

NEW YORK EXCHANGE.

WESTERN AND PACIFIC STOCKS
THE LEADERS IN TO-DAY'S MAR-
KET—MANHATTAN ADVANCES
SHARPLY.

New York, June 28.

American securities in London are active and all show advances. The whole list shows considerable buoyancy, L.N. enjoying the greatest advance. London was a buyer of some 15,000 or 20,000 shares yesterday. Speculative sentiment in that quarter seems to have turned and to be in favor of Americans. Yesterday's market was one of the most active and strongest we have seen in a long time.

New York, Noon, June 28.

There is little new to say about this morning's market. The influences which dominated prices yesterday are again in evidence to-day, and are responsible for a generally strong and higher market. The higher prices from London and the strength and activity in that market, resulted in considerable business in this at the opening. Stocks generally opened higher than last night's close, and buying orders seemed to be distributed throughout the entire list. London is a moderate buyer of stocks this morning, its purchases being largest in Atchafalca pfd., S. E. pfd., and L. N.

There is a rumor current that the L. N. directors will increase the dividend at their next meeting and on this rumor and the excellent earnings of the Co. is based the upward movement. There were several large buying orders in the stock this a.m. and traders also took a considerable line.

St. Paul continued to advance and although large blocks came out on every material rise, it is all well taken, and this a.m. sold highest price for long time. One prominent Com. House bought some 5000.

Mr. Flower is quoted as saying that all the talk about a strike on B. R. T. was originated for stock jobbing purposes and that the officials have heard nothing of it from their front.

B. R. T. is strong in response to this statement as are the other local traction shares. New York Central holds its advance well in spite of the fact that nothing new has come in regard to the B. and A. deal.

Most of speculation is in the Standard Railway shares but the industrials are coming in for more notice than they did first two days of the week, most of them displaying decided firmness. General market strong.
