Great Demand for High Class Residential Lots

The rapid growth of Toronto has brought about the opening up of many outlying districts for high-class residence purposes. During the past two years many new sections have been laid out into lots by far-sighted, energetic real estate dealers, who have found an ever-increasing demand by prospective builders and investors for residence locations in the outskirts away from the din of our busy city life. Mr. Parker of F. J. Smith & Co., when asked the condition of business in building lots, said: "There has never been a greater demand for high-class properly restricted building lots than at the present. About a year ago we opened up the new annex on Avenue road hill. This property extends north from Russell Hill-road to St. Clair-avenue. It is bounded on the west by Forest Hill-road, and on the east by Oriole-road. Altho we did not attempt to sell a lot until last summer, a large portion of this new section has already been sold. Of course, this new section has a number of exceptional features. It is very level ground, and is well wooded with oaks, pines, and maples, in addition to its being very handy to the Avenue-road cars. It further has the advantage of being in a high-class residential locality, the houses in that neighborhood costing from \$5000 to \$30,000. All the lots in that section are well-restricted, so as to insure the owner against the erection of undesirable buildings.

EASTERN SUBURBS GROW.

Much Progress in Real Estate Changes and New Buildings Recorded at the Beaches.

Balmy Beach and Kew Beach have known some great development this year among the notable new buildings erected being the new school, the I. O. F. Temple and several stores at Balmy Beach, and a large addition to the public school at Kew Beach. Since the middle of April, when the railway scare subsided, there has been a great deal of activity in real estate in these districts, Victoria Park and East Toronto. Previous to that property had not changed hands so rapidly, altho the demand for houses to rent was as lively as ever; in fact, according to A. W. Burk of Burk & Co., real estate dealers, Toronto-street, who make a specialty of Beach property, more summer cottages had been rented up to May 1 than during the whole of last season. This firm alone had rented fifty cottages up to the date mentioned. The demand for vacant lots for building purposes had also been more active than in any previous year.

Little vacant land is now available at Kew and Balmy Beaches, and the enquiries are being made concerning Victoria Park, which, with adjoining lands, gives 1400 feet of new beach. This seems to be naturally the centre of summer residence activity, and its development has as yet been handicapped by the lack of street railway facilities. This firm alone expected, will be supplied in due course.

STILL NO PAVILION

Third Attempt on the City Architect's Part Failed to Suit Committee.

There is no prospect of seeing the commencement of the much-talked-of pavilion for the Allan Gardens, at least this year.

The city architect's department submitted an elaborate set of plans to the parks committee on Thursday, calling for an expenditure of \$350,000. He was told to try again and keep within the \$200,000 mark next time. This makes the third set of drawings rejected since early in 1905. The first set called for a building costing \$130,000, and the second, \$200,000. These were rejected because the auditorium would not accommodate more than 1550 people. The design which was rejected the other day afforded accommodation for 2500 people apportioned as follows: 1175 on the main floor, 650 in the balcony and 675 in the gallery. In the basement another hall was provided with a capacity for 1200.

Saturday Afternoon Excursion. The steamer "Chippewa" of the Niagara Navigation Company is now in commission, and will leave Toronto at 2 o'clock this afternoon, returning to the city at 8.30 to-night. Fare for round trip, 75 cents.

Dr. Agnew's Catarrhal Powder

whose mission it is and which mission it fills in freeing thousands from the bondage of dreaded, disgusting, distracting catarrhs that cruel, relentless master that is no respecter of persons. How do you know you are in its thrall? Note the symptoms—headache, watery eyes, pains over the eyes, deafness, buzzing in the head, drooping in the throat, offensive breath, dryness in the nostrils—any or all of these symptoms are forerunners of catarrh, and catarrh in the head can be relieved in 10 minutes by Dr. Agnew's Catarrhal Powder and the sufferer may be saved the suffering that comes with the chronic stage and the distress and maybe fatal results when catarrh takes hold on the lung tissues.

Take catarrh in time with this wonderful cure, which, as thousands have said and thousands more could say, "works like magic," and you will have struck the chord that is the keynote to health and happiness.

CHOIR TO FOLLOW LEADER NO USE FOR COMMITTEE

Metropolitan Church Singers Issue Statement of Troubles in That Body.

"The Committee of Dr. Torrington's Choir" has sent The World the following statement, giving a history of the trouble which led to their leaving the church:

The members of Dr. Torrington's choir (formerly of the Metropolitan Church) feel that there are some things which the public should know. We have patiently waited until our leader's term expired before saying anything for the press.

In 1907, the choir met and discussed certain statements that appeared in an evening paper. We then decided that upon Dr. Torrington leaving the choir, the choir should be reconstituted. Owing to recent statements in the press, we, as a body, feel that the general public should learn the truth, and least so far as pay matters, regularly, and have been concerned. There were petitions signed by members of the choir and regularly by the congregation, requesting an investigation and recognition of the report of the music committee. It being understood that the minister was supreme in all that concerns the government of the church, he was appealed to by letters and otherwise, but unfortunately did not see his way clear to stand by the principle of right, as understood and felt by the choir, but virtually sustained the music committee. In this opinion, expressed by one of its members, those who signed the petition were "stragglers" the fact being that the congregational vote of opinion was not the ruling power, but the voice of the gifted few overpowered all other, right or wrong.

Lofty to Leader. The choir members come from all parts of the city, few only being within an inferior distance of the church, many having to pay out fare regularly, and did so cheerfully and ungrudgingly, rain or shine, to give their best services to stand by our much-loved, and out of loyalty to Dr. Torrington. But was the music committee satisfied? No! We have received nothing but snubs from them. Our choir policy has been persistently pursued by them in dealing with the choir from the day of the appointment of the present chairman of the choir. For instance, for some years past, qualified singers, recognizing the high standard of the choir, made application for membership in such numbers that extra singers were necessary, as only 80 had been supplied for more gowns, the discourteous reply was made that "if those over the entire country, are would be gowns sufficient to supply all."

While all may not be equal, there are many who are certainly better than we could not have won from the most competent critics thru the present choir, and highly and justly so, as most of the choir, for example, the reports of last Sunday's service.

It has been reported that the choir has been dispersed with. Nothing of the kind. The choir left the church when Dr. Torrington was present, and was approached by the music committee by four letters, by verbal invitation, and by typewritten circulars, to apply for whatever they desired (?), and even to let them have the list of the names of choir members. No. We thank you in such a manner, and as music committee, nor will we bow to the ruling of any one member of it. The choir as a body refused to do any of these things, and the music committee found out they had no choir; they were forced to let themselves down for doing so, and they are now announcing that the choir's place would be taken for the summer months by a "paid quartet."

We have shown our allegiance to Dr. Torrington by leaving the church, and long may he live to guide us in matters musical.

Bouquet For Committee.

Had it not been for the love borne Dr. Torrington by the members of his choir, and the staunch feelings manifested toward him, the Metropolitan Church would long since have been without a choir. For who could get along without the choir? A few schemers amongst the members of the church have acted in their official capacity in such a manner, and as they have made the better-thinking members of the Metropolitan Church ashamed of their own choir, and as they have since said, "Had they known what was meant at the time, or what the result would be, they would have had no part in it."

PROTEST AGAINST BOARD IN LETHBRIDGE CASE.

OTTAWA, May 31.—The labor department has received a telegram from A. M. Nanton, manager of the Alberta Railway and Irrigation Company, protesting against the appointment of a conciliation board, as requested by the men, in connection with the labor troubles at the Lethbridge mines. He says that there are no grounds of dispute to justify the appointment of a board, and he thinks the department acted hastily. He also protests against Sherman being on the board, and asks for reconsideration.

Georgian Bay.

The steamer trip through that part of the 30,000 Islands of Georgian Bay between Parry Sound and Midland or Kennging, is one of the grandest that the Province of Ontario affords, and one which none should miss. The commodious and well-appointed steamers on this route make the trip delightful and scenery is almost beyond description and must be seen to be fully appreciated. This region has been compared to the famous Thousand Islands of the St. Lawrence River. In the prodigality of islands in far excess in number the latter resort and in diversity of scenery it is in no wise surpassed by the comparison. There is a varied scenery in some portions of the scenery to be found nowhere else in America, and especially pleasing to the eye, and may be had at the more familiar scenery of older resorts. Full and complete descriptive matter, describing the scenic beauties of the 30,000 Islands of Georgian Bay, can be had at Grand Trunk ticket office, northwest corner of King and Yonge-streets.

SERIOUS PRAIRIE FIRE Sweeps Country For Many Miles—Damage Considerable.

SNOWFLAKE, Man., May 31.—A prairie fire, starting on the plateau, caused considerable havoc for a few days, commencing May 24, and continuing on the 26th and 28th. It swept over the prairie west of T. Phillips, and made its way into the woods and along the east side of the river, burning up much timber. By Sunday the fire had not spent its force, and J. White and others had to fight the flames all day. The loss caused by the fire is enormous.
