Sheriff Starts in Well and Says Backbone of Strike is Broken -Employers Accuse Police of Dereliction of Duty.

Chicago, May 5 .- (Special.) - Determined efforts to break the teamsters' strike will be made by the employers to-morrow morning. Armed deputy sheriffs will ride on the wagons beside the non-union drivers and they have orders to shoot the first person who attempts to interfere. Over 300 white men arrived in the city to-day from points in the west, according to the employers, and they will be placed on the wagons to morrow. The components of the strike staple goods are also reported short all over the city.

Groceries Scarce.

A famine in grocery supplies is impending, owing to the teamsters' strike among the wholesale grocery houses. Already prices of many commodities have gone up. This is particularly noticeable also in fresh fruits and vegetables. Strawberries to-day are three cents a quart higher on account of the strike. Staple goods are also reported short all over the city.

least two days, until Sheriff Barrett has had an opportunity to demonstrate whether he can preserve law and order. The manner in which the sheriff took hold of the strike situation to-day has pleased the employers. He ordered his deputies to get on the wagons and protect the drivers. About thirty of the newly sworn in deputies refused to accept service and were discharged. They were union men who had been sworn is without the sheriff knowing their

in without the sheriff knowing their identity. About 500 deputies have already been sworn in and the number will be increased to morrow. They will be used principally in guarding the departmental store wagons in the outlying sections of the city, those deliveries having been practically suspended.

Accuse Police and Mayor.

A further attack on the city administration was made by the executive committee of the Employers' Association in a formal statement issued to-night, declaring that the police have been shamefully derelic in their duty in suppressing violence, and that Mayor Dunne is responsible for that condition. Advertisements have been inserted in the newspapers calling for "Free American" tisements have been inserted in the newspapers calling for "Free American citizens who are willing and competent to drive a wagon in this city." Applicants are assured of permanent positions if competent and guaranteed of strikers.

Rioting continued in various parts of the city again to-day, especially in the down town district. Several people were hurt during the day, including bystanders, as well as strikers and strike breakers. Numerous arrests were made. An order issued early in the day by Chief of Police O'Neill directing that all persons should be prevented from following wagons as they went thru the streets, had much to do with the absence of rioting. The police today turned back all groups of men that attempted to follow wagons.

Public Can Bring Pressure At Fort William July 1 To Defeat Western Coercion

Meetings in Every Municipality Will Compel Government to Abandon Autonomy Bill.

Parliament has upheld the principle of the coercion clauses of the autonomy bill by a large majority. The pronouncement does not reflect public sentiment thruout the country. Ontario, the whole west, New Brunswick, Nova Scotia and Prince Edward Island are opposed to the coercion of the people who are about to enter the sisterhood of provinces. Their representatives in the following of the government were induced to support the bill by the most despicable means. Some of them were appealed to on grounds of party expediency. Some of them were tempted, some were intimidated. And the result of this manipulation is that the house of commons has passed the second reading of

EXTRAORDINARY LEGISLATION. Ordinarily the members who have betrayed their constituents may be left to the judgment of the people. For the common, everyday crimes against good government this is sufficient. But the autonomy legislation is extraordinary legislation. It affects the liberties of half a million people of the present day, and it reaches into the future to lay upon the millions who are to inhabit the Northwest restrictive legislative action in the matter of education. It will not help the 500,000 people who are the present victims of coercion or the millions of new gentorships and public office. The great question is, how can we prevent the perpetration of the outrage? Popular vengeance, as manifested at but obstruction at Ottawa, obstruction aimed at the life of the coercion clauses of the autonomy bill, will render the west secure in the liberties that the other provinces enjoy. Obstruction defeated the remedial to-day as it was in 1896.

Fifty-nine members are on record against the coercion of the can prevent the bill going thru the committee stage. Ten members indefinite length of time. Surely there are, among the 59 members who voted against the autonomy bill, 20 who are prepared to make this struggle, for the independence of the Northwest.

be found to obstruct the measure, but the willing must have encouragement and the lukewarm must be urged. And here is where the public comes in. The public is the one force which can initiate obmaintain it to the point of success. If the public is in earnest, and we believe it is very much in earnest, it has only to manifest its desire for obstruction to have its mandate fulfilled. To every Ontario elector interested in protecting the Northwest against the imposition of separate schools, The World would say:

him to state specifically what he is willing to do to defeat the coercion clauses. Pass strong resolutions calling upon your member to enter the campaign of obstruction at Ottawa. A month of meetings of this kind, in conjunction with obstruction

tactics at Ottawa, will compel the government to abandon its policy of coercion Many things have happened since the bill was introduced to cause the government to hesitate to proceed with its coercion program. The majority it has secured on the second reading is large in appearance, but it has size without substance. The right kind of resistance will shake it to its very foundation, and the government will not dare risk the result of a large siege backed up by public senti-A CLEAR-CUT ISSUE.

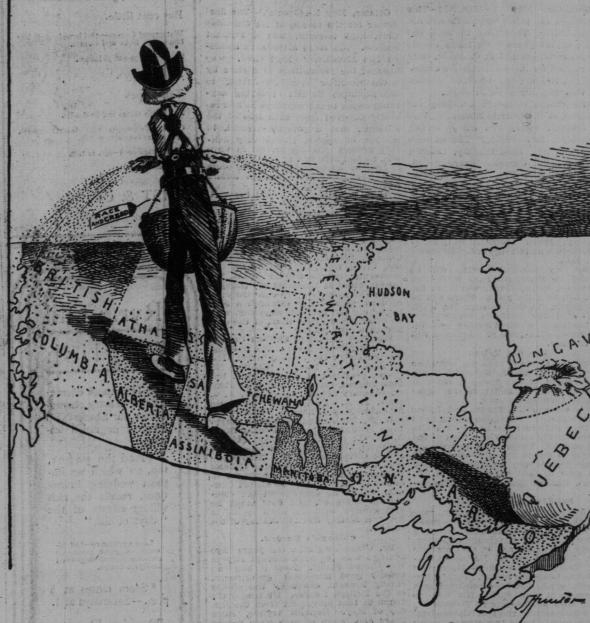

The World believes that the issue in the autonomy bill is more distinct to-day than it ever was. The line of cleavage is clear. There can be only two camps of public opinion, that which will fight the bill till it is defeated or withdrawn, and that which favors or condones the coercion of the Northwest. The Globe must join one or other of these camps. So must Leighton McCarthy, M.P. So must every public man and public journal which has taken the position that the Northwest shall be free. It is important that the public should know who are the true and who the spurious friends of provincial rights and educational liberty. And it will find out if it forces its representatives to take one side or the other of the simple question: "Are you prepared to oppose the coercion clauses till they are

Premier and Downey Star At First Baseball Game

Toronto Beat Rochester In Garrison Finish, Scoring 6 Runs in Eighth and Ninth, With Much-Needed "Homer" to Exelte the Fans.

The Eastern League baseball season was formally opened Friday after-noon at Diamond Park. The weather was ideal-nice and warm, without wind. The threatened showers didn't materialize, and the result was a bumper crowd for our opening day and a Friday at that. The impression has been gaining ground of late that Toronto has a strong team this year; this impression was rather increased by the opening experience on Friday at the ball grounds, and if the same quality of ball is served up in the coming games as was developed in the initiatory game doubtless crowded stands will result all summer. For many years Toronto has been unable to win the opener; few there are who remember a time when the first was chalked as a victory. But Friday's game dispelled this old idea, and for the first time in many years the opening contest resulted in a victory. The crowd, tho anxious to win hardly expected their team to win out; consequently when they did so, the fans ronto has a strong team this year; quently when they did so, the fans went wild, tossed caps in the air and crowded over the stands onto the field and even up to the playing lines.

Crowd Big and Curious. The opening attendance was a remarkable one, considering all the circumstances. It was, however, doubtless due to a desire on the part of the Toronto fans to see what kind of a team Manager Harley has collected. It was also due to the fact that Hon. J. P. Whitney, Premier of Ontario, had consented to onen the nitching season consented to open the pitching season and that J. P. Downey had consented to catch. Everybody was anxious to see the new battery work in the initial game. And they were not disap-

It required fully all afternoon to get the season of 1905 initiated. First on the program was the usual procession. It left the Grand Union Hotel at 1.45 and toured several of the important downtown streets. First came a small detachment of mounted policemen, then the Q. O.
