Crop Advices More Reassuring And Wheat Declines Further

More Favorable Weather in Canadian Northwest Puts a Crimp in Crop Damage Claims—Liquidation from Tired Holders.

CHICAGO, Aug. 30.—Wheat was liquidated heavily on the board of trade to-day, September in particular, and the close was ½c to ⅞c to 1c under yesterday. Corn and oats found narrow markets, but while corn sold off ¼c to ½c to ⅜c to ½c, oats closed unchanged to a shade up. Provisions suffered from liquidation, closing 7½c to 10c lower on lard and ribs to 62½c for September pork.

The liquidation in wheat was led by September longs who had an eye on delivery day next Friday and didn't want the wheat. There was also more short selling in the pit than for a considerable period. September at one time was off nearly a cent, and closed with a loss of ⅝c to ¾c. This option was picked up by elevators and cash houses who have sold December at 4¾c premium.

The Canadian Northwest reported clear skies and warmer weather with harvesting in full blast. The Paris Bourse was weak, but other foreign markets ruled steady. The cash demand was slow. December touched bottom at 93¼c to 93¼c, and closed ⅛c under yesterday at 93¼c to 93⅝c. May options at one time were off 1⅛c to 1⅜c, but the close showed a slight recovery ⅞c to 1c under yesterday at 99⅛c to 99⅝c.

Cash corn to the extent of half a million bushels was sold to-day but the market for futures was narrow and the tone easier. Spot sales so far this week aggregate 1,800,000 bushels, and in addition new corn was sold for January and February shipment. December prices fluctuated within a range of ¼c, and the close was ⅛c to ¼c off at 62¼c to 62⅝c. September closed ⅝c to ½c down at 64½c to 64⅝c.

Oats were dull, the range of prices narrow and the tone firm, altho cash prices were off ¼c to ½c. Elevators took September and sold the deferred futures. December sold between 41⅝c and 44⅞c, closing unchanged at 45c to 45c.

Cash trade in provisions was normal for this part of the year but futures dropped off on liquidation and in sympathy with wheat and lower hogs. January was the favorite sale. September pork at one time broke 77½c and closed 62½c under yesterday at $15.75. January closed 22½c down at $16.30. January lard closed 10c lower at $9.02½, and January ribs 7½c to 10c depressed at $8.27½ to $8.30.

Active Trade in Export Circles

Ocean Freight Space in Good Demand at Montreal—Cattle Steady in Eastern Market.

MONTREAL, Aug. 30.—There has been a little more activity in export live stock circles during the past few days, owing to the improved demand from both American and Canadian exporters for ocean freight space, and fully fifty per cent. of the supply to London for September has been engaged at 27s 6d per head, which is an advance of 2s 6d over the August figure. The demand for Liverpool space is quiet, and so far only one boat has been engaged at 25s, and some Glasgow has been let at 30s.

At the Canadian Pacific live stock market the offerings this morning were 1060 cattle, 800 sheep and lambs, 1700 hogs and 400 calves. Altho the supply of cattle was somewhat larger than usual for the middle of the week requirements, yet a firm feeling prevailed in the market, and prices showed no change, owing to the fact that the demand from butchers was much better than expected, consequently a fairly active trade was done at the close. Choice steers sold at 6¼c; good at 5¾c to 6c; fairly good at 5¼c to 5½c; fair at 4¾c to 5c, and common at 4¼c to 4½c per pound. Cows brought from 4c to 5¼c, and bulls from 3c to 4½c per pound.

There was no change in the condition of the market for small meats, prices being steady under a good demand and smaller supplies. Lambs sold at 6c, and sheep at 5¾c to 4c per pound. Calves were scarce, especially choice stock, for which there was a good inquiry, and sales of the best on the market were made at $8 to $10 each, and the commoner ones went at from $3 to $7 each.

The supply of hogs was ample to fill all requirements, and the tone of the market was easier, with sales of selected lots at $7.50, and mixed and heavy at $6.75 to $7.25 per 100 pounds, weighed off cars.

More Favorable Tone to Western Reports

Advices Make Light of Frost Injury of Past Ten Days—Brokers' Comment.

J. P. Bickell & Co. from Logan & Bryan:

Wheat—September liquidation was more in evidence to-day than at any time for the week, and as a result that month had a break of one cent from Tuesday's closing prices. The later months had less break, but developed considerable heaviness under selling pressure early in the day. Chief bearish influence for the day was the tone of the advices from the Canadian Northwest, railroad advices, reports from crop experts, and many messages from private sources making light of the frost injury of the past ten days, and general cutting of wheat was reported over Saskatchewan. The very large local stocks of wheat and the limited demand for the same constitutes a bearish feature, from which the local trade cannot escape.

Finley Barrell wires:

Wheat—Liquidation by disheartened bulls was again the overshadowing speculative feature. While the selling pressure was not pronounced, it was more than sufficient to offset the scattered covering by shorts. News in general was rather depressing, cables being lower, cash demand flat and advices from Canada more reassuring. As it begins to look as if damage is by no means as extensive as early advices indicated, think it advisable to await developments before going long on wheat, as bulls are completely disheartened, public is showing no interest, and the underlying situation is decidedly discouraging to holders.

Erickson Perkins & Co. had the following:

Wheat—Market opened weak and lower, and so ruled all day, scattered liquidation being a feature. Weather in northwest warmer and harvesting operations in Canada were general. Buyers are waiting for a further decline. We look for a steadier market after the first of the month.

Corn—Weakness in wheat was accountable for the fractional decline. Cash demand large. We look for a falling off in receipts.

Oats—Market firm; receipts light. Cash prices locally were easier. We see no reason to change our opinion, and strongly advocate purchases on all depressions.

IN THE CANADIAN WEST.

Winnipeg wires that the Saskatchewan Department of Agriculture reports cutting general.

Morden, Man.—Threshing is general here; 35 bushels to the acre is the largest barley yield reported. Wheat is averaging around 20 bushels, and oats going about 33 bushels to the acre.

Lecount wires from Melville, Sask.: "From Winnipeg to Saskatchewan line harvest in full blast; greater part of wheat in shock. Saskatchewan crop mostly ripe to this point. All fields examined show wheat filled well. Potato vines killed here, but farmers say wheat, with exception of low, late fields, which is a small per cent., too near maturity to be seriously injured by frost last week. Weather now warm and favorable."

Reports from 150 special correspondents on crop conditions thruout Western Canadian provinces have been received, and from these one-half claim prospects of bonanza yields, running from 30 to 35 bushels for wheat and 60 to 100 bushels for oats; 10 to 20 per cent. of the wheat crop is cut in Manitoba. Harvesting in general in Alberta and Saskatchewan. Summarized, these reports point to the greatest average yield the Canadian West has ever known.

Montreal Provision Market.

MONTREAL, Aug. 30.—Feature of the grain trade is the increased demand from local buyers for oats, and sales of 100,000 bushels were made, including 60,000 No. 2 Canadian western at 43⅝c, and 30,000 extra No. 1 feed at 43½c ex-store. Oats were stronger at an advance of 1¼c per quarter. The foreign demand for old crop Manitoba spring wheat was good, and sales of several loads were made for prompt shipment, and a few loads of new wheat were also worked for October-November shipment. American corn was easier in sympathy with Chicago. A good export business continues to be done in spring wheat flour, further sales being made to-day. There is also a good inquiry for winter wheat at an advance of 3c per sack. Rolled oats are strong, and prices have advanced 20c per barrel. Cheese, butter and eggs are fairly active.
