The Dock

Resolutions

asset is before the House, and the manner in which the Gov-ernment have dealt with it will meet with strong approval. Yes-terday the Prime Minister exterday the Prime Minister exterday the Prime Minister ex-plained the various propositions in terms familiar to the ordinary citizen, and he was followed by citizen, and he was followed by the Hon. M. S. Sullivan, who gave a thorough review of the existing condition of the Dock and dealt fully with the techthe Hon. M. S. Sullivan, who nical problems which it present- sionary Propaganda.

ed and the most effective meas-Radio Competition ures, commensurate with the financial resources of the country, which should be taken to overcome them.

We regret that it is impossible to reproduce in to-day's issue the | night on March 31st. given it will be clearly seen that picked up (by an amateur operator) sult in the construction of a

bition that provides the wish to make the present better than the past, with a desire to enjoy more fully the benefits of civilisation. If we exploit to the full the assets that lie ready to hand, as

development, we can look forward to the future with con-

our requirements and will provide the necessary facilities for the greater number of disabled

taken from Mr. Sullivan's speech, he expresses the business-like view taken by the Governmnet, which, while desirous of provid-

ing the best possible public utility, are at the same time bound seriously to consider ways and

means:

"Looking ahead," said the speaker, m. yesterday. The ship brought a I think it is the general opinion of the large general cargo and the following Government that it is in the best in-Government that it is in the best in-terests of the country that whatever we do now, should be done with a view Mr. E. Toms, Mr. E. J. Russell, Mrs. to its being an asset to the country, and reconditioning of the Dock as it was, is not looked upon as being a good business proposition. The type of ships being built now is altogether different from the ships which were Mr. P. Collins. different from the ships which were built when the present Dock was con-structed, and it is necessary that the Dock should be widened and deepen-ed. If scheme No. 2 is carried out, we shall have a Dock which will suit our purpose as well as proposition No. 4 which was estimated to cost between which was estimated to cost between wireless. The steamer reported that she had \$,000 seals on board, with three and four million dollars."

Everyone will agree that to the seals. treat this matter in any other

than a non political spirit would be reprehensible. There has been no secrecy shown in the preliminary negotiations; facts

and figures in connection with The following extract of a letter to the Secretary of the Nfid. Board of Trade, from Messrs. Lind & Couto, each proposition have been print-

tive as possible. The remarks British ..... made by the Leader of the Op- Bridsh ..... position indicate that they fully Other Cures ..... appreciate the attitude adopted, and it is certain that the crit-

icism offered will be prompted by the same spirit as that in by the same spirit as that in which it is sought.

Spur to Effort

In the exploitation of the country's resources there must be no British halt. The character of our pop- Norwegian . Other Cures ulation is changing. As a consequence of the better education

facilities available, a race of young men is arising more am-bitious than their forbears. "It is well that it should be so," says H. E. King in the South African

wegian fisheries up to the end of Ocmost simple to operate. This Radio will be presented for the tober was estimated at 155,000,000 kr. dist Guardes Association (as compared with 95,400,000 for the took place last night in their club the greater number of disabled ships which at present pass on to other ports. In the following paragraph taken from Mr. Sullivan's speech.

S. S. Silvia, Capt. Mitchell, arrived With the Sealers from New York and Halifax at 5.30 p.

The messages received from the aloon passengers aling fleet on the northern front the Eagle, Neptune and Thetis in-creased their catches over the prev-ious day. A heavy swell was a set of the Executive: Messrs. H. J. Russell, A. Campbell T the Eagle, Neptune and Thetis in-creased their catches over the prev-ious day. A heavy swell was on yes-terday, and with the prevailing foggy weather, very little could be done by J. Buck, Mr. R. B. Job, Mrs. Job, Mrs. J. J. Winter, Mr. T. Hawco, Mr. R. Romaine, Mr. J. Picco.
