The office held by the Kidneys is one of inportance. They act as Nature's suice-way to carry off the extra liquids from the system and carry off the extra liquids from the system and with them the inpurities, both those that are taken i to the stomach and those that are formed in the blood. Any clogging or inaction of these organs is therefore important. Most excutofating are the twinges which rack the muscles and joints of the rheumatic. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, by promoting increased action of the kidneys, by which the blood is more effectually depurated, removes through the natural channels certain acrid elements in the circulation which produce rheumatism and gout. The medicine is also a fine laxative, anti-bilious medicine and general corrective.

CROWN COUNSEL IN A DILEMMA AS TO

METHODS OF PROCEDURE. OTTAWA, Ont., June 17 .- The Crown counsel who are to conduct the prosecution on behalf of the government in the Riel trial are harf of the government in the litel trial are here receiving instructions, and up to the present moment the date of the trial less not been fixed. It is understood that the defence will first endesver to prove Riel's American citizenship. This fact established, his counsel will point out that he can only be tried for waging war against a foreign country. The trial would then have to be under court martial; but as martial law was not proclaimed in the Dominion the trial could not be conducted in this way, and would have to be abandoned. If tried as a Canadian citizen it must be for high treason, and, as three out of the six jurors are to be half-breeds, it is believed that the jury would disagree. This would involve a new trial, when the same difficulties would un toubtedly

A FASHIONABLE BEAUTY ON FIRE-THE UNION JACK HISSED.

UNION JACK HISSED.

PARTS, June 14.—The Grand Prix to day was the most brilliant and charming in many years. The weather was perfec ion. The ladies tr bune resembled an immense flower garden. The Marquis de Bouthillier's Reluisant, mounted by R. Ife, took the lead from the start and managed to hold it this near the finish. The course resounded with cheers f r the French horse. The ladies waved their handkerchiefs and even broke their fans in their patriotic excitement, but at 100 yards from the winning post Mr. Clete's Paradox, admirably ridden by Archer, dashed ahead like lightning, winning easily by a length.

easily by a length.

During the running two exciting episodes took place. A cigarette fell in the folds of a charming rose-colored toilet of a young lady sitting beneath one of the central tributes. The dress was made of fashionable gauze canvas and took fire. The fair wearer was suddenly enveloped in a sheet of flames, which fortunately were specific quenched by buckets of water, lem nade, purch and chargains. The lady escaped, but was sovere'y burned on the legs and chest.

and chest.

At the same time several Chauvinistic Englishmen, on a well appointed until coach, heisted a Union Jack. Hisses and vituperations broke out on all sides. The flag was torn down, and a regular fight would have ensued but for the prompt intervention of a corporal's guard of the Twenty-fourth regiment of line and the

THE LONDON SHOP GIRL.

LONDON, June 17.—Since Mr. Sutherst published his "Death and Disease Hehind the Counter," public attention has been from time to time directed to the hardships of girls in shops and refreshment rooms. The fact that last week two girls attending the buffets of Mosers. Spiers & Pond in the Inventories fainted, and one had to be taken to the hospital, led to an enquiry, which showed that the girls were required to attend from nine o'clock in the morning till ten o'clock at night, and that they were not allowed during those long hours to sit down, the old plea of the shopkeepers being urged that it does not look "business-like" to see the assistants sitting down. It has also come to the public notice that some of the assistants in haberdasheries and other shops in the East End have much longer hours, their attendance being from 7 a.m. till 11 p.m., and sometimes midnight. The bill prepared by Mr. Sutherst to regulate shops is in the hands of Sir John Lubbock, and stunds for a second reading on 24th inst. It is supported by Lord Randolph Churchill, Mr. Albert Pell, and Mr. Burt, and whether it pecomes law or not it is sure to create a lively dabatc. The Dean of Westminster and Archdeacon Farrar, who have taken such an active part in ameliorating the condition of the London shop girl, are nevertheless opposed to legislative interfer-ence. While no one but a heartless slavedriver wishes a young girl to be employed for a longer period than twelve hours in one day, to regulate shop hours by Act of Parliament, some say, might be a remedy that would be worse than the disease, as tending to increase the difficulties of young persons in search of employment. But it must be recollected that all reforms on behalf of labor have been met with a similar cry.

NEW CATHOLIC REFORMATORY. HALIPAX, N. S., June 16 .- The late Patrick Power, one time M.P. for Halfax, left a large amount of money for the establishment of a Catholic reformatory in Halitax.
