TWO GOOD FARMS HOUSEHOLD SUFFRAGE.

At the General Meeting of the Reform At the General Meeting of the Beform Association on Wednesday evening, a reso-lution was passed in favor of. Household Suffrage, although amongst the members present Universal Suffrage found some ad-vocates. We give a "Tract for the Timer," in this impression, from Berosma-ron, advacting a something akin to Uni-vorsal Suffrage, although he fails to define what that "universality" should be. He splaushile theory rough, but when attemp-ted to be reduced to practice rather difficult of definition. The drinker of coff e, the consumer of sugar, or the wearer of a pair of definition. The drinker of coff e, the consumer of sugar, or the wearer of a pair of American boots, is a tax-payer, as much as the resident landowner. It is absolute ly impossible, then, to adopt the mere pay-ment of taxes as the quelification. In seve-ral of the States of the Union, some proper-ty qualification is essential—and in all a period of residence. varying in its length, prior to the day of election. The adoption of Household Suffrage would materially ex-tend the franchise, whilst it would insure importance to the right of voting. The qualification now required in the Township

qualification now required in the Township Election would be a just one for voters and Members of Parliament. The C-lector's Roll, containing the names of all Freeholders and Householders would then be the guide of the Returning Officer. A man con-idered sufficiently intelligent to select local officers, ought not to be shut out from the guide of the Rebelling sire for Reform with moderation, and carefully avoid one extreme whilst seeking to escape from the other. The system of Universal Suffrage would invest the newly arrived emigrant with authorities which he ought not have until tesi-deat in Canada for a certain period, and often, give a preponderance to that party whose clap trap is "Loyalty." and who make political capital ont of the prejudices of the "old coun-tryman." Universal Suffrage would lead to mach abuse on the part of migratory loafers and others, who, having no direct stake in the comunity, would possess an equal voice in its legislation with men having its hest interests at heart. It is true that Household Suffrage would registration with men having is best interests at the best why and able to contain the best of those who may honor him the interest of those who may honor him the still shut out some from the polling booth, whose thanks for past favors, he hopes, by intelligence should secure them an entrance, but the evil of this would be overbalanced by the customers, still to merit a continua benefits derived from defence against the undue their patronage. influence of a large class of easily-bought voters.
