I Owe My Life.

CHAPER I. was taken sick a year ago

"My doctor pronounced me oured, but I got sick again, with terrible pains in my back and sides, and I got so bad I Could not move!

I shrunk! . .

From 228 lbs to 120! I had been dectoring for my liver, but it did me no good. I did not expect to live more than three months. I began to use Hop Bitters

Directly my appetite returned, my pains left me, my entire system seemed ranewed as if by magic, and after using several bot-les. I am not only as sound as a sovereign, but weigh more than I did before. To Hop Bitters I owe my life."

Bubles, June 6, '61.

R. FITSPATRICE. CRAPTER II.

"Maiden, Mass., Feb. 1, 1880. Gentlemen. I suffered with attacks of sick headsche."

Neuralgia, female trouble, for years in the most terrible and excruciating manner.
No medicine or doctor could give me relief r cure until I used Hop Bitters. " The first bottle

Nearly cured me;"
The second made me as well and strong as when a child.

" And I have been so to this day." My husband was an invalid for twenty

years with a serious "Kidney, liver and urinary complaint. " Pronounced by Boston's best physicians -" Incurable !"

Seven bottles of your Bitters cured him and I know of the "Lives of eight persons"

In my neighborhood that have been saved by your Bitters. And many more are using them with great benefit. "They almost do miracles !" -Mrs. E. D. Slack.

—Mrs. E. D. Slack.

EDUCATIONAL.

TRIBUTE FROM OHIO TO THE CHRISTIAN BROTHERS, THEIR FOUNDER AND THEIR GREAT WORK.

The Hon. Lery D. Brown, State Commissioner of the Common Schools, in his Thirtysecond Annual Report to the General Assembly of the State of Ohio, embodies the following, as his appreciation of the Christian Brothers, of their founders and of their exhibit at the World's Industrial and Cotton Centennial Exposition at New Orleans, La.

THE CHRISTIAN BROTHERS' EXHIBIT. Chiefly owing to the lack of system which characterizes American education, whereby teachers in public schools and teachers in private schools can know but little of the work done by other, a large number of those who visited the exposition heard, for the first time, of the Christian Brothers' schools. These schools were founded in 1679 (six:yseven years before Pestalozzi, the remarkable educational reformer, was born), by the venerable John Baptist De La Salle, of Rheims, who embodied in his system of education provision for the most thorough supervision of schools, the training of teachers possessing peculiar fitness for their vocation, and the deptation of courses of study to the special wants of each pupil. The completeness, thoroughness, and excellence of these schools ars convincing proofs of the wisdom and greatness of their founder, La Salle, for his Dominion act. Both political parties have piety, learning, and power as a teacher and organizer, well deserves the place which he fills in the pantheon of education.

The schools of the Christian Brothers are directed by a Superior General, to whom are voters' list under the Dominion Franchise entrusted the extensive powers necessary to the execution of the laws of the order. The number 1,871. Besides these there are 1,550 existence of a single will, restrained only by applications to com the wise limitations which La Salle foresaw | courts, opening on Monday. would be essential to success, controlling pupils through the tact and skill of teachers, whose force is energized by a noble purpose, is the leading feature of one of the most remarkable systems of education of any age.

The teachers in the schools of the Christian Brothers receive a careful education, especially designed to train and to discipline them for their duties. If applicants for admission into the order are at any time found to lack the qualities and abilities deemed essential to success in teaching, they are promptly informed of the fact and excused from further study in the normal schools in which teachers are educated. La Salle attached great importance to the selection and training of

efforts are ably seconded by an intelligent, educated, unselfish, loyal and well selected corps of teachers, he wisely provided a course of instruction that is so comprehensive, flexible and practical as to meet the demands of individual instruction for all children of the Catholic faith. La Sale founded seminaries for teachers, and schools in which literature, science, mathematics, art and manual training were taught. These schools have been extended until they include the largest proportion of the teachers of the Roman Catholic Church. The exhibit made by them contained contributions from two normal schools, twelve academies, eleven colleges, thirty-seven parochial schools, two industrial and manual training schools and two orphanages. These contributions included students' exami nation papers, cabinets prepared by students, drawings, plaster casts, anatomical models, industrial work in printing, phonography, electrotyping, silk-weaving, tailoring, shoemaking, chair-caning, type-writing and photo-

graphy.

The Christian Brothers' exhibit was a large one, carefully prepared, well arranged and managed, and much visited. Its merits are attested by the fact that it received from the Committee of Awards one Grand Diploma of Honor. eleven di lomas of honors, eighteen diplomas, seven certificates of merit, and honorable mention for twenty nine schools. Brother Murelian, President of the Christian Brothers' College at Memphis, Tennessee, who had charge of the exhibit made by the order of which he is a worthy and honored member, was untiring in his zealous efforts to acquaint teachers in public schools with the details of the exhibit made by the schools founded by La Salle.

One of the lasting benefits derived from the New Orleans Exposition will be seen hereafter in the closer union of secular and nonsecular teachers, throughout the entire coun-

In the preparation of this report: I have been obliged to give prominence to the exhibits made by France, Japan, and the Christian Brothers, for the reason that these exhibits were the most deserving of comment. It is worthy of note that the three education al exhibits at New Orleans which were the best, represent unified systems of education."

The Assistant Commissioner, Dr. John Rancock, in reviewing the Educational De-

vying with that of France in completeness, where the Christian Brothers' exhibit, in which cloven colleges, two normal schools, thirty-seven parochial schools, two industrial schools and two orphanages were represented. It was also distinguished for the quantity of material shown for objective teaching, and for the superior quality of its students work, The Brothers, who are an Order of the Catholic Church, devoted to education, and who live to teach," had every reason to congratulate themselves on the favorable impression made by their exhibit on visiting educators, to many of whom they became known as an Order for the first time.

THE FISHERIES.

CANADA'S BIGHT TO PROTECT THEM QUES TIONED BY THE AMERICAN CONSUL AT HALIFAX.

HALIFAX, N. S., April 1.—The American schooner Hattie Maud is at Port Matoun, Queen's County, fitting out and shipping orews. The captain says he has no instructions to the contrary. A number of fishermen leave Liverpool to-morrow by schooner to join American fishing vessels, American firms having telegraphed that they will pay their passages. In an interview with American Consul-General Phelan to day, he raised the new and important question that, in his opinion, "Admiral" Scott, in his flagship Lansdowne, while having full authority to enforce any provincial laws regarding the fisheries consistent with treaty rights, has no authority whatever to enforce the provisions of the treaty of 1818 without ceing commissioned by the Imperial Govern-ment, and all injury to American citizens or property resulting from any attempt of Canadian officials to usurp the authority of Great Britain would be good grounds for claims for damages against the British Gov-ernment. He looks upon the Canadian Government as in the same position as regards national existence as the English Government doubtless regards the State of New York, neither being authorized to make or enforce treaties.

But has not the Imperial Government authorized Canada to enforce the treaty provisions!" was asked.

"She may have, but did the United States, as one of the contracting parties, consent to this delegation of Imperial authority to a colony? Suppose the United States delegated the State of Mussachusetts authority to enforce federal treaty obligations against Great Britain and a village constable under local authority seized a Butish vessel for an alleged technical violation of the treaty of 1818, what would the English Government say about it? They would certainly not sub-mit to any such proceeding, and that is the position that, in my judgment, we should take in this same connection. Notwithstanding the increasing abuse of the provincial press in characterizing American fishermen as 'pirates,' 'robbers,' etc., etc., and the many vexatious questions that will inevitably arise growing out of existing affairs, I have no fear of any serious trouble arising with Great Britain, as the latter has no disposition or interest in violating either the letter or spirit of the treaty, and will not permit it to

THE NEW VOTERS.

LARGE ADDITIONS TO THE LIST UNDER THE DOMINION FRANCHISE ACT.

OTTAWA, April 1 .- It is estimated that 2,500 names will be added to the voters' list in this city by the revising barrister, these being income voters enfranchised by the new been working vigorously and have not spared expense in hunting up persons entitled to be on the list.

TORONTO, April 1. - Additions to the

ANOTHEP AWFUL MURDER. Owen Sound, Ont., April 1.—The inquest on the bodies of John A. Bailey and I is hired man, name unknown, who were burned in a building destroyed by fire on Thursday night near Wiarton, was concluded lare last night. It disclosed a most atrocious and blood-curding murder. The fire occurred about 9 o'clock p.m., on Thursday, the 25th. Bailey had been in Wiarton in the afternoon, and had started for home about 7 o'clock, after which he was never seen alive. His team was found standing in the stable unharnessed, just as he had unhitched and put thomi n when he went to the house to meet his untimely teachers, and this is the second noteworthy feature of his system.

But if La Saile gave to his system of education a strong chief executive officer whose blood vessels on that side, and a heavy blow blood vessels on that side and the heavy blow blood vessels on that side and the heavy blow blood vessels on the heavy blow bl had crushed in the forehead until the brain had exuded. The body of the bired man showed still more horrible treatment. The skull was battered in and the brain also exuded. Three ribs were cut off near the backbone, and the fifth and six ribs were cut in the centre along with the seventh, eight and ninth ribs. The left arm was also broken. The affair caused wild excitement in the neighborhood, which has been deepened by the fact that no clue to the murderers has been discovered. The evidence throws no light on the affair. In fact the mystery is so complete that suspicion rests on no one. The jury returned the following verdict:— That the said John A. Bailey and an unknown man came to their death on the 25th day of March, 1886, on lot 4, concession 20, in the county of Keppel, by being wilfully and maliciously murdered by some person or persons at present to the jury nnanown."

> The Chinese Government is reported to be discharging the German military and naval officers in its employ and substituting English officers.

> "WHOOL IT UP." Probably one of the most difficult complaints to a doctor is whooping cough. When treated by ordinary means the poor victim is left to whoop it up as best he can. Hagyard's Pestoral Balsam gives relief in this case as well as in all throat, bronchial, and lung troubles.

TROUBLE WITH ALICE.

LONDON, April 1.-Mr. P. T. Barnum's new elephant Alice, the consort of the late Jumbo, was tettered at the Zoo to-day preparatory to shipping her to America. She was in an obstinate and vicious mood, and a large force of work-men were occupied several hours in moving her a hundred yards, although she had been kept several days without food in order to weaken several days without food in order to weaken her physically and render her submissive. During the process of moving her she offered such powerful and dangerous resistance that it was resolved to immerse her in a pond close by when it should be reached. Her keepers and their assistants managed to get her into the water and partly submerged, but the huge beast drove them off by filling her trunk with water and squirting it upon them until they were nearly drowned, and waded back to terra firms. She was finally confined in the massive how in which she will make the fourney to New

OHARGED WITH MURDER.

QUEBEC, March 31 .- Further details of the Deschambault murder have just been received and show that an old feud had been existing between the parties. It appears that the actual proprietor and seigneur of certain woodlands in the centre of the seignory of Deschambault is a Mr. Zephicim Perrault, a brother of the murdered man, who purchased the same from Sir Charles James Stuart. On the other hand, one L. C. A. Fleury de Lagorgendiere, ctaimed to own the lauds in question, as heir of the first seigneur, and sold the lats, which are valued at least at \$2,000, to Antoine Marcotte for the sum of \$100. Marcotte has taken every possible means to obtain a legal recognition of his rights to the lauds in question. He had Perrault arrested some time ago for alleged trespass, but the latter was honorably acquitted. He then took a number of actions in the Superior Court, one of which was decided against him about a fortnight ago by Judge Caron. Failing all other means, Alarcotte appropriate the property in pears to have resulved to retain the property in question by force. He entrenched himself in a sugar shanty in the bush, and expressed his in-tention of remaining there, while one rumor has tention of remaining there, while one rumor has it that he openly expressed his intention of killing anybody that attempted to interfere with his pretended rights. The actual seigneur, Z. Perrault, sent his brother Alphonse and four others on Monday last to take forcible possession of the property. On their arrival at the cabin, Marcotta, who had a loaded gun in his possession, seeing five men approaching, Alphonse Perrault, accompanied by M. Donville, agent of the proprietor, and three others, forbade their entrance. One of them having knocked and been refused, they burst open the door, whereupon Marcotte fired, shooting Perrault through the head. He then seized an axe and threatened any other person seized an axe and threatened any other person seized an axe and threatened any other person daring to effect an entry, and proceeded to reload his gun. The entire party outside, hearing a second discharge of the weapon and having no arms to defend themselves, fled precipitately, leaving the body of their comrade lying on the snow. The circumstances of the case having been communicated to Judge Chawveau. Detective Walsh and Sergeant Haran was deseated at the sense and enceeded. Chawceau. Detective Walsh and Sergeant Har-per were despatched to the scene, and succeeded yesterday in arresting the alleged murderer, who made no resistance, at Portnenf. The prisoner will be brought to town to-day and lodged in jad. The inquest was commenced yesterday before Dr. Belleau. The deceased, who was allied to the Lindsay and Lagorgen-diere families leaves a wife and several children in a very helpless condition.

QUEBEC, March 31. - Lvening - Antoine Marcotte, the Deschambault murderer, has been arrested and brought to town. He is in jail and will be tried at the coming term of the Queen's Bench, which opens on the 10th of April. A telegram received to day from the coroner ennounces the finding of the jury was one of wilful murder against the princeer F. X. Lemieux has been retained as counsel for the defence.

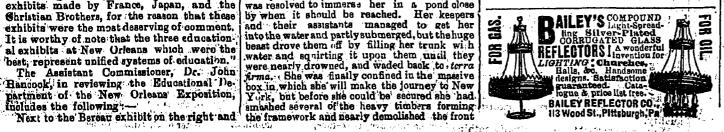

WORTH REMEMBERING.

In a long letter from John H. Hall, of Baddick, Cape Breton, N S., he says: "I believe were it not for Burdock Blood Bitters I should be in my grave." It cured me of kidney and iver complaint and general debility, which had nearly proved fatal.
