Lumber Business To Britain Unrestricted

Volume Limited Only by Amount of Tonnage Available, is Prediction—Smithers Makes Statement on G. T. P. to Shareholders.

Ottawa, March 21—Recent advice from Canadian mission in London is to the effect that the timber control will soon be lifted and Canadian lumbermen are advised by the mission to get in touch with the ordinary trade channels, as the volume of business will likely be limited only by the ocean tonnage available.

CHAIRMAN'S STATEMENT ON G. T. P. London, March 21—(By Canadian Associated Press, cable)—A. W. Smithers, chairman of the Grand Trunk Railway at a shareholders' meeting today gave an exhaustive statement covering negotiations with the dominion government. He urged that the Grand Trunk Pacific should at all events be treated with the same consideration as the Canadian Northern. British investors should receive treatment consistent with the honor and interest of Canada.

THE MARKETS AT A GLANCE

There is a belief in certain sections of the steel and iron trade, and it seems to be fairly well founded, too, that the talk about price reductions coming is being carried on at too great length. It can have only one effect, that of holding back the market. There are firms today who would order one hundred tons of plate, for instance. They have the stocks to guarantee it. Instead of making it to let the mills have only twenty or so tons at a time, in the hope that at least a large portion of the order will get the benefit of whatever reductions may be made. It is also worth noting that as low as 2 1/2 per cent has been quoted at an American point for a fairly large sized order of plate. April 1st, centrally located. Address Z 62, care Times. 96247-3-26
