

Young Offenders Act

As far as I am concerned, I am saying that one must at least have the basic necessities.

Mr. Speaker, I believe the government should seriously consider the whole system respecting juvenile delinquency. They must completely overhaul the current aspects of children's behaviour, including the attitude of parents towards their children. They must amend the Criminal Code or pass a law requiring parents to assume their responsibilities.

In my opinion, we must not either do what we are doing, that is be concerned about children without

bothering with parents, if we want the number of juvenile delinquents to decline.
