

ORGANIZATION IN LUMBER TRADE

The Canada Lumberman is giving prominence to a series of articles from leading men in the business on the importance of association work, its influence and the advantages of co-operation among those engaged in lumbering. In its last issue there appears a timely contribution from the president of the New Brunswick Lumbermen's Association, Mr. J. W. Brankley, of Chatham, setting forth what that body aims to do for forestry in this province. Mr. Brankley writes:

We formed the Association in 1918 and it has been going strong ever since. It is not for the benefit of any particular class of lumbermen and we welcome every one in the industry. For we feel we must have their support to obtain results.

"The Association's main object is to protect the rights and promote the interests of the owners of forest land and to conserve and improve the conditions of the lumber industry by the development of new markets, especially for hardwoods. Also to bring about a spirit of co-operation in the industry in the province so as to produce a greater efficiency, and to investigate and study problems connected with the lumber trade.

"You will, therefore, see that our Association has a broad basis and wide charter to work upon. That we have been able in the short time since we organized, to accomplish but a comparatively small part of our objects goes without saying. There are so many problems to work out that it would be impossible in the scope of this article to deal with them all; but let me briefly refer to what, I believe, is one of our main problems, and with which the Association will have to grapple.

"I refer to the disastrous plague, and enormous loss to the province in general, and the industry in particular caused by the bud worm. It is now fairly well recognized that the problems raised by the operations of this pest will keep New Brunswickers busy for several generations. Ample proof of this is that the damage has affected nearly four-fifths of the forests of the province. On this area about 90 per cent. of the fir has been killed and thereby ruined, and rendered worse than useless, as well as about 5 per cent. of the spruce. This means some thing when it is considered that fir and spruce make up about three-quarters of our annual cut. Nearly all of the dead trees are not only useless and beyond redemption, but they constitute a greatly increased forest fire menace. This is a hazard that must be met and handled by the lumber industry and constitutes in itself almost a complete answer to your query "What the New Brunswick Lumbermen's Association can do for the In-

DAUGHTER WAS WEAK AND NERVOUS

Mother Gave Her Lydia E. Pinkham's Vegetable Compound with Happy Results

Cobourg, Ontario.—"Lydia E. Pinkham's Vegetable Compound was recommended to me for my daughter. She had trouble every month which left her in a weak and nervous condition with weak back and pain in her right side. She had these troubles for three years and frequently was unable to attend school. She has become regular and feels much better since she began taking the Vegetable Compound and attends school regularly.—Mrs. JOHN TOMAS, Ball St., Cobourg, Ontario.

Every mother who has a daughter suffering from such symptoms should give Lydia E. Pinkham's Vegetable Compound a trial. It is prepared from roots and herbs, and can be taken in safety by young or old. It has been used nearly fifty years, and many, many women owe their good health today to the timely use of Lydia E. Pinkham's Vegetable Compound.

"FRUIT-A-TIVES" SAVED HER LIFE

This Fruit Medicine Always Gives Relief

917 DORION ST., MONTREAL.
I suffered terribly with *Dyspepsia*. I had it for years and all the medicines I took did not do me any good. I read something about "Fruit-a-tives" being good for all *Stomach Troubles and Disorders of Digestion*, so I tried them.

After finishing a few boxes, I was entirely relieved of the *Dyspepsia* and my general health was restored; and I am writing to tell you that I owe my life to "Fruit-a-tives"

Mlle. ANTOINETTE BOUCHER.
50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

"An agitation has been steadily growing in this province to have the Government improve its system of log scaling. At a recent conference of our Executive with crown land officials, one of the latter stated, 'My experience in small logs is that we cannot get a surveyor to give a survey that will hold out.'

This is perfectly true and the shortage runs from 10 to 20 per cent. and in view of such a very large loss, the Association has been pressing upon the Government to do away with our antiquated scale and adopt the one in force in the Province of Quebec which it is admitted, gives the operator a fair return. Satisfactory progress is being made along this line.

"This article could be lengthened to a perhaps wearisome detail as to what the Association can do for the industry. I shall not take that risk. Let me therefore conclude by merely stating some further objects we have planned:

- "(a) To assist in formulating a more efficient system of fire protection for all forest land in the province
- "(b) To co-operate with the Government in fighting forest fires and protecting the lands of members of the Association.
- "(c) To prosecute transgressors of the fire laws.
- "(d) To promote legislative measures to conserve forest resources in general."

Swim Inquiry At Woodstock Thursday

The inquiry into the circumstances surrounding the execution by hanging of Benny Swim which took place October 6th, at Woodstock, will open on Thursday next at 10 a.m. Sessions will be held in the Carleton County Court House, Woodstock. J. Bacon Dickson of this city who was named by the Provincial Government at its last meeting as commissioner to conduct the inquiry has set that date, hour and place. He himself will represent the Province in the matter. It is expected that other interested parties also will be represented at the inquiry by counsel.

Beaverbrook Aids Boy From Bellhop To Business Head

London, Oct. 22—J. Robertson, a former Torontonians, will be wedded this week to Miss Dorothy Kettle, a well-known war worker. While working as a clerk in the Queen Hotel in order to pay his way through Toronto University a dozen years or so ago, Robertson carried up Lord Beaverbrook's bag, and did it so well that the Anglo-Canadian financier took a fancy to him. When Robertson was invalided from the 19th Battalion during the war, he was appointed Beaverbrook's orderly at the Canadian War Records Office. On Beaverbrook acquiring the Daily Express, Robertson was taken on the staff and he is now chairman of the Board of Directors of the Sunday Express and business manager of the Daily Express.

SALE OF TWO LUMBER LICENSES

Two lumber licenses were sold at the crown land office at noon Thursday at the upset price of \$20 per sq. mile. These licenses are renewable each year and are situated as follows: Lot 37, Parish of Southampton, containing 10 square miles, purchased by Pinder Lumber and Milling Company; lot 38, Richibucto Pond, north of Bay du Vin, containing two square miles, purchaser, W. and R. Walsh.

THE PROHIBITION LAW ENFORCEMENT

Washington, Oct. 26—Pending a final interpretation of the statute by the supreme court, probably late next month or in December, enforcement of the United States prohibition law under the rule holding it to prohibit possession of liquor on foreign ships within United States territorial waters will be withheld, according to the indicated policy of administration officials.

Guard The Children From Autumn Colds

The Fall is the most severe season of the year for colds—one day warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, One.

Hawthorne's Men Being Kept Busy

Chief Inspector Hawthorne's men have been busy in Gloucester, Kent and Northumberland counties raiding places where spirits have been manufactured and sold. "In Tracadie Inspector Stewart seized a cask of home brew at the home of Bernard Bredeau and more brew at Joseph Manuel's at Bale Ste. Anne. Raids were also made in Richibucto, where Mrs. Adelaide Guilmond was fined \$200 for having moonshine whiskey on her premises, and J. Robichaud paid \$50 for brewing beer without a permit. Raids were made at Kouchibouguac where liquor in the process of fermentation was seized at the home of Dan Grogan and William Daigle.

Ransforth O'Donnell, of Millerton and a man named McIntosh in Millerton, are charged with spirit making, their premises having been raided also.

Our home folks in these Provinces by the sea naturally ask for RED ROSE TEA when they want the very best.

RED ROSE COFFEE is free of dust—settles clear as a bell—no egg needed.

Peerless Corona Ranges

We carry a large stock of the above Ranges, which are recognized to be the best on the market. The price is reasonable and the terms are right. They come in two sizes, with or without reservoir, polished top or water front.

Heaters
