Popularity of Tea.
The spread of prohibition is said to be the main cause for the extension of tea-drinking in the United States, where the imports of tea rose from 108,000,000 pounds in 1917 to 161,000,000 in 1918. "After the reopening of Russia," says a New York authority, "the consumption of tea must far exceed any possible production for some years to come."

The Birks Gift Book

The Birks Year Book—often called Canada's Gift Book—will be ready in a week or two. As formerly, it is one of the finest specimens of the printer's art ever produced in Canada. Color has been used freely, and there are more illustrations than ever before.

With this book before you, you can do your shopping in the comfort of your own home. Just as easily and satisfactorily as if you were in Montreal.

The edition is limited and we are anxious that it should not only find its way into the homes where it will be most appreciated.

To ensure our copy write as to-day. It will be sent you free on request.

A Special Purchase and Showing of Misses' Navy Blue Serge and Velveteen Dresses

Notice:

We shall have on display tomorrow a special purchase of Misses' Dresses in sizes 16, 18 and 20 years. The low prices for which they will be sold will be most unlooked for on account of the present high cost of the materials used in them.

These Dresses comprise the season's very latest models and are developed in Navy Blue Serge, Serge and Satin combinations, Velveteen, or Silk and Velveteen combined.

The principal style points are loose fringe trimmed panels, Mandarin styles, long loose-fitting tunics with various wash effects, slightly high waisted models for youthful figures, and accordion plaited skirts.

Many newest neck styles are in evidence, among them being the collarless dress, round, square and V-shaped necks and smart, convertible stole collars. Artistic touches of braiding, silk embroidery, button and pipings in rare shades add just the right color effects.

Misses' and Small Women's Sizes Only
Very Low Special Purchase Prices, \$22.00, \$25.00 and \$27.75

MODEL TOWNS FOR WAR WORKERS

Perhaps the most remarkable example of the government's ability as a town builder is York, near Camden, N. J., designed to serve employees of the New York Shipbuilding Corporation, writes Robert H. Monahan, in the December Popular Mechanics Magazine. This town, where 10,000 of Uncle Sam's

ship-workers will live might almost be said to have been built overnight. Starting work early in the summer, about a thousand houses were ready for occupancy in October, with another thousand to follow within a few months. The plan for York is perhaps the most complete town plan ever made. Every house is complete; it has hot and cold water systems, modern plumbing, up-to-date plumbing fixtures, gas range, hot-water heater, electric light, and cell-

ar furnace. The government has at its service the best town planners and architects in America, and with all the haste that is being made, beauty and good taste are not being sacrificed. The houses will not be all alike in color, material, or style. On the contrary, throughout each of these spacious, stunnerous tracts will be evidence that the things were planned as a whole. The chief benefit which accrues to the worker

from the building of these towns is the fact that landlordism is to be a thing unknown. The benefits are to go unfailingly to the workers. Rents must be based on cost, and not on the maximum which the tenants can be forced to pay. And inasmuch as the government has no desire to retain the ownership after the war, a scheme has been evolved to sell them, not to individuals, but to the new communities as a whole, to be held in trust as community property.
