# Special Policeman, Robert G. McIntosh Is Shot Down in Cold Blood; Dies as He is Being Taken to Hospital; Police Have Absolutely no Clue to Murderer

### MacIntosh is Found, Five Minutes After the Shooting, Unconscious, With Revolver Tightly Clasped in His Right Hand

### Dies Without Regaining Consciousness; Drag Net Has Been Thrown Out and Constabulary, Mounted Police and Pinkertons Look for Slayer

SHOT down in the performance of his duty, Special Policeman Robert G. MacIntosh of the Canadian Pacific railway was murdered at 9:10 o'clock last night, presumably by tramps, in the C. P. R. yards, about 100 yards on this side of the Elbow bridge, East Calgary.

MacIntosh was found lying in the shadow of some box cars five minutes after the shooting, unconscious, with his revolver tightly clasped in his right hand. The weapon was loaded, but not a bullet had been fired.

The unfortunate man died without regaining consciousness just as he was taken from the elevator to the operating room of the Calgary General Hospital. Absolutely no clue to the identity of the cold blooded murderers has been discovered, though the city police and the Mounted Police, aided by the Canadian Pacific plain clothes force and Pinkerton detectives attending the Stampede are all working on the case.

MacIntosh was 25 years old and had only been in this country about a year. He has a wife and two children residing in Sutherlandshire, north of England. He was a cousin of Sergeant R. A. McLeod of the local police force, and a brother-in-law of Donald McKay, house policeman for the King George hotel.

So far as the police have been able to ascertain, there were no witnesses to the murder except the hoboes who perpetrated the crime. The drag net has been thrown out, and the police are gathering in all suspicious characters in the hope that there were several in the gang that did the shooting. Messages were immediately sent to all cities within a radius of many miles of Calgary, asking that all trains be searched and suspicious characters held in custody.

The shot that killed MacIntosh was heard by two men, whose names the police have. They were in the vicinity of the place and followed the single shot, heard groans. Hastening to the spot, they found MacIntosh lying, revolver in hand, moaning, but unable to speak. They immediately ran to the barracks for assistance, and mounted police and other spectators were soon on the scene.

The police station was notified and the patrol wagon sent to the scene with Constables Belt and Duncan. Harrison & Foster's ambulance also was called, and the dying man was hastened to the hospital, but expired before he could be placed on the operating table.

Examination of the body showed that the bullet which killed him penetrated the right side of his chest, just above the armpit, and passed straight through the body, coming out just above the armpit just beneath the skin. The missile was removed and found to be a .32 calibre bullet.

From the position in which MacIntosh was found, and the fact that he had his revolver in his hand, said Chief of Police Cuddy last evening, "there is every indication that he had run across some hoboes lurking among the box cars, and ordered them out. One of them, evidently unseen by MacIntosh, fired on him point blank, the bullet striking him in the side."

The authorities believe that the murderer, or murderers, were of precisely the same type of evil hoboes as the man who murdered C. P. R. brakeman Roy Blair a few weeks ago.

Shortly before midnight last night, detectives engaged in working up the case found a car load of whiskey broken into and half a dozen flasks lying on the ground. This is believed to be clear evidence that MacIntosh had run across hoboes looting the car, and ordered them to halt, when one fired the fatal shot.

## NATURAL GAS DISPLAY STAMPEDE GROUNDS TONIGHT FREE

### Western Canada Natural Gas, Heat, Light & Power Co. to Repeat Big Show

### Flame 100 Feet High Will be Shot From Six-Inch Pipe in Front of Grand Stand

### Demonstration Begins Promptly at 8 P.M. and No Admission Will be Charged

VISITORS to the Stampede will get an unexampled free treat at 8 o'clock tonight, in the form of a dazzling demonstration of Calgary's new natural resource—natural gas.

A flame 100 feet in height will be shot from the aperture of a six inch pipe at the east end of the Stampede grounds, Victoria park, just in front of the grand stand. No admission charge is made to the Stampede grounds after 4 p. m. and as the Western Canadian Natural Gas Heat, Light & Power company is making all the arrangements for the demonstration, visitors to Calgary add residents will be treated to the dazzling sight free.

Will Repeat Former Demonstration. The gas company has arranged to repeat the identical demonstration that was given in the east section of the city on July 17 when the natural gas was first piped into Calgary from the eleven wells of the company at Bow Island, 181 miles distant.

The same size pipe, six inches, will be used as on the former occasion, and the same pressure of gas, 100 pounds to the square inch. On this occasion, it will be recalled that "the flame stood up like a person, and the lighted up, surprised spectators so that they were unable to see it."

Great Crowd Expected. Five thousand persons are expected to see the demonstration that will occur on the evening of the 5th. A general Superintendent H. B. Pearson of the Western Canadian Natural Gas Heat, Light & Power company will be in charge of the demonstration and the gas will be ignited by a gas jet which is handled promptly at 8 p. m.

## ED ECHOLS SETS A LOW MARK IN ROPING

### Ropes and Ties His Steer in Twenty-Three and Four-Fifth Seconds

### Rider Breaks His Former Championship Record of Twenty-Eight Seconds

### Miss Hazel Walker Escapes Death by Narrow Margin While Riding Outlaw

triumph to his long string of splendid performances yesterday at the Stampede grounds by tying his own record in the day's roping events, and setting a new mark for the meeting.

Echols, who comes from Dragoon, Ariz., roped and tied in twenty-three and four-fifths seconds, two and four fifths seconds below the mark set by Joe Gardner Tuesday, and beating Echols' former record of twenty-eight seconds.

A time also was made, which he achieved owing to the fact that Ribbon had worked lame since the first day of the Stampede, and the broken front foot. However, the achievement was as pretty a piece of rope work as has been staged on any field, and was a credit to the cowboy. Cool of nerve, sure of his mount, and possessing all the characteristics that go to make a champion ropeman, Echols is just such a man as would carry the money in any roping event.

As the steer left the chute and swung around on his haunches ready for the leap. Once given the word, he plucked his vision upon the undulating rear of the steer, half way down the back, set a pace that sent the turf flying like a green ribbon. The steer dodged and turned, but Ribbon lifted his rope and gave four wide swings and then shot the noose forward twenty feet.

With human intelligence he swung away and set himself for the terrific impact that was to follow when the rope struck the steer's head. The great crowd of spectators saw the feat on that occasion and on a general larger crowd is looked for tonight.

Expert Tying. Echols went to the work of tying like a veteran. There was no nervousness, but method, precision, and when he raised his hand in token of completion, a mighty shout went up from the thousands of spectators.

As the horse and rider rejoined the contest at the starting line, he was given a cordial cheer and showered with congratulations.

Back of every little story. Ed. Echols is a veteran of the Arizona range, a man liked by every knight of the saddle who has ridden the range since the days of the Grand.

When he started for Calgary from Dragoon, in the south-east corner of Arizona, the "hoboes" were so bad that he was obliged to stop at the ground awaiting tidings of how the new state representative has merited their faith.

Comedians in the roping events. George Weir's mount slipped the saddle when he made a run on the steer, and while Weir was doing the tying the horse showed what he could do at bucking. Ray Knight suffered the same ill luck, and his mount reared the saddle slapping his rump, and did a war dance while the tying was in progress.

Art Balon was the first man to get below the minute mark when he tied in 42.5. After that slow time, occasioned frequently by a gap in the way that, which allowed the steers to escape to the ground.

"Tex" McLeod, Miss Hazel Walker, and Miss Bertha Blanchard divided honors in the sensational events, again demonstrating that fear is not a part of the cowgirl's makeup.

After falling to unseat "Tex" by crowding his horse, a "fisher" on the other side known to the wild broncho, "Black Diamond" headed for the opposite side of the field like a water-tight ship.

It is also proposed that Turkey shall immediately re-admit Italians to the Ottoman Empire under the same conditions as prevailed before the war.

Italy will keep Stamboulia as a naval station, while she will return to Turkey the other islands in the Aegean on condition that their nationality shall be respected and that their political and administrative organizations shall be conducted on the lines set forth in the proposal of Count Leopold von Berchtold, the Austro-Hungarian foreign minister.

Finally Italy will grant Turkey the same concessions as were granted to Austria, when the latter country annexed Bosnia and Herzegovina.

## CARS RUN AWAY WHEN BRAKES FAIL TO HOLD ON HILL

### Cranbrook Man Painfully Hurt, Several Cut and Bruised in Manchester Line Smash Up

### Wooden Siding of Trailer Gives Way and Returning Fight Spectators Thrown Out

### Motorman Gleeson Sticks to His Post in Mad Dash Down Hill Beyond Victoria Bridge

FRED W. Wells of Cranbrook, B.C., was painfully injured, and half a dozen other passengers more or less cut and bruised at 1 o'clock yesterday afternoon when a Manchester street car No. 21, hauling a trailer loaded with spectators returning from the Bayley-Allen fight ran away down the hill just beyond the Victoria bridge.

Overwhelmed by the weight of the swaying, excited crowd, the temporary wooden siding of the open trailer gave way when the runaway cars struck the switch at the foot of the hill. About thirty persons were thrown headlong over the broken side into the muddy street. Clothes were torn and muddled, several persons stunned, and many suffered slight cuts and bruises.

The fact that the street is unpaved and very muddy undoubtedly saved several from possibly fatal injuries. A peak was caused earlier in the day when the same cars involved in the smashup got away and ran down the hill about 10:30 in the morning, at the very same point. On this occasion, the cars were going out to the scene of the fight, and could not make the top of the hill. The runaway cars struck the switch at the foot of the hill, and both it and the trailer dashed backward down the hill toward the switch, which fortunately was open at the time.

When the runaway cars swung down the hill, backwaters, someone yelled "jump for your life," and the crowd began to scatter. Fortunately no one was hurt, and the runaway car and trailer took the switch in safety.

The same incident on the return trip in the afternoon was not so fortunate in its results. Wells was seated at the back end of the trailer car, just inside the temporary siding. When it collapsed, he was thrown out with the crowd on top of him. He suffered a wrenched back, a badly cut lip, cuts about the ribs and a bruised leg, and a severe concussion.

When he was revived, he was sent to the Holy Cross hospital in A. M. Shaver's ambulance. Dr. L. E. Mylkes, who attended the man, said there was no indication of a dangerous injury and that the sufferer would pull through.

The fact that Motorman T. Gleeson stuck valiantly to his post, doing everything in his power to stop the runaway, also prevented a more serious termination of the accident. When the car came over the crest of the hill, it started down gradually toward Victoria bridge. Gleeson applied the air brakes.

Both the leading trolley car and the trailer were packed to capacity, people standing in the aisles of each. The trailer went too great for the air brakes on the four-wheeled trolley car and it began to move faster. Gleeson tried to keep the brakes on, but his power but it became evident in a moment that the brake's could not hold the overloaded cars. In a few moments the runaway was under way, twenty miles an hour. Gleeson then reversed the power and with the wheels flying sparks and smoke collected the runaway car and trailer to the bottom of the hill. Just before the bottom of the grade is reached the track begins to curve and when the cars struck this section they began to sway perilously. It was not till then that the crowd realized that anything was wrong and in a moment they were panic-stricken. Some tried to leap over the sides of the open car, but the next instant the cars struck the switch and turned in. The sudden jerk was too much for the frail siding and it gave way, precipitating the excited people into the street.

Cars Stop in a Few Feet. The cars stopped within a few feet after entering the switch, only the front wheels of the trolley car leaving the rails. A few pieces of glass were broken in the trolley car by the crowd fighting to get out and several suffered bruises in the crush. Conductor Al Fox, in charge of the cars, with other street car employees directed the work of getting the excited passengers out and picking up the stunned sufferers out of the mud.

Meanwhile, several of the passengers ran back up the hill and halted the following cars which were preparing to come down the long, curvy gradient. With the exception of Wells, all the others who suffered hurts were able to take care of themselves. Ambulance men telephoned for immediate assistance following the accident, and two from Shaver's establishment and a number of cabs were soon on the scene but their services were unnecessary.

B. Miller, 2419 Third avenue, was standing on the top of the hill just as the cars started to descend. "I could see that they were running away," said Miller, "it was very evident that the brakes would not hold because there was too big a load on them. The surprise to me is that several persons were not killed."

## Their Royal Highnesses, the Duke and Duchess of Connaught and Princess Patricia are due to Arrive at Calgary Station at 1.45 O'Clock this Afternoon

## BEAUTIFUL DAY FOR THE DUCAL PARTY AT EDMONTON

### Conditions of Roads Make It Necessary to Abandon Motor Trip to Saint Albert

### Duke Reviews Veterans; Finds Among Them a Former Member of His Son's Regiment

### Duchess and Princess Patricia Are Given Reception by the Women's Canadian Club

EDMONTON, Sept. 4.—To make amends for yesterday's downpour, the sun shone upon the second day of their royal highnesses' visit to Alberta's capital. The duke, in accordance with his grand plan, was to have left for Saint Albert on his way to Calgary, but the conditions of the roads outside the city, as the result of yesterday's deluge, made it necessary to abandon the intended motor run out to St. Albert, which is surrounded by an interesting old district of French settlers and where Father Leduc, who has been in this country forty-five years and with whom the duke had quite a long chat after the state dinner last night, is located. By way of compensation, the royal party was taken for a couple of hours' drive around town.

This afternoon the duke reviewed the veterans, of whom there were more than two hundred lined up with the civvies and the boys' scouts. He talked with every one of the veterans, as he always does, and was greatly pleased to find among them a former member of the Scotch Greys, the regiment in which Prince Arthur of Connaught is an officer. The duke and his wife, the duchess, were accompanied by the duchess and the princess, departed from the platform before 12 o'clock, and were met at the railway station by the duke's personal secretary, Mr. W. R. Baker, and others.

At the close of the reception, the royal party had supper in the speaker's chamber with Mayor Armstrong, Mrs. and Mrs. Bulyea, Premier and Mrs. Sifton, Mr. W. R. Baker, and others.

## WOODROW WILSON OPENS NEW YORK CAMPAIGN

### Makes Initial Address at Dollar Dinner of the Wilson Workmen's League

NEW YORK, Sept. 4.—Governor Woodrow Wilson spoke for the first time tonight in New York in connection with his campaign for the presidency. His first political address in the metropolis was delivered at the Dollar Dinner at the Woodrow Wilson Club.

Before going to the dinner the governor met two score editors of foreign language newspapers at the National Arts Club, and talked immigration to them.

"If we can hit upon a standard which admits every voluntary immigrant," he said, "and excludes those who have not come of their own motion with their own purpose of making a home and a career for themselves, but have been induced by steamship companies and others to come in order to pay the passage money, then we have what we will agree upon. I am speaking to you as also Americans with myself and just as much American as myself, and if we all take the American point of view, namely, that we want American life kept to its standards, and that on the standards of the American life shall be the standards of restriction, then we are all upon a common ground."

At 10 o'clock the duke and duchess and Princess Patricia went to the residence of Premier Sifton for a reception of the Women's Canadian Club, which was given in the speaker's chamber.

## ROOSEVELT SAYS HE COULD HAVE HAD REPUBLICAN NOMINATION CONDITIONALLY

ST. LOUIS, Mo., Sept. 4.—If he had made a formal declaration of intention at the Republican convention, Col. Roosevelt said today they would have turned to him the presidential nomination.

"Speaking at Mount Zion, the colonial said: "Our opponents did not steal the nomination from me at Chicago last June. They stole it from you. They do not like me, but it is undeniable that they really feared, and they opposed me because they believed I really represented you. If I had been content at any moment to stop representing you, the bosses would have turned to me with a whoop of delight. All I would have done was to have been stretched out on my little finger and they would come to me if I had stopped representing you."

"If we can hit upon a standard which admits every voluntary immigrant," he said, "and excludes those who have not come of their own motion with their own purpose of making a home and a career for themselves, but have been induced by steamship companies and others to come in order to pay the passage money, then we have what we will agree upon. I am speaking to you as also Americans with myself and just as much American as myself, and if we all take the American point of view, namely, that we want American life kept to its standards, and that on the standards of the American life shall be the standards of restriction, then we are all upon a common ground."

## AEROPLANE FALLS; THREE SOLDIERS KILLED

BUDAPEST, Sept. 4.—Three soldiers were instantly killed today by a fall from an aeroplane which was engaged in military manoeuvres. The aeroplane was being prepared for an ascent and was held down by more than one hundred soldiers. A heavy wind prevailed at the time, and a sudden gust carried the aeroplane away. It rose rapidly and all the men released the ropes but three. They had on until exhausted and fell one after the other.

With the Coming of These Distinguished Guests the Festivities of Stampede Week Will Reach a Climax

### Vice Regal Party Will be Met by Lieutenant Governor Bulyea, Premier Sifton, Mayor Mitchell and Alderman R. S. Whaley

WITH the arrival at 1:45 o'clock this afternoon of Their Royal Highnesses, the Duke and Duchess of Connaught and the Princess Patricia, the festivities of Stampede week will reach a climax.

Everything is in readiness for the reception to the vice-regal party. An order was issued yesterday by the Canadian Pacific railway officials ordering the Calgary station closed from 1:30 to 2 p. m. today on account of the arrival of Their Highnesses.

The program as announced in yesterday morning's Albertan will be carried out in detail. The vice-regal party will be met at the station by Mayor Mitchell, Alderman R. S. Whaley, chairman of the reception committee, Lieutenant-Governor Bulyea and Premier A. L. Sifton.

In carriages and surrounded by an escort of the Fifteenth Light Horse commanded by Capt. Collier, they will proceed down Centre street to Eighth avenue, thence to Second street east, and the city hall where the address of welcome will be delivered and reply made by the duke.

Streets Lined by Scouts. The streets will be lined by the Boy Scouts and Cadets, the city police and the Mounted Police of "74". The sidewalks will be roped off to keep the thousands of spectators out of the way.

The party on the platform in front of the city hall will include only officials of the province and the city council and their ladies. It is not expected that the ceremonies here will occupy over ten or fifteen minutes and Their Highnesses will then be escorted in similar fashion out Second street east, to the Stampede grounds where they, with their guests, will occupy special boxes. The invited members of the party who will be seated in the vice-regal stand are announced in the Social column of this morning's Albertan.

Another big feature of today's festivities will be the Stampede parade, starting at 10 o'clock as announced in detail in an other column of this issue. To view this parade, special invitations have been issued by Mayor Mitchell to the many prominent visiting Englishmen including members of the Imperial parliament. At 12:30 noon, members of the city council are requested to gather on the same platform also to have their photographs taken by the official photographer.

### Guests of Senator and Mrs. Loughheed

Following their attendance at the Stampede, Their Royal Highnesses will retire to the residence of Senator and Mrs. Loughheed which will conclude their participation in the festivities of the day.

At 2:30 o'clock tomorrow morning, the duke has consented to partake of a cowboy breakfast on the Stampede grounds. At 10:30 o'clock Friday, the vice-regal party will review a parade of the Stampede participants from the vice-regal stand on the grounds.

At 2:30 o'clock Friday afternoon, the duke will again participate in another ceremony on the platform in front of the city hall, presenting the certificates of merit to the successful candidates at the Royal Academy of Music examinations. Immediately following this ceremony, the Duchess and Princess Patricia will receive the Dresses of welcome from the Canadian Women's club and the Daughters of the Empire.

Following these ceremonies, the duke and duchess and the Princess Patricia will be entertained with an automobile trip about the surrounding country including a visit to the Indian Reserve.

## CHICAGO WEATHER

Chicago, Sept. 4.—Forty girls were forced to leap out of the second story windows to escape death today when an explosion caused by benzene vapor, wrecked a building occupied by a dyeing and cleaning establishment.

Rudolph Spinner, foreman of the establishment, was crushed to death. His body was dug out of the ruins by the firemen. One girl who jumped out of a window was picked up unscathed and with both legs fractured. Others in rushing to reach stairways were knocked down and trampled on.

## WEATHER

Toronto, Sept. 4.—Fair, moderately warm weather has prevailed today from the lake region to the maritime provinces, while in Saskatchewan and Alberta it has been cool with showers in many localities. In Manitoba it has been fair and moderately warm.

## SCIENTIST SAYS THE POSSIBILITY OF THE PRODUCTION OF LIFE NOT SO REMOTE

UNDEER, Scotland, Sept. 4.—The most interesting feature of the opening session today of the British association for the advancement of science was the presidential address this evening of Prof. B. A. Schneider of Edinburgh university which dealt with the nature, origin, and maintenance of life. During the course of his address he said:

"We may fairly conclude that all changes in living substances are brought about by ordinary chemical and physical forces."

Speaking of the properties of growth and reproduction he declared: "They are possessed not alone by living bodies, for inorganic matter grows and reproduces, and produces their like, given a supply of requisite substance."

Further on he said: "It has been proved that we can no longer consider such an apparently vital phenomenon as the fertilization of the egg as being the result of living material brought to it, since it is possible to start the process of division of the cell in the egg, and the resulting formation of cells and ultimately of all the tissues of the organism, in short to bring about the development of the whole body, if a simple chemical substance, such as urea, is brought about by ordinary chemical and physical forces."

In summing up his remarks he said that research has led to the conclusion that the possibility of the production of life—that is of living material

## ORPHEUM ATTRACTIONS, PREMIER VAUDEVILLE OF NORTH AMERICA, OPENS HERE TODAY

THE old saying that "All good things come by twos" will again be demonstrated in the fact that while today marks an epoch in the city's history with the arrival of the Duke of Connaught to attend the successful Stampede, it also marks the opening performances of the new Orpheum circuit at the Sherman Grand theatre. For the first time, Calgary is on the theatrical map of the big vaudeville stars.

Two performances will be given today, a matinee at 2:30 p. m. and the evening performance beginning at 8:30 p. m.

"While we can scarcely expect to prove a counter attraction at this time," said Thomas G. Baker, local representative of the Orpheum circuit last night jokingly, "nevertheless, we are going to give just as good a performance at the matinee opening as in the evening."

The Orpheum shows, as previously announced, come through direct from Winnipeg and the same show will be given here Thursday afternoon and night and Friday and Saturday nights. Exactly the same acts will appear here as those given at Winnipeg.

The headliner act is Jack Wilson assisted by Frankly Katie and Ada Lane in "A 1012 Review". Then there are such well known acts as Frankly, Ardell and company playing up-to-date political comedy entitled "The Suffragette" and Mary Guive and Paul McCarthy in a combination musical act. The others on the bill include Leonard Gauthier's Animated Toy Show, Mary Elizabeth, comedienne; Ben Lewin, the English character impersonator and the Ryan Brothers, aerialists. All of them are the very best in their profession.

The acts will go from this city to Edmonton, opening there for Monday, Tuesday and Wednesday nights and then will go on to Spokane, Wash., opening in that city the following Sunday.
