N. Y. HERALD BUREAU, LONDON, JULY 5. A terrible explosion of gas occurred this evening at seven o'clock in a street in the violnity of Tottenham Court road. For some time past gas had been noticed es-caping in large quantities and a man was sent to examine the pipes. He applied a light and a series of explosions occurred. Connecting at the upper end of Charlotte and Percy under Tottenham Court road, there were aix different explosions in various parts, each working a deep brench from eight to ten yards long. From the large traffic prevailing in this densely populated neighbourhood, it is surprising that the list of casnalties is not larger than at present reported. There are two persons fatally wounded and thirty more or less injured. From one trench sixteen per-sons were extricated. Four hundred houses are injured and one demolished. Many having large rents are rendered untenable. All the windows along the line of the ex-plesions were demolished, the ohimney pots thrown down, and the shock was felt as far up as Hampstead Road. A dense volume of gas issued from the trenches, and the air was charged almost to suffoca-tion. The performance of "Forget-Me. great, but there was also much fraud and importure. Mr. GLADETONE said the greater part of the epposition to the bill was a renewal of the smouldering hostility to the Land Act. The bill must be judged from the stand-point of the Land Act, which created for the tenant an interest in the land and in improved the value of the land, though it interfered with property. Evictions, he said, were increasing lamentably, and it was necessary to employ a large number of police to enforce the processes, Such a state of things nearly approached the danger of a civil war, and it was, therefore, necessary to take measures to prevent a serious crisis. The best means to combat the anti-rent agitations was to remove the justification for the agitation. Mr. CHAPLIN'S amendment to reject the bill was defeated by 295 to 217. The bill was read a second time without division.
