two points it gives Kingston the district.

While the easterners did not have While the easterners did not have any the best of the play they were more finished and seasoned hockey players. Their defence blocked well and were hard to get by, while Midland's were easily drawn out at times. A little carelessness on their part allowed the winners to score three goals which they should never have had. The ice was like a sheet of glass, Midland scoring two goals in the first four minutes. This looked good to the Midland team and they were inclined to take things easy, the forwards hardly ever checking back. Midland played too much combination the first half, considering the nature of the ice. Once the puck left the player it was hard to tell where it would stop, the disc bouncing about like a rubber ball. Then again Midland were terribly weak in their shooting.

Then again Midland were terribly weak in their shooting.

The second half was the best hockey, the players being able to hold the ice better. Midland worked hard to overcome the lead and would have tied the score with any luck. They had three-quarters of the play, but were unable to get inside the Kingston defence, who played a steady game. Midland had easily two shots to Kingston's one, but only three of them landed. Just when Midland looked like having a chance their defence would get too anxious and on a pass, Potter or another of the opposing forwards, would rush thru and tally. Kingston's last goal was disputed and the umpire removed.

For Kingston George Richardson and Potter were the stars of the forwards, while Hiscock did good work in goal. Hastings and McLennan were the pick of the Midland team. McLennan worked like a beaver all night. Eddie Gould was away off in his grants and the start of worked like a beaver all night. Eddie Gould was away off in his game the first half owing to his skates being on the dull side. At half time he had them sharpened and put up a better exhibition in the remaining half.

The game was very clean, considering so much was at stake. McLennan put Van Horne down for the court, while Powell wanted to take a round out of Switzer. VanHorne was forced to retire for awhile, Beatty going off with him. The teams:

Denial From Stoddard of Lindsay. Sporting Editor World: I wish to make an unqualified denial of statements appearing in your paper of Monday, in reference to myself whaling Phillips over the head and leaving him unconscious for one hour. Phillips was not struck in the nets by me and was not knocked out for one hour or any part of it, and in less than ten minutes after the occurrence happened he begged his manager to allow him on the ice to finish the game—a very strong bluff on the part of the Belleville management to save the game in any way, as they knew they were heat.

Highlanders 91st and 48th to Play Indoor Baseball_Turf Gossip.

The officers of the Highlander regiments of Ontario, 91st of Hamilton and 48th of Toronto, will meet for the first time in all Intoor baseball game at the armories on Saturday next at 8 o'clock. The final game of the season under the auspices of the Cfficers' League will commence at 9,30, between the Officers and Y.M.C.A. It is anticipated that this will be a very close contest. At the conclusion of the game Major Michie of the 48th Highlanders will present the cup to the Ex-Officers who have won the championship of the league.

The racing at the so-called outlaw track across the river from New Orleans has been extended to four days a week, and at the low price of admission, 50 cents, is attracting attendance enough to make the venture an extremely profitable one for its promoters. At the beginning of its operations racing at the half-mile track was confined to Sunday only then Saturday was included, and for the remainder of the winter it has been decided to race four days a week. This burlesque on racing began in the fall long before the regular season. In fact, it is never likely to stop as long as the revenue from the admission fees and sale of drinks shows a profit.

This multiplication of race tracks around New Orleans is the storm cloud on the horizon of the future of racing in Louisiana for, in addition to the track at which operations are being at present conducted the ground is being rapidly cleared close to City Park for another half-mile merry gonother, where some individuals, styling themselves the Louisiana Driving Club, projose to hold race meetings during the coming summer. This enterprise has for its promoter the notorious William Raab, who, when making a book at City Park with Trainer H. Wishard, for having entered into a conspiracy to have certain horses pulled, particularly the horse Pat Buiger, then in Wishard's charge.

The character of the sport which is seen at this newest venture when it gets going may be easily imagined. The combined influence of the Crescent City Jockey Club and the City Park Jockey Club caused the bill for the institution of a state racing con mission to be shelved at the last sitting of the state legislature, which does not meet again till a year from next June. They will probably see reason to regret this action in this respect, if they do not already do so, as unless all signs fall, they will have a hard struggle to maintain the existence of racing in this state.

to allow bein on the feet to finish the game a very strong bluff on the part of the Belleville management to save the game in any way, as they knew they were beathen, with a score of 8 to 1 against them at half time. The collision was caused by a rush made by myself. I shot on goal and the speed carried me into the breast. I made to hit in return; he duck, ed back, hit the goal post and fell to the ice. That is exactly what happened and Referee Waghorne gave us each three minutes, and the peacemakers who came to the rescue got five minutes each on the fence. My own and Phillips mix-up did not amount to much.

Now about the three players who refused to come on the ice. When did they get hut as they clasmed? A doctor went to the dressing rooms to examine them. They refused to be examined, but san was never accused of roughness, and also the O. H. A. executive hold five declarations signed by Lindsay citizens and others that I never struck Phillips.

Hugh Duffy, the Providence Eastern League team, believed in a new broom. Cotsequently he has turned over nearly all of the men who played in Providence last year to the Trenton Tri-State League team. New England has always turned out clever young players and Duffy thinks he can corral enough of them to enable Providence to hold her own with the other teams in the circuit. It is a novel experiment and Duffy alone will be responsible for the results attained.
