R Cochran received the following to-day over his private wire from Counselman & Dayof Chicago: The Government agricultural report was figured out to indicate abundant crops of all cereals except oats, which on June 1 were promising and have since made a marked improvement in condition. As a result the grain markets opened at material declines and closed still lower at about bottom prices. The decline was varied by one upturn of % in wheat on reports of 800,000 bushels worked for export in New York, but offerings of outside holders continued

Drummond & Brown received the following today over their private wire from Schwartz, Dupee & McCormick of Chicago: The popular interpretation of the Government crop report is no longer questionable. The best experts say that it indicates a crop of from 538,600,000 to 540,000,000. Cables a crop of from 538,600,000 to 540,000,000. Cables were lower, but foreigness showed a disposition to buy cash wheat freely on the decline, theing rumored that round lots were taken in New York for export. To this is to be attributed a little reaction in price at the close. Cables announce that the Prussian Parliament was to-day nounce that the Prussian Parliament was to-day
