ASK ASSISTANCE FOR THE MINERS

APPEAL ISSUED BY FEDERATION OF LABOR

Nothing Is Likely to Result From Conferences Which Were Held at New York.

Waslington, Oct. 11.-The American Federation of Labor, through its executive council, to-day issued an address to miners, and denouncing the attitude of the mine-owners, on whom, the appeal says, must rest the responsibility for the hardships resulting from the coal famine. The address has been under discussion in | tions are: secret sessions of the council for several days, and is as follows:

Birmingham, Eng., Oct. 9.—The much discussed conference of the Liberal-Unionists which was called by Colonial Secretary Chamberlain to formulate the attitude of the Birmingham Liberal-Unionists towards the Education bill, was held here to-night. Mr. Chamberlain presided at the meeting and enunciated his views in a lengthy address. He said he had always been in favor of the government providing only secular education, but, rightly or wrongly, the majority of the country required that religious instruction of some kind be given. If the country could not get what it wanted from a Unionist government, it would get it from the Radical government, which would follow the government, which would rollow the government in might smash.

Mr. Chamberlain advised the Liberal-Unionists to do nothing to assist the intrigues of those who would hand over ireland to the Home Rulers, who would transfer South African problems to the discretation of the pro-Boers, and who would leave the problems to the discretation of the pro-Boers, and who would leave the problems to the discretation of the finest tugs ever in these waters. iand to the Home Rulers, who would transfer South African problems to the discretion of the pro-Boers, and who would leave Imperial interests in the hands of "Little Englanders," and domestic affairs to the framers of the Newcastle programme.

The Colonial Secretary said that he could promise one thing that was certain, namely, that the Education bill would not be withdrawn. He said the government could not withdraw it without a tremendous loss of prestige, and that the only logical alternative to the acceptance of the bill would be the expenditure necessary to replace the existing denominational schools. In conclusion, Mr. Chamberlain announced that if the government was defeated on this bill it would resign. He warned his hearers to mark that and to remember the consequences.
