

THE BAY WILL BE RECLAIMED.

It Will Cost \$110,000—How It Will Be Done—The People Will Decide.

The Committee on Works yesterday adopted Engineer Keating's scheme for the reclaiming and reclamation of Ashbridge's Bay at an estimated cost of \$110,000. Practically the only thing to be now decided is as to how the money shall be raised, and this the ratepayers will be asked to do at the next municipal elections.

When the matter was introduced to the committee Ald. Leslie said it was not altogether satisfactory to him. He held that from a channel 80 feet wide and 6 feet deep enough material could not be obtained for filling in the north shore. He also thought that the channel should be placed 75 feet further south in order that the property owners who have shallow lots will not be wiped out by dedicating land for the proposed Reclamation.

Ald. Lamb: What about cutting through the breakwater?

The Chairman: O, I suppose we shall have to do with it. The Street Railway Company is doing with the city.

Ald. Small: Launched a scheme. Ald. Small was not only in a critical mood, but he had a somewhat amended scheme. He held that the work under the scheme would cost \$50,000 instead of \$110,000, as under Engineer Keating's. He would cut the channel 100 feet wide and 10 feet deep, and would have a smaller area of water, as compared with about 210 gallons of water. In other words, the water would be pumped double the quantity of water with the same quantity of coal.

Mr. Coffey's Reclamation. The funeral of Mr. Lawrence Coffey took place yesterday. At the Church of Our Lady of Lourdes, a large mass was celebrated at 9.30. Among those present were: Hon. Frank Smith, Ald. Vernal, ex-Ald. Frankland, Mr. Hart, M.L.A. of Kingston, George Kelly, Patrick Barry, L. J. Cosgrave, William Clark, J. J. Fox, Q.C., Charles L. Doherty, George Greene, John Scully, M. Crookes, H. A. Kelly, James Merrick and John Scammon. The high mass was conducted by Rev. Father Walsh, assisted by Father O'Connor of Rochester. The other clergy present were: Rev. Fathers McCann and Father Rohleder. The pall-bearers were Hugh Ryan, William Ryan, Eugene O'Keefe, Maurice O'Connor, Thomas Ryan and H. B. Hughes. The chief mourners were James and John, the sons of the deceased. The funeral was to St. Michael's Cathedral.

The Question of Funds.

The question of ways and means having arisen, a letter was produced from the City Solicitor, in which he said: "If the Provisional Board of Health directs this to be executed as a sanitary work, I think the council would be bound to find money, but they cannot issue debentures for it without a vote of the people."

The Mayor suggested that the matter be sent on to the council, that tenders be called for, but that work be not commenced until the council, by their vote, had approved of the scheme. In the event of the people objecting to the matter, the Mayor suggested that the council should issue debentures for the work to be paid for out of next year's taxes.

Ald. Lamb favored the adoption of the scheme, but he wanted the people to say how the money should be raised. He objected to first going to the Ontario Government.

Ald. Leslie wanted to know if the work could not be done by day labor under the supervision of the Engineer.

Mr. Keating: Yes, but you must remember that you would need to purchase an expensive plant. A dredge you really want now.

Ald. Borne moved the adoption of the report, that tenders be called for, and that these questions be submitted to the people in January. Are you in favor of meeting the expenditure out of this year's taxes, or by issuing debentures?

The motion was carried unanimously.

An Explanation Demanded.

Smith, Rae & Greer, acting for Mr. C. J. Smith, have written the Mayor demanding an explanation of the erection of the frame building which was recently erected for the reception of smallpox patients, and they want to move for sequestration; also they want to know what purpose a brick addition is to the old Isolation Hospital, and unless these two points are cleared up satisfactorily their instructions are to insist upon the full terms of the injunction being insisted on. Medical Health Officer Allen says the building used for the smallpox patients is not to be used for anything else, and therefore he fails to see how there has been an infraction of the injunction.

Building Permits.

These permits have been issued by the City Commissioner: H. J. Tharill, pair semi-detached two-story and attic brick building, King and Springfield, cost \$15,000; Mrs. G. Belford, pair detached two-story and attic brick dwellings, 208 and 210 Cottingham-street, cost \$800.

A Suit for Slander.

The master in chambers was asked yesterday to strike out part of the statement of the plaintiff and libel action brought by Frederick H. Gooch against Richard Tinning, Jr. Tinning, so Gooch says, accused him of accepting a bribe of \$100 from his best friend; also that he wrote a letter in which he accused him of having taken the public money and having used it for his own purposes. A dog from one Bastedo, a case of birds from the Hon. Mr. Mungahan and a picture from Henderson, an insurance agent. Gooch wants his character vindicated and is suing Tinning for \$10,000 damages. Judgment was reserved.

Change in Time for New York via Erie Railway.

You can leave Union Station, Toronto, at 12.50 p.m., arrive in Buffalo at 5.55 p.m., and leave Buffalo at 7.30 p.m., arrive in New York at 7.30 p.m. morning, which makes this train two hours faster than ever before. You can also leave Toronto at 11 p.m., connecting with the Erie at Hamilton, which is a solid vestibule train through to New York.

Two Small Fires.

A gas-jet set fire to the curtains and window frame at 31 Carlton-street, occupied by Mr. David Roberts. Damage to the extent of \$30 was done.

A slight blaze at 18 Natalie-street at noon yesterday caused \$10 damage, covered by a policy in the Western Insurance Company.

Infants' Food.

Volumes have been written upon this important subject, but volumes of testimonials can be shown to prove that Dr. Williams' Pink Pills for Pale People is the very best in use. See per package the testimonials. W. A. Dyer & Co., Montreal, are the sole agents for the Dominion.

Through Wagner Vertice Buffet Sleeping Car Toronto to New York via West.

The West shore through sleeping car leaves Union Station, Toronto, at 4.50 p.m., daily except Sunday, arriving in New York at 10.10 a.m. Returning this car leaves New York at 9 p.m., arriving in Toronto at 10.50 a.m. and leaves Toronto at 12.50 p.m.

Mr. John Anderson, Greenmore, Ont., writes: "I have used your medicine for a long time, and I am glad to say that it has greatly benefited those who have used it. One man, a carpenter, says it has made him a new man, and he cannot say too much for its cleansing and curative qualities."

THE DISABLED ENGINE.

More About That Accident at the Waterworks Pumping House—The Extent of the Injury.

The accident that befell the new Blake engine at the waterworks pumping house, Thursday night, was the talk of everybody around the City Hall yesterday. After a more careful examination of the disabled engine yesterday morning it was thought that the injury was not so extensive as was at first imagined, but it will be a week or two before it will be in running order again.

"The worst feature of it as far as we are concerned," said a gentleman of the Waterworks Department, "is that we will not be able to go on with the repairing of the old engine until the new one is in running order. This thing had happened after the engines had been handed over to us world these few days of the Waterworks Department."

"Do you hear of any blame being attached to the Blake Manufacturing Company?" asked The World.

"None whatever. How could there be? Accidents of a similar character sometimes happen on the Atlantic liner where the inspection of material is so rigid."

"Was it a test of the new engine so far as it was a good one?"

"Yes, she was guaranteed to perform 110 million gallons of water per day, and to have a pumping capacity of ten million gallons a day. During the recent trials she has pumped 115 million gallons a day, and furthermore she has pumped upwards of 200 gallons of water per pound of coal consumed, as compared with about 210 gallons by the old engine. In other words, the new engine has pumped double the quantity of water with the same quantity of coal."

Mr. Coffey's Reclamation.

The funeral of Mr. Lawrence Coffey took place yesterday. At the Church of Our Lady of Lourdes, a large mass was celebrated at 9.30. Among those present were: Hon. Frank Smith, Ald. Vernal, ex-Ald. Frankland, Mr. Hart, M.L.A. of Kingston, George Kelly, Patrick Barry, L. J. Cosgrave, William Clark, J. J. Fox, Q.C., Charles L. Doherty, George Greene, John Scully, M. Crookes, H. A. OVER-EGG THE PUDDING.

Too Many Questions Occupy the Trades and Labor Council—See Says President Banton.

For two hours last night the Trades and Labor Council discussed various questions, economic and political. None of the matters which came up were of unusual importance, and the "repartee," which is looked for at every meeting of the council, was not so much a feature of last night's session.

The Legislative Committee in its report commented upon the large number of chattel mortgages recorded in Canada. The extent to which the system has obtained was viewed with alarm, but no remedial measures were proposed.

The City Council's resolution granting a partial exemption to the Massey-Harris Company was to the Municipal Committee as a real rag to a bull, and their comments were most unfavorable to the enactment. A committee will attend the City Council to oppose the bill.

Engineer Keating's action in cutting down the trolley poles, the committee thought, was an instance of back-bony which they declared to be a most desirable adjunct to a City Engineer.

The Democratic Committee reported a deficit of \$115, the receipts on the occasion of the recent labor demonstration not having come up to the expectations.

By resolution the council again expressed its emphatic disapproval of the proposal to establish a museum in connection with the 200 gallons of water per pound of coal consumed, as compared with about 210 gallons by the old engine. In other words, the new engine has pumped double the quantity of water with the same quantity of coal.

Mr. Coffey's Reclamation.

THE AMUSEMENT WORLD.

Moore's Museum.

You can imagine what a tiny bit of humanity Hop-o'-my-Thumb is when he offers to give his diamond ring to any 13 months baby that can put it upon their index finger. He is, since the death of Lucy Zaccaria, the smallest human being upon the face of the earth. Other midgets are giants when compared with this doll-like little gentleman. He has probably traveled as extensively as any person living, and has been presented to every crowned head of Europe. Hop-o'-my-Thumb is 22 years of age, weighs

45 pounds, and stands 30 inches in height. Parents should not fail to allow their children to see the smallest person living. He will be on exhibition in the lecture hall from 11 to 12 o'clock.

"Electric" will be another great feature in the department. The history of this wonderful lady is so great that by the mere touch of her hand she sends an electric thrill through the body, having an effect on all those who come in contact with her.

Mr. N. G. Austin, the modern Hercules, will demonstrate his muscular power by breaking rope, chairs, etc.

In the theatre will be seen the O'Brien sisters (late of Barnum circus), the expert jugglers and jugglers. In their kaleidoscopic performance they display an amount of nerve and skill that is rarely seen.

The Fugal brothers with their famous wrestling bears will appear in a contest. They are the same that appeared at the Exhibition this year.

Selections from the bone soloist; Grace Miburn, vocalist; the Whittings, comedy sketch artists; James H. Thompson, the throwing performance they display an amount of nerve and skill that is rarely seen.

DRUNK ON MUSHROOMS.

A Deception in Use Among Inhabitants of Northeastern Asia.

The inhabitants of the northeastern part of Asia use a mushroom to promote intoxication. It is known as the fly-blown mushroom, and it is also very abundant in Scotland. The fungus is gathered in the hottest part of the year, and is then hung up by a string in the air to dry. Some are dry before gathered, and these are stated to be far more narcotic than those artificially preserved.

Usually the fungus is rolled up like a bolt, and taken without chewing for, if masticated, it is said to disorder the stomach. One large or two small fungi produce what is looked upon as a pleasant state of intoxication for one day. The effect is the same as that produced on taking a quantity of spirits or wine, except it is delayed from one to two hours after the bolus has been swallowed.

At first it produces very cheerful emotions of the mind. It keeps the person exceedingly active, and is a stimulant to muscular energy. Thus, if a person affected by it wishes to stay over a storm or a small fire, it impels him to take a jump sufficient to clear a low hedge or the trunk of a tree. It keeps the person in a state of perpetual singing, and under its influence a talkative person can neither keep secrets nor silence; he is dangerous to ladies and politicians.—Horticultural Times.

Spurred Mineral Water from Mount Clemens, Mich.

For constipation take before breakfast is without a rival. For dyspepsia, kidney difficulties and rheumatism it has cured cases when all other known remedies have failed. It is the most palatable of all carbonated waters, and is strongly recommended by the most prominent physicians of the United States. The demand for it is unprecedented. Price, 85¢ per dozen, or \$1.50 per case of 12 bottles. Will send three bottles for 25¢. 70 Yonge-street, third door north of King. Telephone 1708.

For Young or Old.

Children and adults are equally benefited by the use of Dr. Wood's Norway Pine Syrup. It not only cures coughs and colds, it stops hoarseness in one night and may be relied on as an efficient remedy for all cases of whooping cough or healthy children—25¢ per package. Druggists everywhere.

Testimony.

During the period of dentition the suffering of infants is something terrible, and mothers are often driven to desperate measures to alleviate the agony of their children. Dr. E. J. McCully's Baby's Own Syrup is a safe and healthy child—25¢ per package. Druggists everywhere.

From the Red Sea Shores.
