KALLEOSTROPE is a new word for an old concept. The name comes from two Greek words which, together, mean "a turn of beauty". Made from gas, three kinds of solids and delicately tinted liquid, the KALLEOSTROPE is a delightful and educational toy, ideal for home and office. It's easy and fun to use. Just flip the frame over a new, original, landscape forms before your eyes.

Exceptionally fine sands ensure the KALLEOSTROPE of a long cycle and well defined strata lines. With a range of 14 brilliant colours and the precise craftsmanship of classic oak frames, our product sets the standard of KALLEOSTROPE design. Continuing its tradition of innovation, Magic Sands has added an acrylic frame for the 80's look.

A big success amongst gift boutiques and tourist shops throughout Canada, Magic Sands is currently expanding into American markets.

Create your own instant landscapes with a simple flick of the wrist.

Maple Leaf Stamping was established in 1980. We offer only high quality, unique Canadian designed, custom made products. Our line includes commemorative coins, tokens, plaques, medallions, charms, spoons, bells, thimbles and bottle openers. Our products are attractive and functional, and most of them have become collectors' items. We combine artistic solutions with skilled workmanship to meet the exact specifications of our customers.

Maple Leaf Stamping has designers, artists, a precision engraver, as well as in-house tool room and machine shop personnel who are all specially trained to perform fine, intricate work. As a result, it is possible for us to guarantee our customers superior quality products, prompt delivery and reasonable prices.

Our Contract Fusion Welding Division can handle all fusion welding requirements, again with consistent quality and guaranteed on-time delivery. As well, we produce a variety of excellent manufacturing equipment for other companies.

Artistic solutions are fused with professional craftsmanship to develop recognizably superior products.
