

SPLENDID RESPONSE FOR THE WORLD SOX DAY

Race Among Expert Knitters Arouses Keen Interest in Soldiers' Welfare.

MRS. GODARD WINNER

Prize Given by Mrs. O. B. Shepard for Efficiency in Using Needles.

Sox are now literally pouring in to the World Knitting room, and the race among some of our expert knitters is being keenly contested. Yesterday afternoon Mrs. O. B. Shepard's first prize for speed and efficiency in knitting a sock was captured by Mrs. M. E. Godard of 440 West King street. The prize was a novel little set of silver carriage knitting needle guards, Mrs. M. E. Godard, another of the regulars who has done much to boost the campaign, won the second prize, a silver thimble. There was a very good turnout of knitters yesterday, who were all most enthusiastic over the contest, and the music provided during the afternoon.

Miss Minnie Evan-Jones, an associate of the London College of Music, E. J. Lohd, played several selections, and also the accompaniment for a little boy who came in to sing patriotic songs for the workers.

It is now less than two weeks before the close of the campaign. Those who have not started or taken any kind of active interest in this huge project on behalf of the men in the trenches should get busy at once. It is late, but not too late, to make up for lost time. Even what little can be done in the next week or so will help—every pair of socks that come in here helps for one Tommy who will have comfortably dressed feet, while the pair of socks that you send lasts, instructions will be freely given to all who wish to help. Just call at the knitting room, fourth floor, 40 West Richmond street, or phone, and any information you wish to get about socks will be furnished. All donations should be addressed to Miss Ball, convenor "Sox Day," 40 West Richmond street, phone Main 5308 or Parkdale 4971.

Here Is a Certified Cure

Of Chronic Salt Rheum

By Use of Dr. Chase's Ointment—Also a Bad Case of Eczema Just Reported Cured.

Eczema and Salt Rheum are different names for practically the same disease. Small pimples or vesicles form in groups, break and run watery matter, a crust is formed, itching is intense and the disease shows a strong tendency to spread over the body.

Whatever may be the cause, Dr. Chase's Ointment will cure, for it heals and dries up the sores and leaves the skin soft and smooth.

Mr. George E. Compton, Brooklyn, Lot 61, P.E.I., writes: "I suffered for two years with Salt Rheum. Though I consulted three different doctors and tried many medicines, it was all to no effect. A friend advised me to try Dr. Chase's Ointment, and I am glad to say that when I finished the sixth box the Salt Rheum was all gone. There can be no doubt that the cure was entirely due to the use of this ointment, and I want other sufferers from Salt Rheum and Eczema to know about it."

Mr. George Hume, J.P., Brooklyn, Lot 61, P.E.I., writes: "This is to certify that I know Mr. George E. Compton and believe his statement to be true and correct."

Mrs. Allan Weber, whose husband is proprietor of the Manitoulin Woolen Mills, Shegungah, Ont., writes: "I have had a bad case of Eczema on my right leg below the knee. I tried all kinds of ointments and liniments, but to no avail, and was pretty well discouraged. Hearing of how Dr. Chase's Ointment is curing Eczema, I decided to give it a trial, and am glad to say that it made a complete cure. The sores healed up completely, and I have had no trace of the old trouble for over a year."

It takes a little patience to cure a severe case of Eczema or Salt Rheum, but you soon obtain relief by using Dr. Chase's Ointment, and you can see with your own eyes the benefits obtained once the healing process sets in. Dr. Chase's Ointment, 60 cents a box, all dealers, or Edmundson, Bates & Company, Limited, Toronto.

SECRETARY EXPLAINED PROHIBITION CAMPAIGN

Newton Wylie of Committee of One Hundred Gave Lucid Exposition of Work.

HOW MOVEMENT STARTED

Keep Politics Free From the Organization and Will Not Embarrass Parties.

Newton Wylie, general secretary of the Citizens' Committee of One Hundred, gave a most lucid exposition of the work of the organization he represents, at a drawing-room meeting held at "Oakland" yesterday afternoon.

Detailing the origin of the movement in Ontario he told of the meeting called for Oct. 15, to which men came from many parts of the province, one hundred and fifty in all. Conferences followed during which the consensus of opinion was gathered regarding a prohibition issue. It was then decided to launch a short whirlwind campaign, and 100 business men were selected as leaders. It became the work of the existing body could carry the work thru to a conclusion satisfactory to all. It is the wish of the organization to be free from the politics and to be free from the government nor the opposition.

The campaign so far has 34,556 people working on a petition which will show the attitude of the province towards prohibition. This petition seeks to show the government that the people are ready by large majorities for prohibition. It will come from every polling booth in Ontario. So far great success is announced, the lowest polled in favor being 61 per cent, and in many divisions the entire 100 per cent of the voters have been won by the cause.

Quebec was held up by Mr. Wylie as a most inspiring of the movement. When a plebiscite had been taken, Quebec gave an adverse vote with \$4,000 majority. Today out of 114 municipalities 906 are "dry." Every bishop is solid behind the movement. A few of the older among the priesthood are indifferent, but the younger ones to a man jump into the fight and are the lieutenants in the campaign.

Example for Province. St. Agatha was giving a vote of 421 in favor, with only one vote against, and another municipality gave 248 votes for, with none against. The archbishop has been only hesitating until a favorable time, when prohibition would sweep Quebec and be a grand example for the rest of the province.

Progress in the west was also outlined by the speaker. He told of a dramatic convention of farmers at Regina, to which the premier was invited, and of their unanimous demand for prohibition. Two weeks later it was announced that every licensed place would be closed. Government dispensing shops were opened in Saskatchewan, with the proviso that liquor bought there might only be drunk in dwelling houses, and by many of these was abolished. Alberta had direct legislation on the matter. Regarding Manitoba, the speaker quoted Mrs. Nellie McClung, when she proposed a vote of four to one in favor.

Referring to the advertising of the Prohibition League, Mr. Wylie said it had done the cause no harm, but had given the committee of One Hundred publicity which would have been paid to pay thousands of dollars. It also served to round men up on one side or the other, which was good business. The meeting was also addressed by C. F. McFarlane, chairman of the committee for Toronto. Kathleen McDonald contributed two delightful solos.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE.

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starch, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food, foods which you may like, in modest amount, taking immediately afterwards a teaspoonful of bisulphated magnesia. This rule eliminates any acid which may be present, which may be formed, and instead, you will find that your food agrees with you perfectly. Bisulphated magnesia is doubtless the best food corrective of acidity of the food contents, and thus moving the source of the acid irritant which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine."

A physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with the usual feeling of uneasiness and distress—the cause of all the trouble. Get the acid-bisulphated magnesia from your drug-gist, eat what you want at your next meal, take some of the bisulphated magnesia as directed above, and see if it is not right."
