OUR Child's Eyes re They Normal

Defective? TORONTO, Oct. 1.—Raoul* Langlois and Aaron Josephson of Windsor, Ont., the latter recently a student at McGill University, ordered liquor from Montreal, Langlois 199 cases, for which he paid \$7,000, and Josephson 100 cases, costing \$3,572. The lequos was seized in the express office at Windsor, and on order of Magistrate Miers of Windsor, was confiscated. Both men appealed against the magistrate's decision, but Mr. Justice Meredith here today upheld the magistrate and dismissed the appeals. The judge ruled that the magistrate was justified in deciding that it was too much liquor for private use. The answer is of the utmost importance. Defective eyesight in children often escapes detection for years and leads to ill-health and backwardness in studies.

Don't guess about your child's eyes. Let us examine them. The proper fitting of glasses NOW may make them unnecessary later. Isn't it worth while to find out—TOMORROW?

Capt. Lendrums, whole motoring from Ennistimon to Ennis on September 22.
