MOST REMARKABLE

Was the Recovery of this Nova Scotia Youth.

Bright's Disease had Brought him to the Edge of the Grave—Dodd's Kidney Pills Cured Him—All Other Remedies Failed.

LIVERPOOL, N. S., March 20.—Some time ago, there appeared in the leading journals of the Dominion an account of the case of a farmer's son, who lives about ten miles from this city, and who was a severe sufferer from that dread scourge of humanity—Bright's Disease of the Kidneys.

The young man's father, unable to bear the sight of his son's sufferings, any longer, purchased a box of Dodd's Kidney Pills from Druggist Arthur Hutchins, and the sufferer began to use them for his complaint, following the directions strictly.

Long ere the box was empty, a decided change for the better had taken place, in the victim's condition, and new hope sprang up in the breasts of the family.

The use of the pills was continued day by day the young man grew stronger and stronger, till at length, he was completely restored to health and strength and vigor.

"No other medicine that we used, and we tried many different kinds, did him the slightest iota of good," said the father to Mr. Hutchins.

"But within a week from the day we commenced to use Dodd's Kidney Pills, we could see beneficial results. He became more lively, and cheerful; the extreme pallor of his countenance gave way, and was succeeded by the ruddy flush of health. His nervousness vanished, and the aches left his bowels, and he gained strength rapidly. I never heard of such a remarkably rapid and complete recovery."

"Dodd's Kidney Pills are truly a heaven-sent medicine, and ought to be in every house."

"Dodd's Kidney Pills save every life that is in danger from Kidney Disease, if they are given in chance.

Pork Packing.

Saturday's Sun.

The meeting in the Board of Trade rooms last night in the interests of pork packing and port raising was well attended.

W. M. Jarvis presided.

After a few opening remarks by the chairman, George Robertson, M. P., spoke on the pork raising industry and the establishment of a pork packing factory in this city.

Hon. Mr. Lablisset, in response to a call, spoke at some length in favor of the establishment of a pork packing establishment in this city.

J. J. Ferguson of Ontario, said it rested with the farmers to supply the right kind of hogs. If the farmers raise hogs he must be assured that there will be a pork packing establishment. The conditions, he thought, were favorable for pork raising and pork packing in this province. He spoke of the feeding system in Ontario, and stated that in some sections hogs could be raised cheaper than in Ontario. Hogs enough to keep a factory in operation could be raised in this province, but if there was a scarcity there would be no trouble in getting a carload from Montreal in 24 hours. A corporation should not start with a small capital. Cash must be paid for the hogs and a company should have a considerable sum of money on hand to provide material. The cash returns will come in slow at first and for this reason good provision should be made.

Mr. Ferguson, in reply to Dr. Gilchrist, answered several questions in regard to feeding hogs. He said in Ontario hogs could be sold, live weight, at an average of four and a half cents per pound. Mr. Ferguson spoke of his visit to Middleton, N. S., last week, where a farmer told him that he would supply the pork factory with 500 hogs a year, getting his feed from Ontario.

W. W. Hubbard thought farmers did not understand swine growing, although there were some farmers making a good showing off clever. He said the farmers would not produce the pig, unless there was a market for them, and therefore it remained for the moneyed men to establish the factory.

Hon. Mr. Emmerson, in response to a request, spoke briefly. The commissioner of agriculture had frequently brought before his colleagues the importance of pork packing factories, with the result that the matter has awakened considerable interest. It was most important, the subject of establishment of a pork packing factory in this city. There have so far, however, been no practical steps taken to establish a factory. On the train he was conversing with a gentleman from Madawaska who sold three thousand dollars worth of pork each year, imported from Ontario. This was only one man. He had no policy to propose so far as the government was concerned beyond encouragement of raising of hogs. The government has brought the matter before the public, and it now remains for

the business people to take hold of it. He did not know what better way the government could aid in the establishment of pork packing factories than in the importation of some good breeds of stock, and from conversations he had had with his colleagues the government would be favorable to such an impertion. He was present for the purpose of getting information and learning the views of business men and farmers.

Dr. Gilchrist read the circular issued some time ago in request to the establishment of a pork packing factory, and criticized the same. Afterwards the doctor spoke of the feeding of hogs and pointed out that there was no necessity for sending to Ontario for feed. Just as soon as the farmers are assured there is a market the hogs will be forthcoming for a factory.

T. A. Peters, secretary for agriculture, on being called on said one good argument in favor of the establishment of a pork packing factory was that never had one failed. He said that at least after the first year all the hogs required would be forthcoming. In fact he was satisfied that Kings county alone would supply hogs enough for a St. John factory.

James Pender was of the opinion that it would be a good idea for the board of trade to endeavor to get Slipp & Flewelling to establish a factory in conjunction with other gentlemen.

T. L. Hay said the last letter he had received from Mr. Packerham stated that he offered to take stock up to ten thousand dollars. Mr. Hay did not think the prospects were favorable for the establishment of a factory. He was, however, willing to subscribe some stock in the company.

W. S. Fisher spoke of the movement within the past two years for the establishment of a pork packing factory.

Frank Flewelling, of Slipp & Flewelling, on being called on, said the limit of his business was the limit of the hogs. He said he paid a cent to a cent and a half more to the farmers for their hogs than the Ontario farmers got.

In reply to W. W. Hubbard, Mr. Flewelling said he would take a carload of live hogs next September and pay the Toronto market price. Although there is a duty of two cents a pound, or four dollars a barrel, American pork is not shut out. The farmers will not raise hogs sufficient to supply the local demand.

W. M. Jarvis said that it was apparent from all that had been said it was desirable to have the views of Hon. Mr. Emmerson carried out, namely, the importation of some good breeds of pigs.

C. J. Osmen, M. P., of Albert, and Hon. Wm. Pugsley, M. P., of Kings county, spoke on the subject of establishing a pork packing factory. Both were in favor of the scheme.

F. L. Potts, W. S. Fisher and Capt. Keast spoke briefly, after which a vote of thanks was tendered Hon. Messrs. Emmerson and Lablisset, T. A. Peters, Mr. Ferguson and W. W. Hubbard.

Hon. Dr. Pugsley moved that a committee be appointed to confer with the government as to the establishment of a pork packing factory at some convenient point within the province.

Dr. J. M. Smith seconded the resolution.

E. Lantaulu moved an amendment, that St. John be substituted for the words "some convenient point."

S. D. Scott suggested that "some convenient point" be struck out.

This was accepted by Hon. Mr. Pugsley and the amendment was withdrawn.

The motion was carried and the following committee appointed: Hon. Wm. Pugsley, George Robertson, M. P., James Pender, T. L. Hay and F. L. Potts.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and am now well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. 50 cents and \$1.00, at any Drug Store; every bottle guaranteed.

Active Prohibitionists.

MONTREAL, March 13.—Sir Wilfrid Laurier's letter to the secretary of the Dominion Alliance announcing that the government had decided not to introduce any prohibitory legislation as a result of the plebiscite caused great excitement among temperance people here. The meeting of the Quebec branch of the Alliance has been called for Monday to discuss the situation. It is said a manifesto will be issued to the electors of Canada exposing what temperance people consider the duplicity of the ministry and advising the formation at once of a third or prohibition party in Canadian politics, prohibitionists having come to the conclusion that nothing is to be expected from either of the two old parties.

It Gives True Life!

Paine's Celery Compound

Indorsed by Physicians as the Best Spring Medicine.

The records and history of medicine point to Paine's Celery Compound as the most successful remedy ever given to sick and suffering humanity. It is indorsed by the medical faculty because they know its formula and have confidence in its life-giving virtues.

Paine's Celery Compound works glorious and marvellous cures. This is the secret of its success, and accounts for its world-wide and enormous sales.

It is in the spring time—this very month—when men and women are weak, nervous, rheumatic, neuralgic, dyspeptic, have headache, kidney and liver troubles, and blood that is sluggish and impure, that the great medicine should be used to restore nervous energy, rich blood, healthy digestion, natural appetite and sweet refreshing sleep.

The right has been a time wherein men and women have stored ill health instead of keeping the body sound, clean and full of true life. The nervous, blood and digestive organs must be fed, nourished and cleansed by Paine's Celery Compound if true and lasting health is looked for.

At this time we honestly urge the use of the medicine that has restored thousands to full and robust health after medical skill and ordinary medicines failed. One bottle of Paine's Celery Compound will convince you that you have found a true friend and helper.

Here is a Total Loss.

The new Allan Line S. S. Castilian, Capt. Barrett, which sailed from Portland, Me., on Saturday for Liverpool, via Halifax, went ashore shortly after four o'clock on Sunday morning on what is known as Gunnet Rock dry ledge, twelve miles from Yarmouth light. There was no one on board at the time. The steamer being in company with the British general cargo vessel valued at \$450,000, the most valuable cargo ever shipped by the Allan from Portland. When the dispatches were sent out on Sunday the ship had six feet of water in her hold. She was badly bulged up from the saloon to the foremast. A large number of sleep in the forward hold were drowned. The swelling of grain in the forward hold threw up the saloon deck. The passengers were taken off by a tug and landed at Yarmouth. Captain Barrett and officers are still by the ship.

The Castilian is a new ship and was built by Workmen, Clark & Co., Belfast. She was especially designed to meet the requirements of the Canadian trade and was fitted up with all the latest improvements. She cost \$700,000.

Chicken Fattening Stations.

The department of agriculture proposes to establish two chicken fattening stations in each of the maritime provinces during the coming summer and make trial shipment of poultry to England.

Death of Hon. John F. Wood.

TORONTO, March 10.—Hon. John F. Wood, M. P., for Brookville, was found dead in his bed at the Queen's Hotel this city, this morning. Death resulted from heart failure.

She was an aristocratic but vinegar-faced lady, and she had called on her friend Mrs. Grindstone. "He's a charming little fellow, Mrs. Grindstone," she said, referring to Willie Grindstone.

"Only five years old, you say? You'll give me a kiss, won't you, Willie?" Willie did not evince any signs of eagerness to comply with the request but he kissed her.

"That's a good boy," said the visitor, "but what are you holding in your hand so tightly?"

"It is a quarter mamma gave me," said the truthful Willie; "she said she 'spected you'd want to kiss me, and I told her I wouldn't do it for less."

ARCHIVE SOLICITORS WANTED EVERYWHERE

for "The Story of the Philippines" by Murat Halstead, commissioned by the government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the rear of battle at the fall of Manila. Bonus for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low price. Big profits. Freight paid. Credits given. Drop all trashy, unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.
