Life and Character Reading

SEPTEMBER 18.

The main fauns of the Virgo-born consist in their domineering tendencies, interference with other people's affairs, and the freedom with which they criticise the faults and shortcomings of others.

True companionship will be found among those born under Libra or Sagittarius and those who come under their own sign, Virgo.

Virgo people are usually of middle or tallish stature, well formed, with oval faces, a musical voice and elegant manner.

Their mode of growth is by the endeavor to realize that there is nothing perfect in nature, and to become alive to their own failings. When they have done this and found out their faults and corrected them, they will be well on the road to success.

The Want Ads are your unfailing friend. "A friend in need," applies well to them. They are at piece well to them. They are at the content of the sound to the recent of the moder of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.
