturday, June 22nd. Bala, which is three and a half hours from Toronto, will be the Lakes terminus this summer, and there steamers of the Muskoka Navigation Co. will connect with trains carrying travellers to all points on Lakes Muskoka, Joseph and Rosseau. The roadbed is heavily laid and well ballasted, train equipment is new and handsome, and excellent time is made. In addition to the local trains there will be two flyers to the Lakes, the Lakes and Limited and Sunrise Express, and two flyers south-bound, the Queen City Flyer and Twilight Limited. Through sleepers will run to and from Toronto, Buffalo, Pittsburgh and New York, and of course, a splendid equipment of parlor cars, dining cars, and luxurious day coaches. C. B. Foster, District Passenger Agent, C. P. R., at Toronto, will be glad to mail full particulars of trains and handsome illustrated Muskoka folder, or same may be obtained free from local C. P. R. agents.

The tourist's season is now on, and we are advised by W. E. Rispin, general passenger and ticket agent, that he has some especially attractive tours for the present summer season, leading to all the summer resorts of Canada, including Muskoka Lakes, the Temagami District, Georgian Bay, Lake Superior, River St. Lawrence, and Gulf and Atlantic Coast points, and would be very pleased to furnish information to any intending passengers.

The highest reward lies not so much in royal conditions as in regal character.

HOME OF "ROBINSON CRUSOE."

Defoe's House In London About to Be Demolished.

One of the most interesting literary shrines in England, the house in which Daniel Defoe penned the greater part of "Robinson Crusoe," is about to be torn down to make way for modern dwellings. This little, old-fashioned house, set back from the Finsbury road, Tooting, and in striking contrast with the modern shops which flank it on either side, is now practically just as it was 219 years ago, when Defoe came to it with his family to begin a strange life of isolation. He lived at Tooting for 18 months, and during this time and for 20 years thereafter is said rarely—by some, never—to have spoken to his wife or children.

The sole change that has been made in the house since Defoe's time was the substitution of a new front in the year 1788. Over the scullery on the second floor is the little room where Defoe worked over the literary masterpiece which has secured his reputation for all time. This, the smallest room of the twelve which comprise the house, was his sanctum, and only he passed its portals. Here for whole days he would shut himself from his family, receiving his meals, the meager repasts of an impecunious genius.

During the time Defoe lived in this house he was hard beset by creditors. Four years later he was declared a bankrupt and was compelled to secrete himself to escape a term in a debtor's prison.

The 18 months spent here, if we are to believe those who find an allegory of Defoe's own life in "Robinson Crusoe," was a time of great part of the book which tells of the shipwreck on a lonely island, the voyage to and from the wreck, the earthquake, Crusoe's serious illness, the

WHERE DANIEL DEFOE WROTE "ROBINSON CRUSOE."

first reading of the Bible, and his visit to the other side of his island.

Here, in the town of Tooting, then a small settlement, but now a thriving part of London, Defoe formed a congregation of dissenters. They first met in a private house (probably the one now to be demolished). Here Defoe is said to have preached to them occasionally. Subsequently the growth of the congregation compelled their removal to a temporary wooden building of greater size. From there they removed to the Defoe Presbyterian Chapel and quite recently a Defoe church was erected on the site of the author became the home of the descendants of the original body.

The old house is at present occupied by an aged woman and her equally aged husband. For a small fee they show visitors the room where Defoe wrote "Robinson Crusoe." In recent years the American pilgrims to this literary shrine have far outnumbered English callers.

Largest English Fortunes.

Just at the present moment, when the value of the property left by James Henry Smith, who died in Japan last month, is attracting a good deal of attention, it may be worth while recalling the fact that Chicago Smith, his eccentric cousin from whom he inherited most of his wealth, figures in the records of the English court of probate as having left a fortune of \$25,000,000. The late Baron Bimsh is set down in these same official records as having left a fortune of identically the same figure, namely \$25,000,000; while J. Pierpont Morgan's father figures for a trifle over \$10,000,000. The late Lord Bute, the last Lord Wolmerston, W. R. Smith, the publisher of the father of the present Earl of Derby, and Lord Grimthorpe, all range in the neighborhood of \$10,000,000; while Alfred Beit, the diamond king; Sir Charles Tennant, father of Dodo Asquith; the late Lord Alton, better known as Wentworth Beaumont; Hugh McCalmont; William Winans, the contractor, and Sam Lewis, the London money lender, each of them left about \$15,000,000.

There is no record in the annals of the English court of probate of any fortune exceeding \$25,000,000. Of course, these figures do not give the value of the value of the property left by the people whom I have just enumerated. For, in the first place, they do not include the entailed property, which, in the case of Lord Derby, is very large indeed. Then, too, they do not take into consideration the property which the testator may have held abroad, and disposed of by other wills probated by the courts of those countries.

London's Bishop Who Will Visit Us.
The bishop of London, who is to visit Canada during the coming summer, is on the border land of the East End and still a bachelor, says the London P. T. O. He has proved himself an ideal ruler of the see, for which his thirteen years' acquaintance and sympathy with the life of the people of London and pastorate of St. Martin's East End admirably fitted him. He won the real affection of the people "down east" by his free and easy manners with them and by acting up to his motto, "Don't be afraid to be human." He would often salute an individual man with a genial "Hello, old boy!" On one occasion he loaned a seedy individual his great coat, and it never returned. He has been censured by a parochial relief committee for indiscriminately giving half crowns away. One lad, who played football with him, says, "Ingram a pretty firm on his pins."

C. P. R.'S NEW CROSS-CONTINENT FLYER.

"Trans-Canada" Makes Fast Time Across America.

The business of the country is growing to such an extent that the C. P. R. finds it necessary to run an additional train between Montreal and Vancouver, making three trips a week during July and August. This train, which will be known as the "Trans-Canada Limited," will make the fastest time of any time across the American continent. It will carry baggage car, dining car and palace sleeping cars only, of the very latest design and with most modern appointments, and only first-class passengers will be carried. She will leave Montreal on the first trip July 2nd. Berths can be reserved in Toronto for passage from North Bay to points west of Winnipeg at which the "Trans-Canada Limited" stops. No passengers will be carried from Toronto for Winnipeg or points east thereof, as Winnipeg passengers arrive only one hour later by taking the "Imperial Limited." List of stops, full particulars and berth reservations can be obtained at C. P. R. local ticket offices, or from C. B. Foster, Div. P. A., C. P. R., Toronto.

Reduced rates to Detroit and return, going every Saturday and Sunday, returning up to Monday night, was \$1.60, is now \$1.50. C. P. R. are also making rate of \$1.00 going every Thursday, good to return until following evening. For further information ask C. P. R. ticket agent, corner of King and Fifth streets.

A wise man who made a little improvement each day found at the end of the year a revolution in his business.
