#### Russians at Taku.

London, June 20 .- The British admiralty has received a telegram from Rear-Admiral Bruce, dated Taku, June 18th, via Chee Foo, June 20th. After a mere mention of the capture of the forts at Taku, Admiral Bruce adds:

"The Chinese admiral was present with the allied fleet, his flag flying from a cruiser. At a meeting on June 17th he agreed to anchor with the fleet, putting out his fires.

"No news has come from the commander-in-chief and the advance guard. A heavy fire was heard at Tien Tsin the the Chinese general. Hope is entertain night of the 17th. Washington, June 20.-The American minister at Tokio telegraphs that two transports, with 1,300 men and 300 horses, sailed to-day from Japan for Taku, that 600 Japanese troops have already landed, and that five Japanese war vessels are now at Taku. He adds . that the Japanese government is prepared. to send additional forces should the i necessity arise.

430. There are 6,000 men ashore now at Chee Foo and about 3,000 troops, Russian, German and English have just arrived." The naval officers take some comfort from the report of the French consul in Shan Tung, transmitted by Consul Fowler, to the effect that the missionaries at

Tsang Chow were carried off alive by

Owing to the vague character of the French consul's report, however, it may be said that the above inference is strained. The Solace, which embarked a full

battalion of marines from Cavite about five days ago, is understood to have ar-rived at Chee Foo, on her way to Ta-ku. It is not possible for the Solace to ascend the Peiho river above Taku, so that if the marines are to be landed at Tien Tsin, their destination, they must

be transhipped in small boats. It was said by the officials to-day that no additional reinforcements, naval or military, have been ordered to China. Gunboats Princeton and Marietta and supply ships are still lying at. Cavite, ready to sail for Taku at a moment's no-
