The Club is considering the holding of another At Home, to which each member may bring his friends in the service. The membership bids fair to reach the 200 mark shortly.

The reading room is under the direction of Dr. Otto Klotz, which is a guarantee that the right sort of material will always be found there. Members of the civil service who are not residents of Ottawa will be welcome at the Club, while visiting the Capital. Ex-members of the civil service are eligible for membership, and quite a number are joining the club.

The Earl of Arran, K.T., has recently accepted a military appointment in Dublin, and as this entails residence in that city he has had to resign the chairmanship of Bovril Limited. His place on the board of that Company has been filled by the Earl of Errol, K.T., who has been appointed as chairman. In Scotland the Earl of Errol ranks second only to the King.
