"We are only little ones, but we know Zam-Buk eased our pain and cured our sores. Perhaps it would cure you, too, if you tried it?"

Isn't this sound advice from "babes and sucklings"? Take it! The speakers are the children of Mrs. E. Webster, of Seigneurs St., Montreal, and the mother adds weight to their appeal. She says: "My little girl contracted scalp disease at school. Bad gatherings formed all over her head, and not only caused the child acute pain but made her very ill. The sores discharged, and occurring on the scalp we feared she would lose all her hair. She was in a pitiable plight when we tried Zam-Buk, but a few days' treatment with this balm gave her ease. Then the sores began to heal, and we continued the Zam-Buk treatment. In a short time she was quite healed. My little boy sustained a serious scald on the neck. It set up a bad sore, and quite a few things we tried, failed to heal it or give him ease. Once more we turned to Zam-Buk, and we were not disappointed. It acted like a charm in drawing away the pain, and soon healed the wound."

Zam-Buk is "something different" in the way of balms. It contains powerful healing herb essences, which, as soon as applied to skin diseases, kill off the germs and end the painful smarting. Other essences contained in Zam-Buk so stimulate the cells that new healthy tissue is speedily formed. Eczema, itch, ulcers, cold sores, abscesses, festering sores, blood poisoning, chronic wounds, cold cracks, etc., are healed and cured in this way. Use it for all skin injuries and diseases. It is also of great service for piles. All druggists and stores at 50 cents box, or Zam-Buk Co., Toronto, this paper.

Hr. Grace Notes.

Mr. Willis' Pike, of Bell Island, spent a few days of this week in town among old friends who are always glad to welcome him.

A very enjoyable sociable and dance was held by the K. E. Brigade in the Masonic and British Hall on New Year's night. "One of the most enjoyable I ever attended" was the expression of a person who has attended a large number of such gatherings. The proceeds amounted to \$40.00, which goes to the Band Fund of the Brigade.

Miss Cody asks us to say that her music pupils will begin their work again on Tuesday next, after their Christmas holidays.

From letters received this morning from Summerland, British Columbia, we are very pleased indeed to hear that Mrs. R. S. Munn, who is residing with her son, Mr. A. G. Munn, there, is enjoying excellent health, and frequently walks half a mile to visit Mrs. A. G. Munn's sister, Mrs. Munn's many friends here and at St. John's will, we are sure, be delighted to hear of this lady's well being. A little snow had made its appearance there, and Mr. Munn's boys, Masters Blanchard, Russell and Alec, pressed a cheese box into service making a first rate toboggan, and were no doubt thus reminded of their Newfoundland home.

Mrs. W. H. Ellis, of Plymouth, also writes us that both the Captain and herself are well and sends the season's compliments to all old friends. Tell them through the Telegram, she says.

Mr. Ernest Davis, who has charge of the Methodist Circuit at Millerton, left for his station on Thursday after spending the Christmas holidays with his parents, Mr. and Mrs. Orestes Davis, of Woodville Rd.

Here is another sample of the public news that the Colony pays to have sent to the outports. It was the first message that arrived for several days and is apparently a free 'ad' for the Reids. Here it is; perhaps you will give it further publicity, so as to help these poor people along:

St. John's, Jan. 3, 1913.
Train service is in working order again and Bruce left last night. Invermore following noon to-day, will return to-night and to-morrow night taking up schedule again. Steamer Home bound to the Straits was stopped off Point Ferrol by heavy ice pack.

Miss Ethel Hawkins, of St. John's, spent part of this week in town visiting friends and relatives. She was the guest of Judge and Mrs. Oke. She left for home yesterday.

Miss B. Hawkins, who was very sick last week, is much improved now and her friends hope she will soon be fully recovered.

It is said that a sum of money, about \$30.00, was stolen from the home of Mr. James Pottle, of the West End, a few days ago. The matter has been placed in the hands of the police.

FEET.

BY H. L. RANN.

The feet are the two uneasy attachments to the human body which most people would be glad to substitute for something else. Nearly everybody is afflicted with it more or less feet, which throb in unison whenever stepped upon in the street car. There are several patterns of feet, ranging from the low, rakish chorus girl type to the square, virulent model of the field hand, some of which are more virulent than others. The society foot is a special design, and has very little work to do except when climbing in and out of a limousine.

The male foot is the largest specimen in existence and is subject to prolonged nervous spells, caused by a tight lacing. No man ever buys a shoe within three days of his natural size, and this causes the feet to utter loud protests in the form of shooting pains. If it were not for the pride of man there wouldn't be a shoe sold in this country smaller than a No. 10 on an E last.

Feet are useful things to have when they are not enraged about something. The presence of the corn, however, will throw them into a violent passion and cause the owner to shift hurriedly from one position to another, in search of peace. The corn is a small, unobtrusive object which is constantly coming in contact with the leg of a chair or being tramped upon by the affectionate feet of childhood. The small boy can locate his mother's pet corn at the first shot, on an average of six times a day.

The gout is a robust foot disease which grows in Lun'non and other parts of the British empire, and is harder to get rid of than a houseful of eager relatives. The gout is confined mainly to the upper classes, who have it with great frequency and enthusiasm.

The feet are also subject to the popular ailment known as the foot and mouth disease. This disorder is more prevalent during a political campaign than at any other time, and can only be cured by an adverse majority at the polls.

Nearly Drowned.

The public wharf opposite the Cross Road, was very near the scene of a drowning fatality on Tuesday night last. Mr. Wm. Mercer, formerly of Bay Roberts, but now residing in St. John's, arrived here by train Tuesday night on a visit to his brother, Simon. He left the station and went out the Cross Road and continued on until he walked over the head of the public wharf. His screams for help attracted the attention of Mr. Geo. Jardine, who quickly responded to the call. Mr. Jardine found the man at the head and on the west side of the wharf. Leaning over he gripped him by the coat and held him while he shouted for help. Mr. Piccott, Gus Dawe and John Snow, of Coley's Point, responded, and while some assisted Mr. Jardine in keeping the man above water, others procured a boat, and after a little while they had him on the wharf. He was then taken to Capt. Jno. Parsons' store, and Drs. Cron and Atkinson sent for. Restoratives were administered and shortly after Mr. Mercer was driven to the home of his brother. He is now feeling alright again. Mr. Mercer was in the water some time and was becoming exhausted when assistance arrived.—The Guardian.

Police Attacked

Prisoner Rescued—Baton's Freely Used.

At 7.30 last evening a drunk passing down New Gower Street, at the foot of Batters' Hill, on being ordered to go home by Officer Day, hit the latter a stunning blow in the face and cut him about the mouth. The officer with Const. Brown grappled with the man who not long since was released from prison, and a crowd gathered. As the officers were trying to manacle the prisoner, some of those present attacked them. Day was seized by the legs and an attempt was made to drag him clear of the prisoner, but he held on and both were pulled across New Gower Street. Brown was separated from his brother officer and eventually the prisoner was taken from the police and ran up Stephen Street. Officers Nugent and Bussey now arrived and recaptured the prisoner with Day but again the crowd closed in and the men had to use their batons on the heads of some of those present to get a chance to seize the prisoner. After a struggle he was handcuffed and taken to the station. The man repeatedly butted and kicked Day on the way to the lock up. The names of those who interfered with the officers will, if possible, be procured with a view to their punishment.

Headachy, Bilious, Upset? 'Cascarets.'

Bilious, throbbing headache means bowels are clogged and liver stagnant—you need Cascarets.

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

Daring Robbery In Toronto Store.

Toronto, Jan. 1.—E. Scheuers jewelry store in the centre of Toronto's retail business district on Yonge St., protected by a burglar-proof system, and policemen passing every few minutes, was robbed; while Toronto was celebrating advent of the New Year.

The thieves got into a vacant office above, and cut a hole in the ceiling and dropped themselves down into the store. They were ingenious thieves. To avoid detection by the noise of dropping plaster they shoved an umbrella through the little hole and when opened let the pieces of plaster drop into it.

A rope ladder was used to let themselves down into the store. Eighty rings, worth \$3,000 were taken.

Remarkable Escape from Starvation off Cape Horn
Extract of letter from DAVID JAMES (Master), of the late bark "Colorado," of Glasgow.
"Having lost our ship on Staten Island, on the 18th of July, and having saved neither crew nor cargo, we were compelled to travel over the land for 18 days, subsisting on nothing but shell-fish and seaweed. On the 19th of July we came across another shipwrecked party of seventeen, the surviving part of the crew of the British ship "Dunelm," of Glasgow, (after having perished through exposure. Now, the ship was lost on the 23rd of June, and a lot of the cargo, consisting of Epps' Cocoa, was washed ashore out of the wreck. There was nothing saved except the Cocoa, and we subsisted twenty-five men, were kept alive on it up to the 20th of August, when we were rescued by the steamer "Mercury," of Buenos Aires.
"Too much praise cannot be given to this Cocoa. We had a good stock of it there; we used it in a liquid state for drink, we absorbed it on the fire, which kept us alive and warm for 6 weeks on this barren island, situated in a region of perpetual ice and snow."
