Now this young fellow is apparently rather nearer the measure of a man than the aver age, and there is no doubt that he loves his little mother. But he does not like to write letters, and again and again he fails to send the weekly letter which he has promised his mother. Sometimes it comes several days late; sometimes, not at all. Now , der? I appeal to anyone who has ever waited for the letter that didn't come, is there any keener mental torture than such waiting? The alternations of acpe and despair, the futile efforts nct to expect it by this mail, and the sick disappointment when the post man passes by, proving that after all you did expect it, the innumerable misgivings as to what is the cause of the delay-all together, these things wear a person out as much as hard work or physical illness, and yet all this has the young man made his

TWENTY YEARS-

Makes a great difference in most women. They are troubled with "nerves"—they suffer from backache, headache, sleeplessness, a sensation of irritability or twitching, hot flashes, dizzy spells, or many other symptoms of female weakness. The local disorder and inflammation should be treated with Dr. Pierce's Lotion Tablets and the irregularity and weakness of the female system corrected and strengthened with Dr. Pierce's Favorite Prescription. The strain upon the young woman or the woman of middle age—upon the nerve and blood forming structures—may be too great for her strength. This is the time to take this restorative tonic and strength-giving nervine and regulator. For over forty years sold by draggists for woman's peculiar weaknesses and distressing ailments. The one remedy so perfect in composition and so good in curative effects as to warrant its makers in printing its every ingredient on its, outside wrapper. The one remedy which absolutely contains neither alcohol nor injurious or habit-forming drugs.
