BABY FARM STORY FALSE, SAYS M. O. H.

A misrepresentation of facts is what Dr. C. J. Hastings calls a statement of Provincial Inspector Martin that conditions at the alleged baby farm, conducted by Mrs. W. J. McCann, 74 Shaftesbury avenue, are "a strong reflection on the medical health department." "He accuses the city of placing eight children in this home," says Dr. Hastings. "This is absolutely false; no three were placed there by the St. Vincent de Paul Society without the knowledge or consent of the department of public health. "Immediately my attention was drawn to the fact that this baby boarding home was overcrowded, I had an investigation made. As the keeper of the home had broken her contract, her license was cancelled forthwith on Tuesday last. The department has put forth every effort to have the children removed. "It is regrettable that there is difficulty in finding a sufficient number of homes for children, but in no circumstances do we knowingly permit of any homes being overcrowded. "No child is properly admitted without the permission of the department of public health.

LET HUN PAY FOR GRATUITIES

Army and Navy Veterans Suggest That Indemnity Provide \$2500 Bonus.

At their annual convention in Montreal last week, the Army and Navy Veterans in Canada resolved that all men who had seen service in any theatre of the present war should be granted a bonus of \$2500, and in order not to cripple the resources of Canada, which is not in a position to pay such an amount at the present, the money should be paid out of indemnities from Germany to Canada. It was urged that the Dominion government should ask enough to cover this. It was also agreed to request the government to give credit to soldiers fitted for other kinds of business equal to the farm credit. It was pointed out that there were many wounded soldiers not fitted to take advantage of the land settlement scheme, and in order to take care of veterans' homes to other kinds of business for which soldier might be suitable. The question of veterans' homes to take care of veterans' dependants was also up, and a resolution favoring provision carried. Prohibition Discussed. The prohibition question was discussed and it is stated the majority were of the opinion that they did not want to see whiskey in the bars again, but favored beer and wine licenses, and some way in which a man would be able to get whiskey "without paying \$2 for a doctor's certificate" as one put it. "We are against prohibition; we want our rights restored." A system of inspection to secure better quality, instead of "the horrible stuff" often disposed of was advocated. It was decided to organize all the soldiers throughout the country, the idea being to have a veterans' league in each city, comprising a committee from each veterans' association, then form a provincial league, and after that a Dominion league. A request is being made that veterans be represented on all important government commissions and committees. The headquarters of the organization is still in Winnipeg, Comrade W. J. Tupper, K.C., of that city, being re-elected president. It was decided to appoint a representative to be elected at Ottawa to look after the interests of the army and navy veterans. Against Bolshevism. A resolution was passed against Bolshevism, and another asked for a commission to investigate the high cost of living and profiteering. Capt. R. O. Hawtreay, Toronto, who was present, stated representatives were in attendance from the following places: Winnipeg, 22; Kingston, 20; Vancouver, 19; Victoria, 15; Regina, 13; Halifax, 8; Calgary, 7; Toronto, 5; Yorkton, 5; Ottawa, 5; London, 2; Moosejaw, 2; Fort Frances, Rainy River, Rosetown, Russell, Souris, Trail and Vernon one each. The 1820 convention takes place in Victoria, B.C. AGAINST WAR FRANCHISE REPEAL. The following resolution was passed yesterday at a meeting and forwarded to Sir Robert Borden: "We, members of "Earl Roberts" L. O. L. No. 2614, in lodge assembled, do hereby by resolution strongly protest against the action of the government of Canada in repealing the war time franchise act and again extending the right to vote to aliens who were lately our enemies, thus giving them the power in certain constituencies—where they hold the balance of power—to prejudice loyal subjects of the King and spread their propaganda to cause division and disloyalty to the injury of our beloved country.
