Men in each district—A—F. R. Erkin, B—J. W. Lockhart, C—A. G. Craydall, D—B. Maguire, E—A. B. Silley.

Comparing the first week of the Victory Loan of 1919 with the first week of the loan of 1918, it is seen that the Dominion is nearly \$3,000,000 in advance, and that both Ontario and Toronto are also in a forward condition. This is encouraging, but because of the greater prosperity of the country and her freedom from many anxieties, it is expected that the people at the time of the last loan, even greater things are expected. As a consequence, canvassers and salesmen, generally, are out today in the second week of the campaign with the hope and expectation that subscriptions will increase and investments rise as the drive goes on to advance.

It is interesting to note with what whole-hearted generosity larger concerns are throwing themselves into the work. "The big business and sacrifice," says J. H. Gundy, chairman of the Dominion special subscriptions committee, speaking of the large subscription to the loan, which are handled thru his committee. "Subscribing for bonds in million dollar figures means skipping and saving and giving the amounts to the country, realizing that the country needs their money, every dollar they can spare. The country's good comes first."

**High-Class Investment.**  
For the insurance of other professional investment companies it is true that the bonds are a high class investment, but these companies do not treat this issue as an ordinary investment opportunity and invest an ordinary amount of money. Realizing that Canada must have the money, they are putting in every dollar they can scrape up. When you read of a financial institution making, say, three million dollars' worth of bonds or an industrial concern subscribing half a million, you may be sure, the company is significant, every dollar it can carry. If all the citizens would treat their financial obligations to their country as seriously as the special subscribers, there would be a lot of skipping and saving and doing without in the next year. Patriotism has made it possible for the special subscriptions committee to secure such a large response from the business world of Canada."

**Greater Ontario Leadership.**  
Greater Ontario is leading in special subscriptions, not only in Toronto, but the rest of the country. And collection of special subscriptions appears to be far ahead of the other terms of canvassing. Ontario has now secured 80.91 per cent. of its special subscriptions objective, which is \$34,725,000. Toronto is just past the halfway point to the fifty-million mark, but the Queen City special workers are confident that early this week they will close up some large applications for sums greater than they have subscribed last year, and get Toronto into its rightful place as a leader for the rest of the province.

London has set the pace for Ontario in special subscriptions, which are applications for \$35,000 and over. That city has secured 127 per cent. of its four-million objective. Timiskaming, with 212 per cent. of its million-dollar objective, must be given a high place in the honors. The early subscribing of some of the rich mining companies at Cobalt and Porcupine has pulled the northlands to the top of the heap.

**Captured Honor Colors.**  
J. H. Gundy, chairman of the special subscriptions committee, announces that at the end of the first week of Ontario's sixteen money-raising divisions had captured the honor colors. These are the Lake Huron division counties, Huron, Perth, Waterloo and Wellington, with 116 per cent.; the northern division, in which are the mining areas, with a percentage of 108; central division, which embraces the counties contiguous to Toronto, with 111 per cent. and the city of London.

On Saturday night Toronto spe-
