5 The Roy. Mr. Maturin (Ephergalian) lecturof before the Young Men's Christian Association, on Toolly evening last, on the External History of the Bills. The lecture was an able one, full of historical evidence, and conveyed a mass of useful informa-tion, upon an important topic. The Temperance Hall was crowded, and a stranger would be struck with the remarkable disparity in Hulifax of the sexes ten formulas to one male being about the averare manner. Mr. Marriott, Principal of the Colwill deliver the concluding lecture of the serson, on Totalay next.

A corre-pondent at Prince Edward Island informs us, that in the Church Times of Feb. 24, the recome of Princo Edward Island was stated at Lill,000, instead of £16,000, the correct amount The increese we suppose, must be placed to the credit of ear compositor, whose shows of the value of figures are rather vague, and who has it in his powcraftimes to augment the revenue of a state, almost beyond the possibility of detection. The only feeling we have about the matter is, that the Island may son realize the larger emount.

We learn from the Newbranswicker that a new office-that of Consul General for the Colonies-has been created by the resident of the United States, and that I. D. Androws, E.g. has been appointed themen, and the appointment has been unanimously confirmed by the S-nate.

In answer to enquirers we are authorized to state. that the assembly of the Bishop, Clergy and representatives of the Laity of this Diocese, will be held the day of meeting.

Cape Briton Nova Scotia, dated the 4th May, 1854.

To Provessor Holloway.

Six—My sister, Aliss Jano Tomkinson, suffered for a great number of years from a bad leggin which there were several deeply scated and old wounds, defring the skill of some of the most eminent of the medical faculty, a variety of remedies were also used unwecessfully; and it seemed to me that there was not any thing camble of mitigating the agonies she endured. At length, she had recourse to your Omment and Pills, and after using them for about five weeks, she was completely cured, after all other means had tailed to afford her the slightest relief. I have no objection to these facts being published, if you icel disposed to make them know

A BAD BREAST CURED WHEN AT DEATH'S DOOR to Copy of a Letter from Mr. Henry Madden, of Three Rivers, Canada West, dated July 9th, 1854.

To Propessor Hollowar,
Sir,—My wife sufficed most savarely constant his back.

Rivers, Canada West, dated July vin, 1002.

To Propesson Hollowar,
Sir.—My wife suffered most severely after the birth of our last child with a bad breast. There was several holes in it, one as large as a hand; all the devices and stratagems I tried would not heal them, but assumed an aspect more frightful than before, and horrible to helicid. As a last resource I tried your Oline, ent and Pilis, which she persource, with for soven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure affected.

I am, Sir, yours truly,
