

Liberal Victory On Island

Charlottetown, Aug. 30.—Three Liberals and two Conservatives were elected in the provincial by-elections here today, leaving the standing of the parties in the house of assembly unchanged, namely, Liberals, 24; Conservatives, 8; Independents, 1. The government gained one seat in Fifth District of Prince but lost one in Third Prince.

The voting resulted as follows: First District Prince—Jeremiah Blanchard, Liberal, 531; Gilbert Gaudet, Conservative, 500.

Third Prince (two seats)—Adrian Arsenault, Conservative, 521; Maturin Gault, Liberal, 461; Thomas MacNutt, Conservative, 387; A. S. Croslen, Liberal, 333.

Fifth Prince—Dr. J. F. McNeil, Liberal, 424; J. E. Wyatt, Conservative, 380.

Fourth Kings—Captain M. H. Bonnell, Liberal, 264; W. L. McLean, Conservative, 194; J. A. Gillis, Progressive, 137.

Voting was comparatively small, due partly, it is thought, to an impending general election next year.

The campaign was short and sharp. Government speakers asked for support on the ground that the government had the courage to increase taxes and place the finance of the province on a sound footing. They said also teachers' salaries had been increased and the island had been given improved roads.

The Conservatives contended that the Liberals had not bettered the finances to the extent contended, that they had broken their promises to the people when they increased taxes and that the new road policy meant a waste of money, because the roads were permanent, and a big increase of debt.

The by-election, the first held since the government came into power three years ago, were necessitated by the death of Hon. Benjamin Gallant in First Prince; elevation of former Premier Arsenault of Third Prince to the supreme court bench, the election of A. E. McLean to the federal parliament and the resignation of J. A. McNeil, McLean's opponent in the dominion elections, in the Fifth Prince, and to the death of William Sutherland in Fourth Kings.

For the first time in a provincial election the Progressives had a man in the field.

THE CHURCH OF THE ASSUMPTION PICNIC A SUCCESS

"A grand success" was the description given of the Church of the Assumption picnic both by those who were on the grounds and also those who attended the affair. The attendance was exceptionally large, it being estimated that more than 3,000 were present during the afternoon and evening. The grounds were tastefully decorated with flags and bunting and the different booths were adorned with many beautiful and attractive displays.

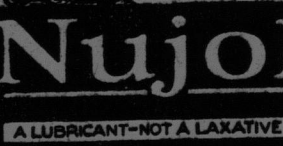

A large variety of games and amusements were on hand to attract the people and those in charge were kept busy supplying the wants of the many customers. The City Cornet Band was in attendance during the afternoon and evening and played much appreciated selections. The number of suppers served during the evening broke all previous records. In the evening the grounds were well lighted with electric lights, which were strung all over the church grounds, and the picnic presented a pleasant aspect in a large degree due to the large and efficient committee who were untiring in their efforts.

Constipation

Relieved Without the Use of Laxatives

Nujol is a lubricant—not a medicine or laxative—so cannot gripe.

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowels to keep the food waste soft and moving. Doctors prescribe Nujol because it is this natural lubricant and thus replaces it. Try it today.

AGAIN FACES WINTER FAMINE

Russia's Prospects for Bumper Harvest Dwindle Till Situation is Alarming—Foraging Expeditions.

(Special Cable to the N. Y. Times and Montreal Gazette)

Paris, Aug. 27.—Russian bumper harvest prospects, which were so much advertised by Litvinoff at The Hague, have dwindled to a point where the country is threatened with a winter of unparalleled hardship, according to the correspondent of the Vichy, who reports an interview with the inspector of a great international concern, who has just completed a survey of that country for his employers.

The situation has become so alarming to Moscow that expenditures have been reduced and requisitioning expeditions have been dispatched to every district in an effort to collect sufficient grain to stave off complete famine in the cities till next harvest, the inspector declares.

The informant, who is not named for obvious reasons, was sent into Russia to study food, transportation and financial conditions. All three, he declares, are in a hopeless state.

The harvest situation is most perilous to the Red government, menacing as it does, the life of the peasants. Transportation and finances have reached the limit of their ruin, but as ruin in this direction is more or less gradual the danger is not so imminent.

"In Moscow the fact is no longer concealed that the populations of the cities will have an even harder life this winter than last," the informant states.

"The government is perfectly cognizant of the situation and expeditions to requisition wheat have gone into all regions, even the famine districts of the Volga. The peasants are begging that the crops be not confiscated, declaring that they are not enough for their families."

In certain regions "green bands" have appeared to defend the grain against requisition. It cannot yet be forecast whether they will emerge victor in the struggle.

"As regards transport, all competent persons agree that the situation is graver than last year. In 1921 the Bolsheviks acquired 100 locomotives from Germany. The majority of these are ready are out of commission and lie on sidings of the stations.

"There is more order on the lines than before—on time, but it is the order of the cemetery."

"As regards finance the budget duties of twenty-five to sixty per cent placed on all industries and commerce, and enforced by adolescent commissioners have already caused the failure of a great number of enterprises committed under promises of a 'new economic policy.' Church valuables which the Bolsheviks retained under the pretence of helping the famine sufferers are exhausted, and now they have killed the income from industry by making it impossible for exploitation or industry to exist in Russia."

SUPER-COW GIVES MILK FOR 30 DAYS

U. S. Department of Agriculture Has Herd of 6 Yielding 170 Quarts a Day.

Washington, Aug. 30.—Breeding a dairy cow that will give enough milk to feed thirty children a day, more than six times the capacity of the ordinary cow, is one of the feats of the industry which has been accomplished by the United States Department of Agriculture, and which can be done by proper feeding and selective breeding. On its experimental farm near Beltsville, Md., the department has a herd of six cows, the result of breeding work, that have produced an average of more than 22,000 pounds of milk in 365 days. This little herd yields enough milk to provide a quart a day to 170 children.

An ordinary cow, or scrub, produces only enough milk to feed five children a quart a day, while a good cow yields enough to give twenty children a quart a day. The super-cow, as the department calls her, and there are more and more of them in this class every year, gives enough milk so that a small herd might easily supply this quantity to all the small children in a small town.

The improvement of dairy cows means more than increased profits to the dairyman, the department declares. It means cheaper and more milk, the best bone and muscle maker for children. Good breeding and good feeding, have made the difference.

Use the Want Ad. Way

EUROPE'S PLIGHT TO COME UP IN LEAGUE

Some Delegates Declare Assembly Should Take up Economic Situation and Lloyd George May Force Action, It is Thought.

Geneva, Aug. 30.—Early arriving delegates to the third assembly of the League of Nations bring reports of pessimism throughout Europe owing to the failure of the Genoa and Hague conferences and the London meeting of the Allied premiers. They declare with one accord that the time has come to speak out and call things by their right names, and fix responsibility for the increasing demoralization of Europe.

This promises for next week a lively opening for the assembly which will take up first of all a report on the activities of the council, after which the assembly is expected to discuss the question, which is regulated by the treaty, but certain delegates believe that nothing can prevent its discussion as it is so closely related to the economic situation.

Some of the delegates seem inclined to turn the discussion of the report of the council into a series of interpretations as is customary in European parliaments.

During such interpellations the council would be questioned and asked to explain itself on all shortcomings in the work of the League during the last year. Failure to do anything for Austria would, it is pointed out, particularly furnish material for their kind of a debate.

The possibility of the presence of Premier Lloyd George largely increases the interest in the assembly proceedings. It is openly declared by some of the delegates that the British prime minister will take this opportunity for a strong effort to force action on the economic situation.

Committees and sub-committees continued their efforts today to agree on the text of the treaty for the reduction of armaments for submission to the assembly. They are taking as a basis three propositions, the first, Lord Esher's, for the reduction of land armaments; second, Lord Robert Cecil's, for regional agreements guaranteeing the security of the signatories, and third, the proposed extension of the Washington records to naval armaments.

Lord Robert Cecil's plan is strongly favored, it is the first move to limit security, the lack of which is the most common pretext for maintaining armaments.

Berlin, Aug. 30.—The cabinet has decided to reject new demands sent through Her cabinet to the German finance ministry, by the reparations commission in Paris for some productive or gold guarantee as a condition to the granting of a moratorium to Germany.

SEVERE SUFFERING ENDURED BY AIRMEN ON WORLD FLIGHT

Calcutta, Aug. 30.—Captain McMillan and Lieutenant Mallins, British aviators, arrived this morning from Chittagong, where they underwent hospital treatment following their rescue from their wrecked seaplane, on which they drifted at sea for fifty hours.

They are still suffering acutely from the effects of their privations, especially from the continued exposure to the blistering sun and sores caused by insect bites.

They are able to walk, but only with difficulty. Both hope to make another attempt to circumnavigate the globe by air next year.

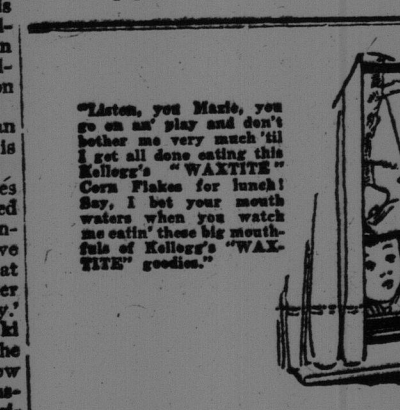

SMUGGLING CHARGE MADE AGAINST TWO MEN FROM SYDNEY

Boston, Aug. 30.—Frederick T. Quirk, of Sydney (N. S.), alleged to hold the charter of the schooner Acadia, which was seized off this port about two weeks ago with foreign liquors aboard, and Michael Power, also of Sydney, are charged with conspiracy to smuggle liquor into the United States. Both were arrested before United States Commissioner Hayes and pleaded not guilty. They were held in \$2,000 each for hearing tomorrow. The arrest followed a ten-day investigation by federal officers. According to the warrant, Quirk and Power conspired to bring several hundred cases of liquor from St. Pierre to Massachusetts Bay.

MIDNIGHT PROWL TOSSES BOUQUET

Knocks Screen Out of Window and Throws in Flowers.

London, Ont., Aug. 31.—Early Sunday someone knocked the screen out of the bedroom window of Mr. and Mrs. Mark Spray at 125 Backville street and tossed in a large bouquet of flowers. The screams of Mrs. Spray awakened her husband and he gave chase to the intruder, but failed to catch up with him. The police were at once notified and joined in the pursuit, but they, too, were unsuccessful. The houses in the neighborhood are similar and the police say the man evidently got mixed and went to the wrong place.

"Listen, you Made, you got on a very much better way than I have. I see you watch me eat Kellogg's 'WAXTITE' cereal."

The perfect child-food for summer—WAXTITE CORN FLAKES serve with fresh fruit!

Let the little folks eat as often as they like and as much as they like of Kellogg's "WAXTITE" Corn Flakes—wonderful summer food for every member of the family!

Just what little and big stomachs need to thrive on best during the hot days; an ideal food to take the place of the heavy meals which upset health, make you sluggish and take the joy out of life!

Kellogg's "WAXTITE" are so extra delightful in summer with fresh fruit—for breakfast, for lunch for "snacks." Try Kellogg's "WAXTITE" Corn Flakes as a dinner dessert with fresh fruit and cream.

Also makers of KELLOGG'S CRUMBLIES and KELLOGG'S BRAN, cooked and branched.

PUBLICITY AGENT FOR GRAND TRUNK RAILWAY NAMED

Montreal, Aug. 30.—Announcement was made here today that Walter S. Thompson had been appointed publicity agent of the Grand Trunk Railway system, reporting to the office of the vice-president and general manager, Mr. Thompson has hitherto been attached to the general advertising department in the position of editor of the press bureau. Prior to joining the Grand Trunk in 1914 he was engaged in editorial work on newspapers in Canada, Great Britain, Australia and New Zealand.

CLOSE CALL FOR MOTOR PARTY HIT BY TRURO TRAIN

Truro, N. S., Aug. 30.—Three young persons narrowly escaped death here this afternoon when they were traveling by train at the Dominion street crossing at 4.45 o'clock by the incoming local train from Halifax.

The occupants of the car were Craig Henderson, Miss Fiona Hay, daughter of Mr. and Mrs. John S. Hay, and Laurie Hills, all of Truro.

Henderson and Miss Hay were injured and taken to the Chichester County Hospital. Besides being bruised each received a scalp wound. Miss Hay was able to go home after her wounds were dressed. Owing to the severity of the accident the train was held up for some time. His injuries include a badly bruised hip.

POINT OF LAW RAISED IN THE FOSTER CASE

Argument in the case of Willard Foster, who is charged with a second offense in having liquor in his possession in a place other than his private dwelling was concluded in the police court yesterday. J. A. Barry for the defence placed a construction upon sections seven and ninety-two of the act to show that only licensees could be imprisoned for a second offense, and that a person who was not a licensee must be given the option of paying a fine until he had been convicted of a second offense. W. M. Ryan contended that the sections applied to licensees and non-licensees alike and that for a second offense by any one, there was no option of paying a fine.

Magistrate Ritchie reviewed the points of the case adhering to his judgment in the Burke case. Upon the request of the counsel for the prosecution, written judgment will be given in the case some time next week.

ZION METHODIST GARDEN PARTY

A highly successful garden party was held yesterday afternoon on the spacious grounds of Miss E. Haggerty's residence in Burpee avenue by the ladies of the Zion Methodist church, in aid of the church funds, and the occasion was both a financial success and a very pleasant social gathering. A large number of patrons attended and the weather proved ideal. The grounds were prettily decorated and each of the booths had pleasing decorations of flags lanterns and

WORLD FICTION FOR OCTOBER

World Fiction for October continues its policy of going to a variety of sources for its material. The countries represented in this issue are Germany, Russia, France, Italy, Spain, Denmark, India and Hungary. There is also a clever story of the American Army of Occupation. The leading complete novel, "Golovin" is from the German of Jacob Wassermann, the author of "The World's Illusion." It is an exciting story of the difficulties experienced by a woman aristocrat in her attempts to escape from Bolshevik Russia. "The Wreck," by Georges Duhamel, is an extraordinarily successful character study of the influence of a chance wreck on the entire population of a village. A little one-act play by Franz Molnar, a virtue

MEGANTIC The Ship Magnificent

Ever since she entered the Montreal-Quebec-Liverpool service, the Megantic has been the choice of those ocean travellers who demand the luxury and comfort obtainable only on a first class steamer.

The Megantic bears out the reputation of the White Star-Dominion Line for maintaining the highest standard obtainable in ocean service—a standard backed by 50 years of sailing the seas. The White Star, Red Star and American Lines maintain regular services from New York to Continental Ports.
