

HAMILTON HAPPENINGS

HAGUE TRIBUNAL HAS SERIOUS LIMITATIONS

Assistant Secretary of American Peace Society Offers Criticisms.

HAMILTON, Feb. 16.—Rev. James L. Tyron, assistant secretary of the American Peace Society, addressed the Canadian Club at the Royal Hotel, this evening. He dealt with the subject of the world's peace and referred to the work of the Hague. He said that, admirable as this arbitration court was, it had its faults. For instance, another arbitration would have to be held to decide who had won in the recent fisheries case...

The twenty-first annual Methodist Church was celebrated this evening. The treasurer, Rev. F. H. Harrison, announced that the total received in boxes amounted to \$1300, of which \$1000 would be applied to the reduction of the church debt. A lecture on the British Empire of the Seven Seas was delivered by Frank Leigh of Toronto.

While in Toronto call on Authors & Cox, 138 Church-street, makers of artificial limbs, crutches, etc. Oldest and most reliable manufacturers in Canada. Word was received here to-day of the death at Clifside, Carolina, of W. J. Winn, a Hamilton grocer, who left here on Saturday last in the best of health.

CATARH OF THE STOMACH

A Pleasant, Simple, But Safe and Effective Cure For It.

Catarh of the stomach has long been considered the next thing to incurable. The usual symptoms are full or bloating sensation after eating, accompanied sometimes with eructations, watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headache, sickle appetite, nervousness and a general apathy and languid feeling.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlan, the safest and best treatment is to use after each meal a tablet, composed of Digestive Peppin, a Little Nux, Gold Seal and fruit acids. These tablets can now be found at all drug stores under the name of Little Nux, Gold Seal and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

CITY ENGINEERS FREE INTAKE PIPE

Continued From Page 1.

no water in the mains. At noon the indicator on the gauge started upward, reaching 25 pounds pressure. At 2.30 p.m. the pressure reached 90 pounds. Just 5 pounds below normal. At 10 minutes of three it was normal, and it was not long after until it went up to 80 and kept in the vicinity of that point from that time on.

It was shortly after 3 o'clock that Engineer Fellows, who returned after a short rest, reopened his chief. The pipe was clear and that a full flow was passing thru to the well at the main pumping station.

The Mayor Worried.

Mayor Geary was, with the possible exception of the city engineer, the most worried man in the city. He has been confined to his home since Saturday with an attack of grip. When informed of the state of affairs on Wednesday night he got into communication with Property Commissioner Harris and arranged for distributing water to the districts the pumps were reduced to a trickle.

Citizens Helped.

Mr. Harris started in about 2 o'clock yesterday morning to make preparations for the delivery of water to the famine-stricken area. He got his staff together and arranged for a number of sealings. Then he called up J. W. Flavelle, of the Water Development Company, Limited, requesting a loan of barrels. This was done because the snow on the regular city water wagon barrels only Mr. Flavelle not only granted the request, but came down and personally supervised the work of getting the barrels out. 83 barrels were secured, and at 7 o'clock yesterday morning were started out to load up. They succeeded in reaching the famine area in time to prevent any great hardship.

North Toronto Helped.

It was thru the kindness of Mayor Brown and the municipality of North Toronto that the extreme northern portions of the city received assistance without delay. He got into communication with the department and placed the hydrants of the thriving little town at the disposal of the relief brigade operating in that part of the city.

The complaint reached the offices of the property commissioner late in the afternoon that one of his drivers was retaining water on Harbord-street at a certain point. An official was hurried out to make an investigation. He found that it was an ambitious milkman taking advantage of the opportunity to retail his spring water at a greater profit than in the product of his herd.

Mr. Harris was too modest to claim any share in the success with which his department coped with the situation. He attributed it entirely to the efficiency and loyalty of his staff.

By 9 o'clock last night the gauge at the main pumping station showed a pressure of 100 pounds, with all pumps running to full capacity. This is all the pressure they are allowed to carry. Mr. Rust believes that the late trouble has demonstrated the immediate need of the new duplicate intake pipe he has recommended, to reach a point in the lake that will not be affected by a wind which drives the ice and sand up on the present one. Then it could be used when the other one is being cleaned if it again gets clogged.

Just Why

Old Dutch Cleanser

Scours Pots & Pans Without Hard Scraping. Because the fine particles of the Cleanser immediately loosens and removes the hardest "burnt" in food-crusts, which soap-powders and scouring-bricks may only wear off after long, hard scrubbing.

Many other uses and Full Directions on Large Sifter-can 10¢.

GRAFT IN PITTSBURG SCHOOLS IS EXPOSED

PITTSBURG, Feb. 16.—Graft in the Pittsburgh school boards, an exposure of the individual who attacked the charge being made, "that the majority are gamblers, bartenders, saloon-keepers, political employers placed on the boards to control the money workers and laborers, with inadequate education to govern the instruction of children," and a score of more characters of men, equally objectionable in the judgment of the voters' league.

The personnel of the school boards of the individual who attacked the charge being made, "that the majority are gamblers, bartenders, saloon-keepers, political employers placed on the boards to control the money workers and laborers, with inadequate education to govern the instruction of children," and a score of more characters of men, equally objectionable in the judgment of the voters' league.

Teachers Forced to Pay For Positions—School Picnics Were Drunken Orgies.

Teachers have been forced to pay for their appointments, janitors and trustees who were held up, and when everything failed the granting directors can always borrow money from agents of the contractors, who do business with the schools. The money is never returned, says the report.

Some of the school picnics have been nothing more than drunken orgies for the directors and their insolent and disreputable friends. Children have been taken to picnics with men and women of the underworld. They have seen drunken women from the tenderloin on the dancing platform, and gamblers playing their vocation on the grounds.

\$1000 WORTH OF WOOL STOLEN

Two Jewish Pedlars in Custody—Sold to Front-Street Dealers. Two charges of theft each are charged up against Hyman Silverman, 66 Hayer-st., and Louis Glass, 135, Dal-housie-st., Toronto, is one of the latest in the latter's residence. Between them is alleged they stole \$1000 worth of wool from Wilson's Cashmere, 25 Front-st. They followed the trade of peddlars and the police say that on two or three occasions they sold wool belonging to Canadian merchants on Front-st.

The Piano of Louis XV. From an architect's and artistic point of view a Louis XV. design is an upright grand piano, built by the old firm of Heintzman & Co., Ltd., 138-139-141 Yonge-street, Toronto, is one of the most attractive pianos that can find a place in any home. That peculiar art finish that is so familiar to the Rococo period is one of the art features of this particular build of piano.

INTERESTS HAVE BEEN HURT BY AGREEMENT

Continued From Page 1.

longer haul from the mother country, the U. S. would have a distinct advantage. This was discrimination against Great Britain.

Mr. Lennox observed the crux of the question was that the railway board would have to give the Washington farmers a rate at which they could carry their products and compete on equal terms. The agreement, however, would check railway enterprise in this country, and it is felt that there was not an industry in Canada that would not be affected.

He did not like the tone of Mr. Fielding's speech. There was too much slobber and breahtren in Mr. Peterson's speech. There was even more brotherliness, but less business well enough alone. That would eliminate any question of future progress.

In reply to Mr. Lennox's statement that the U. S. would receive an advantage over the mother country regarding goods on the free list by reason of discriminatory rates, due to the national waterways? The U. S. would bring freight from Halifax to Prince Edward Island, than from Liverpool to Halifax, and so it likewise cost more to bring goods from New York than from both ports.

A Self-Sufficing Empire. J. E. Armstrong (E. Lambton), prefect of the U. S. would receive an advantage for imperial trade. The meaning of confederation was the welding together of the British Empire. Everything a nation needs was grown in the British Empire. Canada had the grain, minerals and lumber. Australia produced wool. India and Egypt provided the cotton, and British herself was the manufacturing clearing house.

The national policy had been maintained by the U. S. in Canada, but reciprocity was the last effort of a moribund congress. It, too, was grasped by the Liberals as a means of obtaining the tariff with the U. S. Transcontinental would be a sink hole for public funds.

Ruin to Industries. The passing of the reciprocity bill would spell the ruin of the meat packing industry, while the Canadian millers would get the culled wheat from the west. The salt industry of Ontario would be ruined. In his localities the trusts and the fisheries of the great lakes would be dominated by Americans.

Additional Light. The baby grand piano of the old firm of Heintzman & Co., Ltd., 138-139-141 Yonge-street, has taken a first place among the finest pianos built to-day. It is the choice of the musical artists and is in use in colleges of music and the homes of the cultured from the Atlantic to the Pacific.

The editorial in this week's Sunday World conveys a lesson to everyone, in as much as it is not well to let well enough alone. The article is taken from the following text written by Thos. Moore or some other apostle of contentment: "I knew by the smoke that so gracefully curled above the green elms that a cottage was near, and I thought that if peace could be found in the world a heart that was humble might look for it here." For sale by all newsdealers.

Saving Seconds. Time, down to its minutest fractions, has become so precious to the American business man that those who have any hope of keeping up against the tide of competition find it profitable to invest money in devices that save time on the least important incidents of daily traffic. A mechanical envelope sealer which seals 900 envelopes an hour, and the portable stamping apparatus are being imported from every quarter of the country to print stamps in long strips instead of blocks, so that a man may employ a single stamping machine. In the letter sealing apparatus the lower end of the metal roller dips in a water tank. The letter is picked up by the moistening rollers, dampened, passed thru the sealing rollers and dropped into a basket by the mere turning of a crank—Chicago Tribune.

We've just received our new "Queen Quality" styles for Spring and they're beauties. We did not believe such footwear possible at the price. The makers have outdone themselves. Smart, snappy styles with plenty of comfort and service—just what you have been looking for. You'll buy here eventually. Why not to-day?

Belle & Art Ice

Remember it now—remember it in the spring.

BELLE & ART ICE CO., 37 Yonge Street, Main 14 and Main 1047. New address after March 1st: 156 YONGE ST.

ries, the reductions will apply to such countries. Mr. Sharp asked if, at the recent conference at Washington, any understanding was reached that the Canadian tariff on articles not specifically mentioned in the treaty would not be included.

Mr. Fielding replied: "There is no understanding of any kind except what is found in the correspondence and agreement already before the house." Replying to a statement made by Mr. Lennox to the effect that the agreement was the result of a conspiracy between Sir Wilfrid Laurier, Premier Asquith and President Taft, Mr. Warburton said that the idea was so absurd that it carried with it its own refutation. As for the loyalty of Mr. Lennox, he was sorry to see the Conservative party adopt it so frequently, because they did themselves a great injustice when they argued that the people of Canada are of the kind that can be bought and sold.
