vast country with its population of four hundred millions, and then taking up China of the present day with its serious troubles. The Empress Dowager, he said, was one of the mightlest rulers the world had ever seen. If she was as good as she was strong, there never would have been a ruler in China to equal her; she did more than any other Sovereign had done in two hundred years, namely, wielded the sceptre over four hundred million people for a period of thirty years. Dr. Daniel asked how the great problem could be settled—for it could be settled in one of three ways:—First, by partitioning the Empire; second, by appointing a new dynasty, under a propointing a new dynasty, under a project of the European powers. any interference by the powers.

"Bring back Kwang-Su, the Reformer. Put him upon the throne of China again and put the strong arm of European power about him. There are two things that China must have in order to take her place among the nations of the earth. The first is civilization; the second, evangelization. China must be conquered, but not by flourishing swords upon the battlefield. It must be conquered by the soldiers of light; not by putting your hand upon her throat, but ng your hand upon her throat, but upon her heart."

We agree that regeneration is a universal necessity. All, both old and young, who enter heaven must be born again. Scriptures make plain the fact that the atonement of Jesus is the ground of all salvation. How the sacrifice of Christ is applied by God to adulbs we know, for it is the purpose of the Gospel to make this known by faith, "by grace are you saved through faith" (not water), Eph. 2, 8. "Whosoever believeth that Jesus is the Christ is born believeth that Jesus is the Christ 's born of God," I. John 5, 1. Jesus pivots the whole thing on "faith," John 3, 18.
