

CHAPTER XXVIII.

ULTIMATE CANAL AND RAILROAD COMBINED ROUTES TO RAINY LAKE AND RED RIVER
BY STURGEON LAKE AND BY RIVIERE LA SEINE.

Description in detail.—Superior character of water communication.—Cost of
canalling lakes and rivers compared with that of railways..... 123

CHAPTER XXIX.

COMPARISON OF SEVERAL KNOWN AND PROPOSED ROUTES TO RED RIVER, INCLUDING
THE FOREGOING.

Synoptic Table of lengths and description.—Estimated cost of movement of
freight by each 133

CHAPTER XXX.

DIRECT INTERIOR RAILWAY ROUTE BY THE OTTAWA FROM MONTREAL TO RED RIVER.

Ultimate utility of it to interior.—Habitable country in connection with
Ottawa Canal 137

CHAPTER XXXI.

ROUTE TO THE PACIFIC BY RED RIVER AND BRITISH COLUMBIA.

Described and compared with other routes 143

CHAPTER XXXII.

MUTUAL IMPORTANCE OF UNION OF CANADA AND BRITISH COLUMBIA, AND OPENING OF
INTERIOR ROUTE OF COMMUNICATION.

Command of the traffic of the interior would be secured to the Pacific and
Atlantic Provinces.—Distance from Liverpool to Chinese ports shorter than
by American Pacific Railway, and transport cheaper, being more by water.—
Importance of Ottawa Canal in reducing distance and cost of transport to
British and American States and Territories and the Pacific 147
