WHO TOLD THE PREMIER?

Annoying Question Asked by E. M. MacDonald Receives Evasive Reply.

[Special to The Advertiser.]

Ottawa, May 11.-Parliament b gan morning sittings to Ty. The Government wants to let its Ontario m mbers get away for the elections in that province. They propose to push some of this legislation and to drop more of it. The MacKenzie & Mann land bill will be pushed. So will the measure of aid for the Farmers' Bank.

The railway legislation, and probably the civil service bill, will be held over for consideration next year.

Prediction as to the date of prorogation vary. The Government and its followers hope to get away before June 1st. There are many members who declare that if Parliament does justice to the legislation before it, prorogation canno: take place until the end of next month.

The first morning sitting of the session concerned itself with non-contentious matters.

Premier Borden said the statement had been made to him "by an official of the Canadian Northern Railway Company." He said it was communicated to him shortly before he made the statement in the House. The statement was not made to him in writing.
